I'm a technology consultant with a passion for small business, community and the great outdoors.

I have lived in Kwinana for 32 years. Since being elected 2 years ago I have brought energy, a new perspective and a loud voice in representing all residents in council decision making. When I didn't understand, I listened and I learned. When I didn't think something was right, I asked the tough questions and respectfully fought for a better outcome. I have taken my role seriously – never missing a council meeting, never missing a council vote.

With your support I'll continue shaping our city into a destination that's vibrant, clean and safe all year round. I'm committed to delivering accountability, practical steps towards sustainability and empowering local groups and changemakers to kick big goals.

Together, let's be open and innovative in tackling our city's challenges, excited about our city's future and partners in building a community where you are proud to live, work, shop and play.
