26 June 2024

## Minutes

An aerial photograph of a suburban neighborhood. In the foreground, there is a large commercial building with a modern, angular design and a glass facade. Behind it, a residential area with many houses is visible. The image is overlaid with a blue, wavy, abstract graphic that flows across the top and middle of the page. A semi-transparent white box contains text at the bottom left.

Members of the public who attend Council meetings should not act immediately on anything they hear at the meetings, without first seeking clarification of Council's position. Persons are advised to wait for written advice from the Council prior to taking action on any matter that they may have before Council.

Agendas and Minutes are available on the City's website [www.kwinana.wa.gov.au](http://www.kwinana.wa.gov.au)

#### **5 PUBLIC QUESTION TIME**

##### **5.1 MR ROBERT AMBROSE, CALISTA**

Question 1

Is there currently daily independent monitoring of the levels of any toxic chemicals emanating from the stacks of the newly opened WtE facility on Office Rd and are the results of such monitoring publicly available in real time?

Response

The Mayor referred the question to the Director City Development and Sustainability.

The Director Development and Sustainability advised that the City is unable to comment on the Waste to Energy Facility on Office Road, because it is in the City of Rockingham.

However, in the case of the Waste to Energy Facility at Kwinana Beach, the Director Development and Sustainability explained that it has not yet commenced operations and that once it does commence operations it will be subject to monitoring through the state regulatory bodies such as the Department of Water and Environmental Regulation and the Environment Protection Authority, not the Local Government.

Question 2

Are the contributing LGA s including Kwinana, financially liable for any interruption of their supply of rubbish feedstock to the facility which results in its sub optimal operation causing its operators to lose revenue and/or incur major unforeseen costs?

I understand this is a 24/365 process where any slow down or stoppage would likely be very undesirable!

Response

The Mayor referred the question to the Director City Development and Sustainability.

The Director City Development and Sustainability advised that, the City of Kwinana is only contributing waste to the Waste to Energy Plant and the only obligation is to provide a minimum tonnage supplied to the actual plant. The City isn't financially liable for any of the Waste to Energy operations and in the case of Kwinana Beach in particular, there are two supply lanes that the facility operates which is designed to be able to manage the waste to enable the operations to continue, whilst maintenance and or other shutdowns occur within the plant. It is the City's understanding that the bunker has the capacity to provide for up to two weeks of waste to be stored for operational continuity purposes.

The Director City Development and Sustainability explained that any further questions in regard to the facility's financial obligations or operational needs are for the operator to provide.

Question 3

If the publicly stated CO2 emission reduction figure as being the equivalent of 80k cars is an accurately arrived at net amount taking all inputs into account?

Response

The Mayor referred the question to the City Director Development and Sustainability.

The Director City Development and Sustainability advised that the actual figure of 80K or 80,000 cars of CO2 emission reduction is related to the equivalent CO2 emissions saved from 460,000 tonnes that would normally go to a landfill as opposed to going to a waste to energy facility and it does assume that all the inputs are taken into account when that emissions reduction figure has been determined and that includes things like transport etc.

#### **DECLARATION OF INTEREST**

There were no declarations of interest declared.

#### **SUMMARY**

As part of planning for the future, all local governments in Western Australia are required to develop and adopt a Strategic Community Plan (SCP) and a Corporate Business Plan (CBP). Together, these documents form the City's 'Plan for the Future - Kwinana 2030'.

The SCP outlines the community's long-term vision and aspirations for the area, while the CBP details how that vision will be achieved by linking the City's business operations to the community's vision.

In accordance with the *Local Government (Administration) Regulations 1996*, a review of the CBP has been undertaken and the amended CBP is available for Council's consideration, as at Attachment A.

#### **OFFICER RECOMMENDATION**

That the Audit and Risk Committee note and provide comment where appropriate on the minor review of the Corporate Business Plan 2021 – 2025 as detailed in Attachment A.

#### **AUDIT AND RISK COMMITTEE RECOMMENDATION**

That Council adopt the minor review of the Corporate Business Plan 2021 – 2025 as detailed in Attachment A.

---

#### **VOTING REQUIREMENT**

Absolute Majority.

#### **DISCUSSION**

Integrated planning and reporting are intended to ensure that local governments have a clear vision for their community and a strategic direction for their organisation. This is to align with medium and long-term priorities as well as resources over a ten-year period.

The CBP is an internal business planning tool that translates council priorities into operations within the resources available. The plan highlights the services, operations, projects and initiatives a local government will deliver within a defined period. It also includes the measures associated with delivering services, operations and projects and the costs associated. The CBP is further informed by various informing strategies, such as, the:

- Long Term Financial Plan;
- Workforce Plan;
- Asset Management Plans;
- Various area specific plans and strategies; and
- Integrated Team Business Plans

Proposed changes to the City's CBP include the following:

- Minor changes to the CBP include general graphic, layout, wording and grammatical amendments.
- New layout regarding each Outcome, their service, responsible team and UN Sustainable Development Goals to incorporate the projects, major projects, programs and projects/programs to provide a full overview
- Objective 2.1 was updated to remove reference to Covid.
- Added of a 'snap shot' providing updates on those key actions that have been completed and also the introduction of new key actions.
- Inclusion of the City's Elected Members.

As stated in the *Local Government (Administration) Regulations 1996*, each local government is to review its CBP every year, with a strategic review occurring every two years. This minor review of the CBP, as detailed in Attachment A, will achieve this requirement. City Officers have extensively reviewed the 2021-2025 CBP and have recommended minor changes to ensure the City's operations are aligned to the community's vision for the future.

Reporting on the City's achievements towards the vision set out in the SCP is detailed within the Annual Report each year, as will any changes to the CBP. City Officers provide Performance Reports to Council on a quarterly basis to give a progress updated on all actions and measures in the CBP.

Once adopted, the City will ensure copies of the CBP will be available in the Kwinana Library, Administration Centre and on the City's Website.

## STRATEGIC IMPLICATIONS

This proposal will support the achievement of the following outcome/s and objective/s detailed in the Strategic Community Plan and Corporate Business Plan.

Strategic Community Plan			
Outcome	Strategic Objective	Action in CBP (if applicable)	How does this proposal achieve the outcomes and strategic objectives?
5 – Visionary leadership dedicated to acting for its community	5.1 – Model accountable and ethical governance, strengthening trust with the community	5.1.1 – Implement the Strategic Community Plan and Corporate Business Plan	This proposal will support the achievement of all of the objectives and strategies detailed in the proposed Strategic Community Plan and Corporate Business Plan.

## **SOCIAL IMPLICATIONS**

There are no social implications as a result of this proposal.

## **LEGAL/POLICY IMPLICATIONS**

### ***Local Government Act 1995:***

#### 5.56 Planning for the future

- (1) A local government is to plan for the future of the district.
- (2) A local government is to ensure that plans made under subsection (1) are in accordance with any regulations made about planning for the future of the district.

The Integrated Planning and Reporting Framework is governed by the *Local Government (Administration) Regulations 1996*, which sets out the minimum requirements for both the Strategic Community Plan and the Corporate Business Plan.

### ***Local Government (Administration) Regulations 1996:***

#### 19DA. Corporate business plans, requirements for (Act s. 5.56)

- (1) A local government is to ensure that a corporate business plan is made for its district in accordance with this regulation in respect of each financial year after the financial year ending 30 June 2013.
- (2) A corporate business plan for a district is to cover the period specified in the plan, which is to be at least 4 financial years.
- (3) A corporate business plan for a district is to —
  - (a) set out, consistently with any relevant priorities set out in the strategic community plan for the district, a local government's priorities for dealing with the objectives and aspirations of the community in the district; and
  - (b) govern a local government's internal business planning by expressing a local government's priorities by reference to operations that are within the capacity of the local government's resources; and
  - (c) develop and integrate matters relating to resources, including asset management, workforce planning and long-term financial planning.
- (4) A local government is to review the current corporate business plan for its district every year.
- (5) A local government may modify a corporate business plan, including extending the period the plan is made in respect of and modifying the plan if required because of modification of the local government's strategic community plan.
- (6) A council is to consider a corporate business plan, or modifications of such a plan, submitted to it and is to determine\* whether or not to adopt the plan or the modifications.  
\*Absolute majority required.
- (7) If a corporate business plan is, or modifications of a corporate business plan are, adopted by the council, the plan or modified plan applies to the district for the period specified in the plan.

## **FINANCIAL/BUDGET IMPLICATIONS**

The CBP guides the City's budget for the next four years, ensuring that major community outcomes are taken into account through the Long-Term Financial Plan.

An amount of \$1,000 is estimated for the printing of the Corporate Business Plan document.

**ASSET MANAGEMENT IMPLICATIONS**

No asset management implications have been identified as a result of this report or recommendation.

**ENVIRONMENTAL/PUBLIC HEALTH IMPLICATIONS**

No environmental or public health implications have been identified as a result of this report or recommendation.

**COMMUNITY ENGAGEMENT**

There are no specific requirements to conduct community engagement when reviewing the CBP.

The City will ensure copies of the adopted CBP will be available in the Kwinana Library, Administration Centre and on the City's Website.

City of Kwinana

## CEO's Message

I am pleased to present the City of Kwinana's Corporate Business Plan. This Plan outlines the initiatives and services that the City is working towards over the coming years, including the priorities outlined by the community through the Strategic Community Plan.

In 2021, a minor review of the Strategic Community Plan was completed in partnership with the community to ensure that the City's strategic documents are consistent with the vision and needs of the people who call Kwinana home. In light of the review, the Corporate Business Plan Key Actions have also been reviewed and updated to reflect the current priorities of the community.

To remain consistent with the Strategic Community Plan, the Corporate Business Plan undergoes an internal review every year, with a major review scheduled every two years to coincide with reviews of the Strategic Community Plan.

The City of Kwinana is continuing to grow and evolve with a population more than 50,000 residents and, as a community, we can look forward to a promising future of sustainability, inclusion and growth.

Steady population growth and prolonged cost increases continue to present a challenge for the City, particularly in the areas of service provision and infrastructure development, which makes our task of balancing priorities critical.

However, Kwinana's significance to the State's economy and the provision of local jobs remains strong, with emphasis now on sustainable and renewable energy within the Kwinana Industrial Area, and the State Government recently confirming Kwinana as the site for the future Outer Harbour.

The Corporate Business Plan therefore provides clear direction for delivering the services and programs our community has prioritised going forward.

The long-term financial sustainability and affordability of the City's commitments remain in sharp focus for us this year as we continue support this thriving community.

**Wayne Jack**  
**Chief Executive Officer**

# What is a Corporate Business Plan?

The City of Kwinana uses the Integrated Planning and Reporting Framework outlined in by the *Local Government Act 1995* and the *Local Government (Administration) Regulations 1996*. These detail that a local government must have a “Plan for the Future”. The plan for the future is to comprise of two important documents, a Strategic Community Plan and a Corporate Business Plan. The Strategic Community Plan sets out the “what” the community would like their local government to achieve and the Corporate Business Plan outlines how the local government will go about achieving it. To remain consistent with the Strategic Community Plan, the Corporate Business Plan undergoes an internal review every year, with a major review scheduled every two years to coincide with reviews of the Strategic Community Plan.

The Corporate Business Plan activates the Strategic Community Plan by detailing the actions, projects and programs that the City will undertake to achieve the community's vision. It is the key point at which the City's operational activities are aligned to community priorities. To ensure that these activities can be undertaken, the Corporate Business Plan is informed by the Long Term Financial Plan, Workforce Plan, Infrastructure Strategy, Asset Management Strategy, Social Strategy, and issue specific strategies and plans.

The City's Strategic Community Plan has five outcome areas, throughout this document you will see references to how the services and projects the City plans to deliver are aligned to these outcome areas and their objectives.

The Corporate Business Plan and its role in the Integrated Planning and Reporting Framework can be seen overleaf.

# The Foundation – what we do now

For the most part, the City undertakes its day to day operations as usual, providing many important services to the community. Aligning these services with our strategic direction helps us to define the important key services which support the achievement of the plan. Through the City's reporting mechanisms and engagement with the community, the level of service the City provides to the community has been deemed adequate and no changes to current services have been identified for the life of this plan. This provides a stable foundation for the City to build its financial sustainability going forward.

## **Think Global Act Local**

The Sustainable Development Goals or Global Goals are a collection of 17 interlinked global goals designed to be a blueprint to achieve a better and more sustainable future for all. The goals address the challenges we face, including poverty, inequality, climate change, environmental degradation and peace and justice and can therefore be aligned to our leading strategic documents.

# The Future – How we will get there

## Our Vision

**A unique and liveable City, celebrated for and connected by its diverse community, natural beauty and economic opportunities**

## Mission Statement

**Through visionary leadership, retain and enhance Kwinana's unique character by sustainably supporting and developing its community, economy and environment.**

## Four Year Implementation Plan

The following provides the details of how the City plans to deliver its Strategic Community Plan commitments over four financial years.

The City implements a number of core services, projects, and plans and strategies to ensure these outcomes are met. This section also includes budget type, supported UN Sustainable Development Goals and the service areas that are responsible for the delivery of these key actions.

City of Kwinana

## Four Year Implementation Plan

Outcome	Objectives	Key Actions	Description
	1.1	Review and implement the Streetscape Upgrade Strategy	The Streetscape Upgrade Strategy is a guide for the progressive upgrading and future project planning of the City's ageing streetscapes, and to ensure that landscaping to all streets within the City remains at a comparable standard. This strategy proposes many different projects of varying cost and complexity, however the City will only be able to implement them according to available funds and resources.
	1.1	Develop the Urban Forest Plan	This Plan will guide the City's management of its urban forest canopy through data collection and analysis that enables a coordinated approach to conserve, expand and manage the City's urban forest on both public and private land.
	1.2	Implement the Local Biodiversity Strategy	This Strategy provides a strategic planning framework to understand the City's ecological assets and plan for biodiversity conservation now and into the future.
	1.1, 1.2	Develop and implement the Environment Strategy	The Environment Strategy seeks to shape environmental priorities over the next 7-10 years through strategic and well-constructed officer and community engagement that has regard to the significant work that has already been prepared and is being undertaken by the City.  It is the City's intent that the Strategy will be a principle-based document that; provides direction to and synthesises the existing operational plans that have been prepared, helps to prioritise resourcing and the City's work plan for all things Environment so that can then feed into the overall Sustainability Framework considerations of the City. The Strategy is also intended to provide targets and associated performance indicators for the measurement of progress toward those targets.
 <b>LOCAL BIODIVERSITY STRATEGY ACTIONS</b>			
	1.2	Develop and implement the Pilot Environmental Stewardship Program	A key action of the Local Biodiversity Strategy, this Program focuses on improving priority local natural areas by working with private property owners. The Program will include engaging with property owners and arranging site visits that assess ecological value, and the provision of technical advice including weed control, revegetation, site planning, feral animal management, erosion control, ecological management and an annual provision of tube-stock revegetation plants for program participants.
	1.2	Update the Natural Areas Management Plan	This Plan aims to ensure that both the community values and biodiversity values in the City managed reserves are preserved and improved through appropriate management practices that consider cultural, social, heritage, environmental, scientific and practical issues and values.
  	1.2, 2.1, 4.1	Finalise and implement the Local Planning Strategy	This Strategy builds upon Kwinana's rich planning history and provides the guiding vision for Kwinana's growth and development over the next 15 years. The Strategy is vital in providing a long-term strategic planning direction on how Kwinana will continue to be a place that is rich in spirit, alive with opportunities and surrounded by nature through the planning of innovative and quality development in a sustainable manner.
	1.2	Prepare the Local Planning Scheme	A new Local Planning Scheme 4 will replace the existing LPS 2 and 3 which were originally gazetted in 1992 and 1998 respectively. Local Planning Scheme 4 will be the primary statutory document of our planning framework. It will describe the zoning of land within the City, specify where particular land uses are permitted and set how development is intended to occur. It will be the main tool to implement the vision as set out in the Local Planning Strategy.
	1.2	Implement the Kwinana Loop Trail Management Plan	The Kwinana Loop Trail provides a 21km circuit around the perimeter of the City. A detailed audit of the Loop Trail is being complete to determine the detailed design which will result in a staged plan for the development of the project.
 	1.2, 3.1	Implement the Waste Plan	This Plan ensures that waste avoidance and environmental protection is an integral part of the City's activities and aligns to State and Federal Strategies. The City aims to achieve a sustainable, cost effective and best practice approach to waste management that supports the Kwinana community, economy and environment.

Outcome	Objectives	Key Actions	Description
	<b>WASTE PLAN ACTIONS</b>		
	1.2	Implement the Water Plan	This Plan aims to improve the ecological health of our wetlands and reserves, and reduce scheme and groundwater consumption by improving the efficiency of our facilities and equipment.
	1.2	Implement the Littering and Illegal Dumping Management Plan	A key action of the Waste Plan, this Plan provides direction for a strategic and coordinated approach to the prevention and management of litter and illegal dumping in Kwinana and includes targets for reducing occurrences and response times.
	1.2	Implement the Climate Change Plan	This Plan defines how the City views climate change, its effects and risks to the City's assets, operations and community. The Plan directs mitigation actions aimed at reducing emissions that contribute to climate change, and adaptation actions aimed at increasing resilience to the progressive impacts of climate change in Kwinana.
	1.2	Implement the Energy Plan	The Energy Plan sets targets and drives activities that increase the City's energy efficiency and reduce its energy related emissions.
	1.2	Implement the Integrated Mosquito and Midge Management Plan	This Plan provides an overall approach to mosquito and midge control to ensure that each known or potential breeding site is assessed and monitored, and all possible control options are considered for implementation.
<b>Outcome 1</b> <b>UN Sustainable Development Goal alignment</b> <div>       </div>			
	2.1	Develop and implement a Local Economic Development Strategy	This Strategy focuses on economic development which allows and encourages local people to work together to achieve sustainable economic growth and development thereby bringing economic benefits and improved quality of life for all residents and businesses in Kwinana.
	2.1	Implement a Shop Local Campaign	This Campaign is designed to promote local business it will incorporate promotion, support, shop and share initiatives and focus on 'Stay Loyal, Shop Local' emphasis.
	2.2, 5.1	Review and implement the Advocacy Plan	This Plan details and prioritises the City's advocacy effort.
<b>Outcome 2</b> <b>UN Sustainable Development Goal alignment</b> <div>       </div>			
	3.1	Implement the Community Infrastructure Plan	<p>This Plan provides the City of Kwinana with a strategic framework for providing community infrastructure and focuses on community facilities typically provided by Local Government.</p> <p>The revised plan was adopted by Council in December 2022. Complete projects include the Ngook Boorn Mia Mia / Honeywood Pavilion and design work has commenced for Wellard West Pavilion.</p>
	3.1	Integrate the Sustainability Framework	This Framework aims to support the outcomes of the Strategic Community Plan in an environmentally, socially and economically responsible way. Key sustainability principles are used to guide City operations and decision-making, which together with the vision, identified outcomes and performance indicators form the basis of the Framework. The Framework is intended to support Kwinana in becoming a sustainable City for current and future generations.

City of Kwinana

## Four Year Implementation Plan *continued*

Outcome	Objectives	Key Actions	Description
	3.1, 5.1	Review the Infrastructure Strategy	The Infrastructure Strategy summarises planned capital works over the next 20 years and the impact these investments will have on the state of the City's assets over that time.
	3.2	Update and implement the Bike and Walk Plan	The function of the Bike and Walk Plan includes: evaluating the existing cycling network in the City, identifying local opportunities to integrate cycling and walking into daily life, consulting with key stakeholders (State Government and local community), planning the expansion of the cycling and walking network, encouraging and promoting cycling and walking, developing an action schedule of works for attaining improvements to the cycling and walking network focused on individual neighbourhoods, and developing a longer-term active travel network for the continued development and promotion of cycling and walking.
	3.3	Implement Parks Upgrade Strategy	The Parks Upgrade Strategy aims for Public Open Space in Kwinana to provide a variety of spaces, which encourages play and healthy activity, social, economic and environmental sustainability, and provides a place for interaction with nature.
<b>Outcome 3</b> <b>UN Sustainable Development Goal alignment</b> <div> </div>			
	4.1	Review Place Plans	The City currently has three Place Plans that have been implemented; the Bertram Place Plan, Medina Place Plan and the Wellard Place Plan. These plans are guides for working together to create the best suburb possible, depending on the community engagement received focus may be on the neighbourhood centre, local shopping centre and each document sets out guiding principals and a unique action plan for activating the areas over an 18 month period.
	4.1	Finalise City Centre Precinct Structure Plan	The City is developing a plan to guide how development will look in the City Centre over the next 10 years and what types of activities would be appropriate to meet the needs and wants of the growing community.  This plan is known as a Precinct Structure Plan, and it will build on the vision and outcomes of the City Centre Master Plan developed in 2019.
	4.1	Develop an Arts and Culture Strategy	The Arts and Culture Strategy will serve as a guiding framework to promote and enrich the cultural landscape of Kwinana. It will set a vision to preserve and celebrate the cultural heritage and traditions of the community; showcase and support high-quality arts and cultural experiences; encourage innovation and creativity by supporting emerging practitioners; foster collaboration and partnerships with arts and cultural organisations; and establish Koorliny Arts Centre as a vibrant hub of arts and cultural activity.
	4.1, 4.2	Implement the Social Strategy	The Social Strategy provides a set of strategic social priorities determined through community engagement, to drive actions that strengthen existing initiatives, guide future responses, and inform organisational improvement.
<b>SOCIAL STRATEGY ACTIONS</b>			
	4.2	Implement the Public Art Masterplan	The Public Art Masterplan has been developed to provide an overarching framework for all public art in the City of Kwinana. This framework will guide City-led commissions, developer contributions, and community-led public artworks and ensure that investments in public art provide positive outcomes for the community.
	4.2	Implement the History and Heritage Implementation Plan	Kwinana is a place of many stories. It is important that its history and heritage is preserved for future generations.  Kwinana has a rich and complex history, characterised by vision, resilience and repeated change, echoes of which are retained in both its physical form and in its remaining historical structures.  Of these, Smirks Cottage (Smirks) and Sloans Cottage (Sloans) are highly prized by the Community as emblematic of the area's historical development and growth, close association with pioneering families, and as representative of European settlement, development and history of the area.

City of Kwinana

## Four Year Implementation Plan *continued*

Outcome	Objectives	Key Actions	Description
 	4.3, 5.1	Implement the Innovate Reconciliation Action Plan	<p>The City of Kwinana is committed to the journey of conciliation and respects Aboriginal and Torres Strait Islander people's connection to Country as the Traditional Custodians of the land. The City of Kwinana's mission is to work together with the Kwinana community to build positive relationships between Aboriginal and Torres Strait Islander communities and non-Aboriginal communities. Throughout this journey, the City aims to promote and assist with the development of pathways and opportunities in support of Aboriginal and Torres Strait Islander communities that are meaningful, mutually beneficial and sustainable.</p> <p>The purpose of this plan is to:</p> <ul style="list-style-type: none"> <li>further develop and strengthen the relationship between the City and the community; and</li> <li>embed the practice of consulting with Aboriginal and Torres Strait Islander communities on City business. In particular, when developing frameworks and strategies that have the greatest impacts on our community, but also, when developing programs, events, activities and services within the City.</li> </ul>
	4.3	Implement the Disability Access and Inclusion Plan	This Plan has been created with the intention of building a community in which all people have access to, and are included in, everything our wonderful City has to offer. The City is committed to looking at ways to remove barriers to access and inclusion that may restrict a person's abilities. The City is committed to actively promoting environments and services in which all people are valued and have the choices to live their best lives.
	4.2	Deliver community safety and crime prevention initiatives	City of Kwinana is very committed to the safe enjoyment of community life, we are continuously implementing and enhancing initiatives aimed at preventing crime and promoting safety. This includes developing strategic partnerships and collaborative approaches to educate and inform our residents to take ownership of safety in their local community.
	4.2	Develop and Implement a CCTV Strategy	This Strategy will guide Council's decisions on the introduction, revision and significant maintenance to CCTV infrastructure in public places and Council property; and ensure that the City's CCTV systems are compliant with relevant legislation and other statutory requirements.
	4.4	Develop and implement the Kwinana Healthy Lifestyles Program	The Healthy Lifestyles Action Plan aims to improve community health outcomes through education, programs, messaging and partnerships.
	4.4	Review the Public Health Plan	This Plan is a guiding document for health and wellbeing improvements in the City of Kwinana, the City believes that the health and wellbeing of its community is paramount. The City takes a holistic view of health, which is influenced by the interconnections between our social, cultural, economic, built and natural environments. Within these environments the City, often in partnership with the community and other agencies, can create and maintain positive health and wellbeing outcomes.
	4.2	Construct a Jump/ Pump Track	A Jump/Pump Track has been identified to be constructed in Wandi to provide youth activities and additional infrastructure in the area. Stage 1 commenced in 2022/2023 with the City engaging Three Chillis (Mountain Bike specialists) to engage with young people in the local area and draw up the concept design. The concept design will then inform Stage 2 - Jump/Pump Track construction.
	4.4	Implement Homelessness Outreach Services	Partnership with the City of Kwinana with St Patrick's Community Support Centre (St Pat's), enabling the organisation to operate an assertive outreach service in Kwinana. Assertive outreach is an evidence-based practice to combat street homelessness in which housing staff, specialist caseworkers and health professionals conduct patrols to proactively engage with people experiencing street homelessness and provide a pathway to stable long-term housing. The new service is kicking goals and really making a massive difference in the form of outcomes and proactive approaches.

City of Kwinana

## Four Year Implementation Plan *continued*

Outcome	Objectives	Key Actions	Description
	5.1	Implement the Strategic Community Plan and Corporate Business Plan	<p>The City's plan for the future, Kwinana 2030 is made up of two documents the Strategic Community Plan and the Corporate Business Plan.</p> <p>The Strategic Community Plan sets out the long term vision of the Kwinana community over the next 10 years.</p> <p>The Corporate Business Plan activates the Strategic Community Plan by detailing the actions, projects and programs that the City will undertake to achieve the community's vision.</p>
	5.1	Facilitate the Boola Maara Aboriginal Consultative Committee Meetings	The Boola Maara Aboriginal Consultative Committees primary purpose is to provide Council with advice in relevant Aboriginal cultural matters to assist its decision making of the Kwinana Community. The Committee will assist the Council in making culturally appropriate, respectful, and informed decisions pertaining to community matters, particularly those affecting the Aboriginal community and the environment.
	5.2	Develop an Early Years Partnership	Partnership with the Department of Communities to address the high levels of childhood vulnerability through key initiatives which improve service coordination, connect families to services and raise awareness of the early years.
	5.2	Implement the Community Engagement Framework	For the City of Kwinana to understand and deliver on the aspirations of our community, the City needs to invest in meaningful and productive relationships, partnerships and practices. This Community Engagement Framework identifies how the City will work to provide ongoing opportunities for community and stakeholders to influence decisions, collaborate on action and share in success. Utilising a range of key documents, process' and tools, the City will identify opportunities for the community to participate in decision making process' in an intentional, meaningful, and timely manner. Leveraging existing relationships with and building on the existing understanding of the community, creating accessible and welcoming opportunities for all to participate and ensuring the communities contribution is heard, valued and reflected in the outcomes, will form the key indicators of success in implementing the Community Engagement Framework.
	5.2	Develop and implement a Communication Strategy	This Strategy will provide an approach to improve the community's awareness of the City's efforts to meet community priorities. It will provide a more consistent approach, through the use of key messages and visual branding elements, to better align community priorities with the strategic objectives and enhance the community's understanding of the services and initiatives that the City is undertaking in an effort to achieve its strategic outcomes.
	5.3	Continue to implement customer experience improvement initiatives	Continue to implement initiatives that help improve the customer satisfaction at all touchpoint across the organisation and enhance the customer experience.
	5.4	Implement the Corporate Business System Project	The Corporate Business System project is the implementation of an organisational wide enterprise resource planning product. This system, which impacts every business in the City, provides an enhanced opportunity to review the way our business is done, and to provide a platform for continuous improvement.

## Key Actions completed within 2023/2024

### Outcome 1

#### Procurement of EV Charging Points

Installation of EV Charging Station at the Kwinana Adventure Park.

#### Update

EV Charging Stations have been installed at the Kwinana Adventure Park and also at the City's Administration Building, building a network of chargers at high traffic locations within the City.

These charging stations are accessible to residents and visitors, with chargers at both of these sites proving very popular and regularly in use.

Supporting the transition to sustainable energy sources aligns with the City's commitment to its Sustainability Framework and the UN Sustainable Development Goals.

## Outcome 2

### Implement a Small Business Friendly Approval System

The City of Kwinana Small Business Friendly Approval Program Action Plan was developed as a result of the City's participation in the State Government-funded Small Business Friendly Approvals Program, led by the Small Business Development Corporation (SBDC). The program aims to streamline the process of obtaining business licenses and trading permits from local government authorities as well as accelerate regulatory reform to support economic recovery from the impact of COVID-19.

### Update

The implementation of the Small Business Friendly Approvals Program has been successfully rolled out, with the Small Business Friendly Approvals Program Action Plan project actions being completed over the last two years. These actions were set to improve the customer experience, reduce approval times and support small businesses to establish, grow and thrive in the City of Kwinana.

The City continues to aim to improve the experience of small business owners with their local government. We are committed to ensuring relevant information is readily available to help inform their business direction and streamline our processes to ensure approvals are achieved in a timely fashion. Small Business needs are being monitored through the City's Economic Development and Advocacy Team and the Development Assessment Unit.

### Outcome 3

#### Investigate options for Bulk Waste Collection

The current verge collection service will be reviewed to ensure the City provides the most effective and efficient verge collection service for the Kwinana community's needs into the future.

#### Update

The City assessed the feasibility of transitioning to a pre-booked verge collection service. Based on these findings, it was decided that the City will transition to a pre-booked variable collection service, commencing July 2025.

Under the pre-booked variable collection service, each property receives two collections of either bulk waste or green waste annually, with the option for up to two mattresses or white goods collections, limited to two items per year. Residents can opt to forgo mattress and white good collections in favour of an additional green waste collection annually. Further collections beyond the allocated amount can be obtained for a fee. This system is tailored to offer a convenient disposal method that aligns with the preferences of a majority of residents. By doing so, the City can make substantial strides towards achieving success in its waste management endeavours.

### Outcome 4

#### Investigate Bertram Centre Urban Design

The City will investigate partnership opportunities with universities to undertake an urban design review of the Bertram Centre with a view to identifying opportunities for improvement.

#### Update

This City was successful in investigating a partnership opportunity with Curtin University to undertake the urban design review of the Bertram Centre.

Unfortunately, Curtin University have been unable to provide the student numbers required to complete the project during 2023/2024.

The City is excited that this project opportunity remains a possibility and it will form part of the Planning and Development Teams' business planning once student numbers can be confirmed.

## Outcome 4

### Implement a Mural Art Program

The City has trialled some successful mural art programs and are looking to expand this to attract high profile artists to deliver numerous pieces throughout Kwinana which can form a Mural Art Trail.

### Update

The first mural was completed by contemporary artist, Sioux Tempestt, in July 2023 at Rhodes Park. The concept interprets the narrative of connection, inclusivity and community with the style incorporating the natural environment. An anti-graffiti coat has been applied. The Lions Club were consulted throughout the process and the City has received very positive feedback from the club and the wider community. The second mural for this program was installed in January 2024 outside the entrance to the Zone Youth Space. Completed by artist Sam Bloor, the text based mural is bold and affirmational. This process included consultation with young people and has received positive feedback from both City staff and attendees to the facility. Both murals align with the Public Art Masterplan.

## Four Year Implementation Timeframe extensions

Some of our Key Actions have had their expected completion time extended, reasons vary from resourcing to project delays. Updates will continue to be provided through the City's Quarterly Performance Reporting.

## Introducing our new Key Actions for 2024/2025

### Outcome 1

#### Develop and implement the Environment Strategy

This Strategy will be a principle-based document that; provides direction to and synthesises the existing operational plans that have been prepared, helps to prioritise resourcing and the City's work plan for all things Environment so that can then feed into the overall Sustainability Framework considerations of the City.

### Outcome 4

#### Deliver community safety and crime prevention initiatives

City of Kwinana is very committed to the safe enjoyment of community life, we are continuously implementing and enhancing initiatives aimed at preventing crime and promoting safety. This includes developing strategic partnerships and collaborative approaches to educate and inform our residents to take ownership of safety in their local community.

### Outcome 4

#### Finalise City Centre Precinct Structure Plan

The City is developing a plan to guide how development will look in the City Centre over the next 10 years and what types of activities would be appropriate to meet the needs and wants of the growing community.

This Plan will be prepared in accordance with the requirements for State Planning Policy 7.2 Precinct Design and the Precinct Design Guidelines and State Planning Policy 4.2 Activity Centre for Perth and Peel.

### Outcome 4

#### Construct a Jump/Pump Track

A Jump/Pump Track has been identified to be constructed in Wandi to provide youth activities and additional infrastructure in the area. Stage 1 commenced in 2022/2023 with the City engaging Three Chillis (Mountain Bike specialists) to engage with young people in the local area and draw up the concept design. The concept design will then inform Stage 2 - Jump/Pump Track construction.

## Outcome 4

### Implement Homelessness Outreach Services

Partnership with the City of Kwinana with St Patrick's Community Support Centre (St Pat's), enabling the organisation to operate an assertive outreach service in Kwinana. Assertive outreach is an evidence-based practice to combat street homelessness in which housing staff, specialist caseworkers and health professionals conduct patrols to proactively engage with people experiencing street homelessness and provide a pathway to stable long-term housing. The new service is kicking goals and really making a massive difference in the form of outcomes and proactive approaches.

## Outcome 4

### Develop an Arts and Culture Strategy

This Strategy will serve as a guiding framework to promote and enrich the cultural landscape of Kwinana. It will set a vision to preserve and celebrate the cultural heritage and traditions of the community; showcase and support high-quality arts and cultural experiences; encourage innovation and creativity by supporting emerging practitioners; foster collaboration and partnerships with arts and cultural organisations; and establish Koorliny Arts Centre as a vibrant hub of arts and cultural activity.

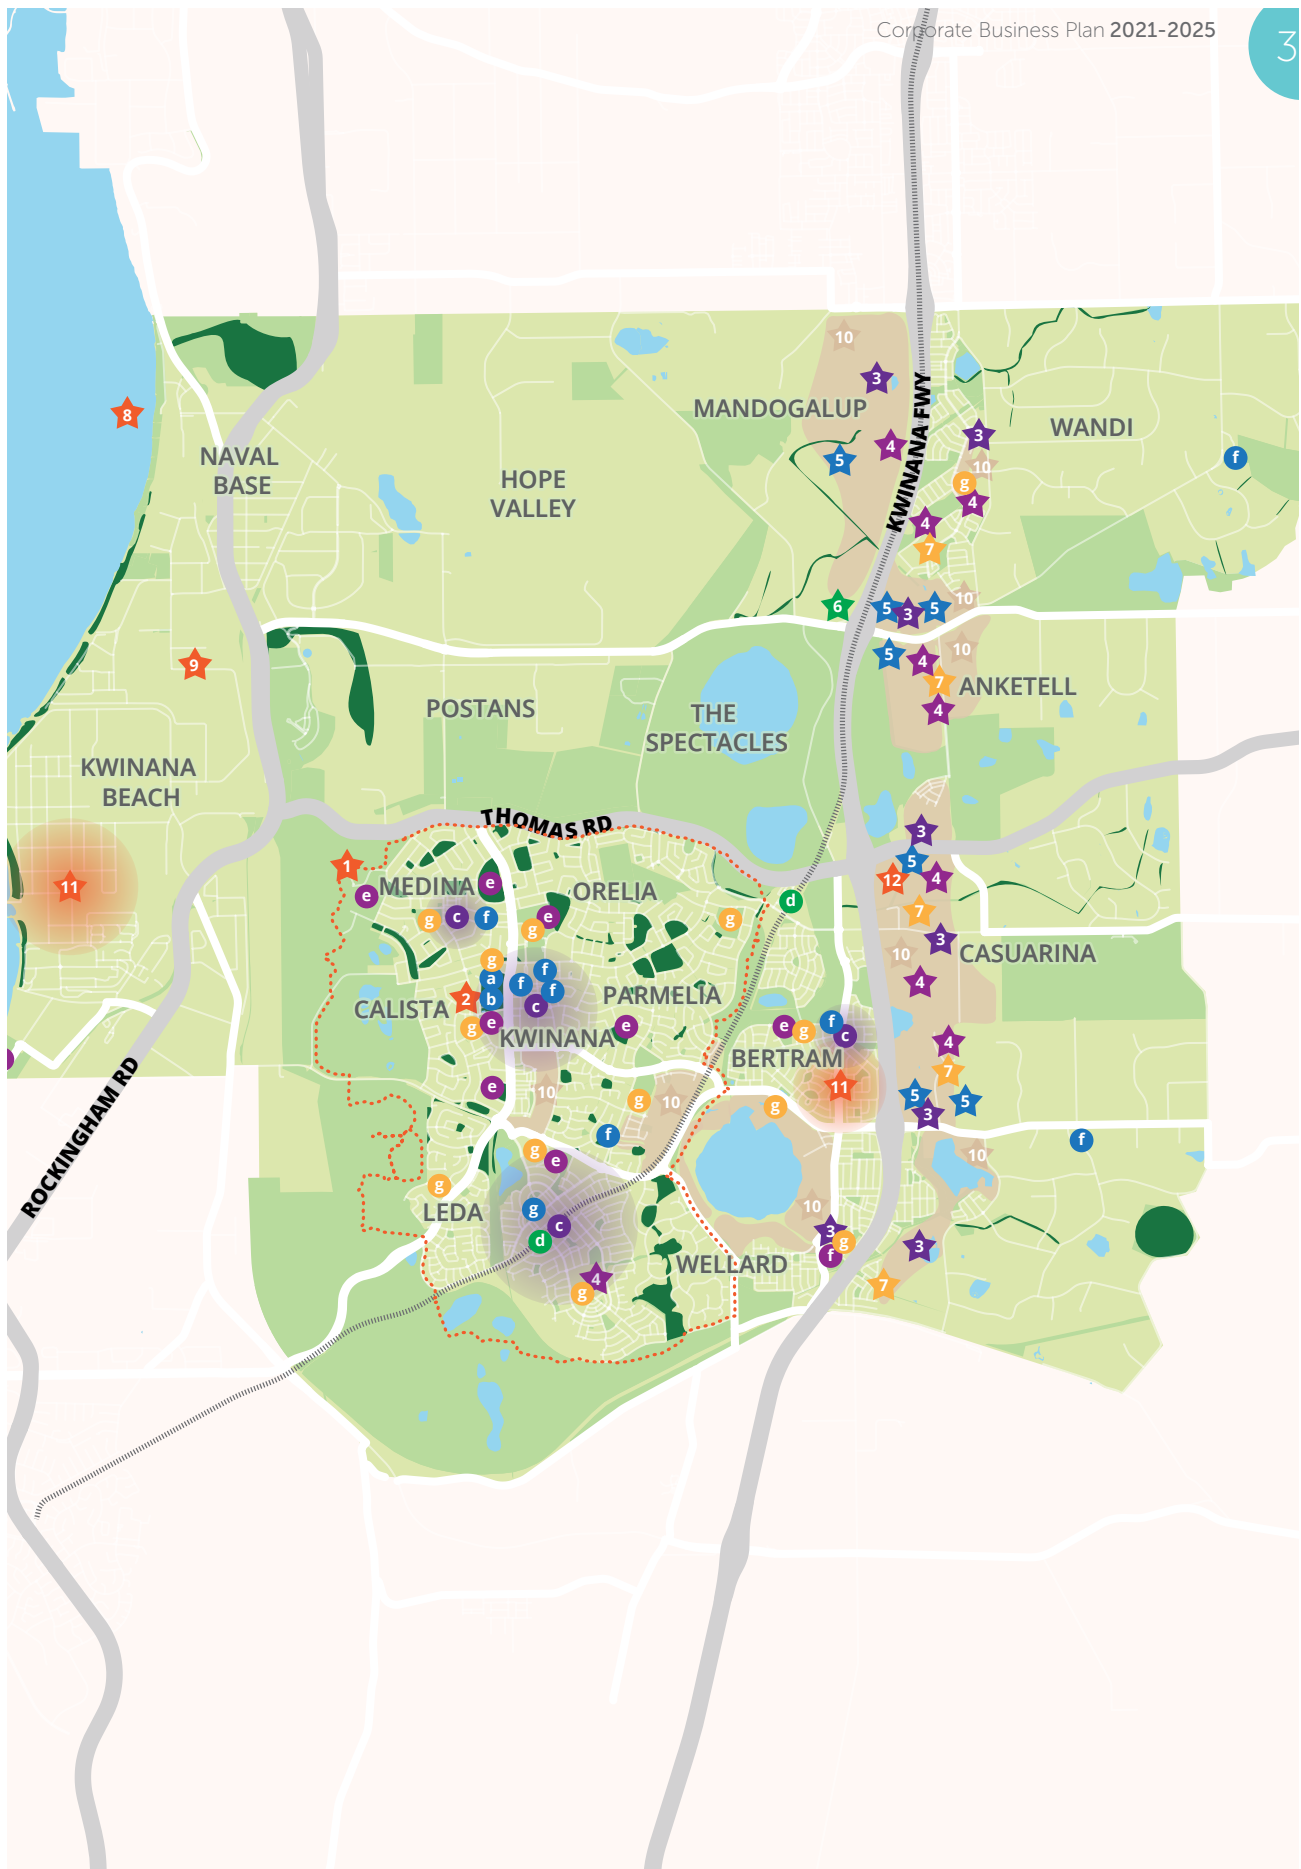

## Outcome 5

### Facilitate the Boola Maara Aboriginal Consultative Committee Meetings

The Boola Maara Aboriginal Consultative Committees primary purpose is to provide Council with advice in relevant Aboriginal cultural matters to assist its decision making of the Kwinana Community. The Committee will assist the Council in making culturally appropriate, respectful, and informed decisions pertaining to community matters, particularly those affecting the Aboriginal community and the environment.

## How we will fund it

Resourcing plans include both financial and non-financial resources that are required over the life of the Corporate Business Plan. These resource plans ensure we have adequate resources (asset, financial and workforce) to deliver the services and assets to meet the Community's vision.

The Corporate Business Plan implementation has been aligned with our Long Term Financial Plan, the forecasts indicate how and when the City intends to fund certain activities.

Long-term financial sustainability is a key objective of the City's financial planning and its annual budget. With careful planning, the community can be assured that the City has the financial resources to achieve the objectives set out in this Corporate Business Plan.

City of Kwinana

# How we will manage our workforce

To ensure the City's efficient and sustainable service delivery to the community, a capable and competent workforce is an imperative requirement.

To continue to provide the best possible level of service to the community, we have identified five strategic priorities to develop our workforce. These priorities were developed to align with the community outcomes of the Strategic Community Plan and the community's vision for the City.

Our strategic priorities:

1. Aligned and active leadership
2. Right people right behaviour
3. All working together as one team
4. Empowered and effective teams
5. Systems and processes

The City will continue to focus on providing a consistent level of service without increasing staff levels where possible.

# How we will manage our assets

The City's infrastructure assets represent a significant investment, over many generations. Millions of dollars are spent annually managing and maintaining this infrastructure, and it is imperative that we utilise the best management skills and practices to ensure related services are delivered economically and sustainably. To manage this, the City will implement and continuously monitor its Infrastructure Strategy.

This Infrastructure Strategy identifies how the City plans to transition from a traditional approach to providing infrastructure, where a small group of experts applied their knowledge within their own area of expertise to determine what needed to be done, to a collaborative and strategic approach across the whole organisation. This will ensure a well-informed understanding of stakeholder requirements obtained through appropriate engagement and will be supported by data-based analysis of asset condition and performance, and will result in the provision of appropriate and effective assets to the community in the most efficient means practicable.

The drive to improve the City's strategic management encompasses infrastructure and activities across the whole of the organisation. Specific initiatives associated with Infrastructure include (but is not limited to):

- Continue the development and implementation of best practise Asset Management Strategy and Framework aligned with ISO 55000.
- Develop efficiencies within the Corporate Business Systems with regard to Asset Management and Project and Operational Management.
- Process development and documentation.

These strategies will further inform our needs in both the short and longer term, and how we set our priorities in conjunction with affordability.

The City will seek to further clarify and define the requirements for service delivery as a separate function from asset management and project delivery, and allocate accountability and responsibility for those functions to specific roles within the organisation. It is envisaged this will give a sharper focus on ensuring appropriate service delivery supported by appropriate assets.

In the short term (0-5 years) the infrastructure strategy will strive to maintain the existing assets at the current Levels of Service (LoS) and address the known or identified major issues (e.g. high risk or regulatory compliance). However due to the chronic underfunding of asset renewals, the LoS will drop. During this time, non-urgent capital projects that are not likely to directly impact on the LoS in the short to medium term, should be prioritised or deferred.

In the medium term, (5-10 years) LoS will continue to drop, until we start investing enough to maintain the condition of assets.

In the longer term (10-15 years) with the forecast new investments, the decline in LoS will slow, until it stabilises in year 11, and slowly increases, on average, through the provision of new assets.

The City's proportion of expenditure on existing capital assets is insufficient when compared to the annual consumption of assets. As a consequence, the City is in effect asking future generations to fund the lifestyle of the current generation. The plan is to steadily increase renewal expenditure to improve the Asset Sustainability Ratio with a target of 80% within 10 years.

## How we will manage risk

The City is committed to an integrated approach to risk management to assist the City in setting appropriate strategies, achieving our objectives, and making informed decisions, in the best interest of our community.

The implementation of any plan inherently involves risks, and to address this, the City has established comprehensive measures to ensure effective risk management. The City's Risk Management Strategy describes its systematic approach to risk, closely adhering to the AS/NZS ISO 31000:2018 Risk Management – Guidelines.

The following risk management objectives have been identified for the City:

1. Minimise the occurrence of serious injury or loss of life;
2. Protect assets and resources, including natural and cultural;
3. Meet legislative and compliance requirements;
4. Minimise legal liability;
5. Minimise disruption to operations and services;
6. Minimise financial loss, including through theft or fraud;
7. Improve the City's governance, management capability and accountability;

8. Ensure an effective response to critical incidents effecting services and operations;
9. Effective emergency response and event recovery; and
10. Minimise potential damage to reputation.

Risks undergo continuous monitoring and regular reviews within the City. All Strategic, and High and Extreme Operational risk items are reported to both the Executive Leadership Team and the Audit and Risk Committee. This systematic approach ensures ongoing scrutiny of prioritised risks and facilitating an adequate progress in addressing them. Additionally, it validates the effectiveness of the management systems and controls implemented for risk management within the City.

## The Destination – How we will know we are there

Performance measurement and target-setting are important to the growth process of an organisation. By measuring our progress with reliable supporting data, we can better understand, manage and improve our performance, productivity and accountability.

The City, in conjunction with the community, will review this plan once every two years using results gained from a bi-annual community perceptions survey. This will give life to the measures listed in this plan and provide an indication of the City's progress towards achieving the community's vision. In addition to the survey, the City will undertake the following reporting processes to keep the community informed:

- Quarterly Performance Report to Council
- Integrated Planning Progress Report in the Annual Report
- Regular updates via the City's media channels

The City will utilise community perception indicators as well as several business indicators to show the overall performance of the Strategic Community Plan (shown in the tables above). This will be achieved through a detailed community perceptions survey and recording of internal business performance indicators. The last Community Perceptions Survey was undertaken in 2022 to review the community's perception of City

services, with the questions asked being specifically related to objectives the community had outlined in the formulation of the Strategic Community Plan. The results of this survey were used as guidance in prioritising areas for improvement and measuring the organisation's success towards the community's vision.

# Performance Reporting and Review

---

The City will review this plan every year. This will provide an indication of the City's progress towards achieving the community's vision. The City will also keep track of business performance measures internally and some of these measures are listed in this plan. City performance will be reported back to the community in the form of:

- A Quarterly Performance Report to Council
- The Integrated Planning Progress Report in the Annual Report
- Regular updates via the City's media channels

## **12.2 2023/2024 FINANCIAL AUDIT PLAN**

### **DECLARATION OF INTEREST**

There were no declarations of interest declared.

### **SUMMARY**

RSM Australia (RSM) Pty Ltd, on behalf of the Office of the Auditor General (OAG), will be conducting an audit of the City's financial report for the year ending 30 June 2024 and other legal and regulatory requirements in accordance with the *Local Government (Audit) Regulations 1996*.

The purpose of this report is to present to the Audit and Risk Committee the 2024 Audit Planning Memorandum at Confidential Attachment A.

### **OFFICER RECOMMENDATION**

That the Audit and Risk Committee accepts the Audit Planning Memorandum (Confidential Attachment A) as submitted by RSM for the 2023/2024 financial audit to be completed on behalf of the Office of Auditor General.

### **AUDIT AND RISK COMMITTEE RECOMMENDATION**

That Council accepts the Audit Planning Memorandum (Confidential Attachment A) as submitted by RSM for the 2023/2024 financial audit to be completed on behalf of the Office of Auditor General.

---

### **VOTING REQUIREMENT**

Simple majority.

### **DISCUSSION**

The Audit Planning Memorandum (Confidential Attachment A) outlines the scope of works and key considerations in relation to the upcoming audit, including a timeline of key milestones. The memorandum also highlights the key areas of the audit focus, identifying the areas of significant risk which will be tested thoroughly.

As per previous years, the OAG have contracted the audit work for the 2023/2024 financial year to RSM. However, it will be the OAG that issue the final opinion and any relevant management points.

RSM has completed the interim audit in April 2024 and will be commencing the final audit for the City in September 2024.

### **STRATEGIC IMPLICATIONS**

There are no strategic implications as a result of this proposal.

**SOCIAL IMPLICATIONS**

There are no social implications as a result of this proposal.

**LEGAL/POLICY IMPLICATIONS**

*Local Government Act 1995* section 7.12AB. states:

**Conducting a financial audit**

The auditor must audit the accounts and annual financial report of a local government at least once in respect of each financial year.

**FINANCIAL/BUDGET IMPLICATIONS**

The estimated cost of \$75,000 for the 2024 audit has been included in the 2024/2025 budget.

**ASSET MANAGEMENT IMPLICATIONS**

There are no specific asset management implications as a result of this report.

## 12.3 AUDIT ACTION LOG - PROGRESS REPORT

### DECLARATION OF INTEREST

There were no declarations of interest declared.

### SUMMARY

Pursuant to regulation 16 of the *Local Government (Audit) Regulations 1996*, the Audit and Risk Committee (Committee) is responsible for assisting Council to discharge its responsibility to exercise due care, diligence, and skill in relation to the oversight of internal and external audits at the City.

Recommended areas of improvement identified through internal and external auditing of the City are recorded and tracked within the City's audit log until such actions are finalised. A copy of the City's audit log, including updated comments from responsible officers, is presented as a standard item at each meeting of the Committee.

The audit log as at May 2024 is presented at **Attachment A** for noting by the Committee. New officer comments and any overdue actions are highlighted in red. For ease of reference, a summary of all actions and their current status has been included within the log.

No additional audit actions have been added to the log since the Committee's previous meeting of 19 February 2024, on the basis that no audits have been completed in this time. Australian Auditors are in the process of undertaking internal auditing of three areas, namely:

- 1) Recquatic;
- 2) Essential Services (Security, Rangers & Parking); and
- 3) Occupational Safety & Health / Human Resources.

The results of such audits shall be presented to the next Committee meeting.

### OFFICER RECOMMENDATION

That the Audit and Risk Committee note the status of outstanding audit actions as detailed in the City of Kwinana Audit Log at Attachment A.

### AUDIT AND RISK COMMITTEE RECOMMENDATION

That Council note the status of outstanding audit actions as detailed in the City of Kwinana Audit Log at Attachment A.

---

### VOTING REQUIREMENT

Simple majority.

### DISCUSSION

Due to an increased focus on the accountability of local governments, a review of the effectiveness of all business processes is becoming best practice. Internal auditing is one way to reduce risk and identify improvements in internal controls. There are many benefits to conducting internal audits, such as:

- improving the performance of the organisation;
- making the organisation process-dependent instead of person-dependent;
- identifying redundancies in operational and control procedures and the provision of recommendations to improve the efficiency and effectiveness of procedures;
- it serves as an early warning system, enabling deficiencies to be identified and remediated on a timely basis (i.e., prior to external, regulatory or compliance audits); and
- increasing accountability within the organisation and supporting strategic objectives (for example, cost reduction initiatives).

The audit log at Attachment A lists the status of all outstanding actions arising from previous audits (both internal and external).

Actions which were marked as finalised at the Committee's meeting in December 2023 and subsequently removed from the audit log are as follows:

**Australian Auditors – Regulation 17 Review**

- a) EA: 2023/12 (2) Procurement

**RSM – Interim ITGC Audit**

- a) EA: 2023 (6) IT Governance - Strategy

**Paxon – Community Services Internal Audit Review**

<b>IA: 2024/06 (4.0) Corrective Action Items</b>	<b>Management Comment</b> The City has introduced a new Committee – WHS Strategic Committee who will sit between the Executive team and the WHS Committee to provide more of a strategical approach as opposed to an operational overview.	30 September 2024	Ongoing	30 September 2024
<b>Finding / Recommendation</b> Determining the corrective action for an incident is a decentralised process without any involvement by the Health Safety & Injury Management Advisor.  There is no clear process to translate investigation recommendations to specific corrective actions and to ensure that these actions are documented, communicated, followed up, completed and reported against.  During our sample testing of 11 incidents, we found that corrective actions, responsibility and action timeframe were not identified for 9 of these incidents.  We recommend that: <ul style="list-style-type: none"><li>• Corrective actions with responsibility and timeframes for completion should be identified for each incident.</li><li>• The corrective action recommended by a Business Unit should also be reviewed and approved by the Health Safety &amp; Injury Management Advisor. IA: 2024/06 (5.0) Key Performance Indicators (KPIs)	<b>Management Comment</b> The City is currently working with the MyOSH systems vendor to further develop and enhance the reporting process and data collation which will include monitoring and trending of information. This will then permit the measurement against established data and some meaningful KPIs for reporting.	31 December 2024	Ongoing	31 December 2024
<b>Finding / Recommendation</b> There are no specific key performance indicators (KPIs) set to measure the effectiveness of the incident reporting and management processes.  Currently, several statistics are reported to the Executive Team, Work Health & Safety Committee and to the Audit and Risk Committee.  Statistics provided include the number of incidents and injuries by Department and Directorate, status, event severity. However we are of the view that statistics alone is not adequate to measure the effectiveness of the incident reporting process and Work Safety and Health systems.  For reporting to be useful and add value, they must be designed to provide information that is relevant to intended users and be measured against the City's established criteria.  We recommend that: <ul style="list-style-type: none"><li>• Meaningful KPIs should be developed and reported. KPIs may include:<ul style="list-style-type: none"><li>○ targets set for reduction in number of incidents, number of injuries.</li><li>○ 12 month comparison of incident rate, injury rate, near misses reported.</li><li>○ Average time to close incidents over a 12 month period.</li><li>○ Average time to implement corrective actions over a 12 month period.</li></ul></li></ul>	<b>Responsible Officer</b> Executive Team

## 12.4 RISK MANAGEMENT REPORT

### DECLARATION OF INTEREST

There were no declarations of interest declared.

### SUMMARY

This report provides an update to the Audit and Risk Committee (Committee) on the City of Kwinana's (City) operational and strategic risk profile, for the purpose of facilitating appropriate and independent oversight. This report is a standard item for the Committee and details all identified strategic risks as well as operational risks assessed as high or extreme (residual).

The City's Risk Register is provided at **Attachment A** for noting and comment by the Committee.

There are presently no high or extreme rated operational risks for reporting.

In relation to the City's strategic risks, no additional risks have been identified for inclusion following the Committee's February meeting. Further, there has been no changes to the ratings of existing strategic risks.

### OFFICER RECOMMENDATION

That the Audit and Risk Committee note and provide comment where appropriate on the City of Kwinana Organisational Risk Register – Strategic Risks detailed in Attachment A.

### AUDIT AND RISK COMMITTEE RECOMMENDATION

That Council note the City of Kwinana Organisational Risk Register – Strategic Risks detailed in Attachment A.

#### Audit and Risk Committee Comments:

- Risk reporting is improving every quarter.
- Suggested that the Heatmap should include the target risk within it in the future.
- That consideration is given to reviewing category types of risk appetites, as the appetite may not be showing accurately in the event there are sufficient actions in place.

### VOTING REQUIREMENT

Simple majority.

### DISCUSSION

Managing risk is integral to good governance and leadership and is fundamental to the management of the organisation at all levels.

The City is dedicated to an integrated approach to risk management, aiming to set appropriate strategies, achieve our objectives, and make informed decisions in the best interest of the community.

AS/NZS ISO 31000:2018 Risk Management – Guidelines defines risk as “the effect of uncertainty on objectives.” While it is not feasible to eliminate all risk, it is possible to manage uncertainty and create an environment where the occurrence of unexpected events is minimised.

The City’s risk management objectives as set out in the City’s Risk Management Strategy are as follows:

- a) minimise the occurrence of serious injury or loss of life;
- b) protect assets and resources, including natural and cultural;
- c) meet legislative and compliance requirements;
- d) minimise legal liability;
- e) minimise disruption to operations and services;
- f) minimise financial loss, including through theft or fraud;
- g) improve the City’s governance, management capability and accountability;
- h) ensure an effective response to critical incidents effecting services and operations;
- i) effective emergency response and event recovery; and
- j) minimise potential damage to reputation.

Achievement of these objectives requires the proactive identification and mitigation of strategic and operational risks.

The City’s Audit and Risk Committee is responsible for providing guidance, assistance, and oversight to Council in relation to risk management, which includes:

- a) ensuring the City has appropriate risk management and internal controls in place;
- b) approving and reviewing risk management programmes and risk treatment options for extreme risks;
- c) setting and reviewing risk management tolerances/appetite and making recommendations to Council;
- d) providing guidance and governance to support significant and/or high-profile elements of the risk management spectrum;
- e) monitoring strategic risk management and the adequacy of internal controls established to manage the identified risks;
- f) monitoring the City’s internal control environment and reviewing the adequacy of policies, practices and procedures;
- g) assessing the adequacy of risk reporting;
- h) monitoring the internal risk audit function, including development of audit programs as well as monitoring of audit outcomes and the implementation of recommendations;
- i) setting the annual internal audit plan in conjunction with the internal auditor taking into account the City Strategic and Operational Risk Registers;
- j) conduct an annual review of the organisation’s Risk Management Policy and Strategy; and
- k) reporting through the Chief Executive Officer to the Council on its findings.

The Organisational Risk Registers are provided to the Audit and Risk Committee on a quarterly basis for their review.

The City of Kwinana Risk Management Strategy (Strategy) establishes the following risk assessment criteria:

Measures of Likelihood			
Level	Rating	Description	Frequency
<b>A</b>	Almost Certain	80-100% probability that the event will occur in the time period being considered.	Likely to occur at least once in every 1 to 1 ¼ years.
<b>B</b>	Likely	50-79% probability that the event will occur in the time period being considered.	Likely to occur once every 1 ¼ years to 2 years.
<b>C</b>	Possible	25-49% probability that the event will occur in the time period being considered.	Likely to occur once every 2 years to every 4 years.
<b>D</b>	Unlikely	2-24% probability that the event will occur in the time period being considered.	Likely to occur once every 4 years to every 50 years.

<b>E</b>	Rare	0-2% probability that the event will occur in the time period being considered.	Not likely to occur more than once in 50 years.
----------	------	---	---

The City's risk appetite/attitude for residual risk set out in the Strategy is as follows:

Impact Category	Level of residual risk the City is willing to retain			
	Low	Medium	High	Extreme
Environment		●		
Financial	●			
Health and Safety	●			
ICT, Infrastructure and Assets		●		
Legislative Compliance	●			
Reputation/Image	●			
Service Delivery		●		

The Organisational Risk Register shows all 8 active strategic risks recorded for the City. Of the 109 active operational risks recorded for the City, those that are recorded with a residual rating of 'high' or 'extreme' are presented to the Committee (presently nil).

The following is a summary of all active risks within the City's risk portfolio:

Risks		Risks by Ratings (Residual)	
<b>Operational Risks</b>	109	<b>Extreme</b>	0
		<b>High</b>	0
		<b>Medium</b>	55
		<b>Low</b>	54
<b>Strategic</b>	8	<b>Extreme</b>	0

## Risk Register

## Introduction

This document provides an overview of the active risk items currently listed within the City's risk portfolio.

### Strategic Risk Register

The Strategic Risk Register encompasses risks that have the potential to significantly impact the City's long-term goals, mission, and strategic initiatives. These risks are often broad and can affect the City on multiple levels. Examples of strategic risks might include economic downturns, changes in government regulations, or major environmental events.

All active risks within the City's Strategic Risk Register are presented. These risks are critical to the City's overarching strategy and are continuously assessed to mitigate potential impacts.

### Operational Risk Register

The Operational Risk Register includes risks that could affect the City's day-to-day operations and service delivery. These risks are more specific and typically relate to the internal processes, systems, and procedures that support the City's functions. For instance, operational risks might involve IT system failures and/or process change.

All 'high' and 'extreme' rated (residual) risk items within the City's Operational Risk Register are presented. High and extreme risks are those that could have severe consequences on the City's operations if they materialise. These risks are prioritised for immediate action and close monitoring to minimise disruption and ensure resilience.

## 12.5 BUSINESS CONTINUITY FRAMEWORK

### DECLARATION OF INTEREST

There were no declarations of interest declared.

### SUMMARY

In 2023, the City of Kwinana (City) engaged Riskwest to assist in developing a new Business Continuity Management Framework (BCM), Business Continuity Plan (BCP), and Crisis Management Plan (CMP), collectively referred to as 'the Plans'.

The intention of the Plans is to guide the City in the event of a large-scale business disruption, ensuring limited downtime of key City functions.

The Plans were presented to the Audit and Risk Committee at its meeting of 2 October 2023. In line with the ongoing focus on business continuity management, the City subsequently held workshops and walkthroughs of the Plans.

The Plans are now being presented to the Audit and Risk Committee for noting due to required amendments to the BCP. A tracked changed version of the BCP is provided in **Attachment D**.

These amendments were necessitated by changes to organisational requirements as well as to reflect team name changes and the inclusion of the Koorliny Art Centre. The Plans are living documents and will be continuously updated on an 'as required' basis, in addition to their annual review.

The Plans are provided in **Attachments A, B and C** for review and comment by the Committee.

### OFFICER RECOMMENDATION

That the Audit and Risk Committee:

1. Note the City's new, Business Continuity Framework, Business Continuity Plan and Crisis Management Plan as detailed in Attachments A, B and C;
2. Note that the Business Continuity Framework, Business Continuity Plan and Crisis Management Plan will continue to be live working documents and will receive regular minor updates on an as required basis; and
3. Notes that major review updates will be presented to the Audit and Risk Committee for noting.

## AUDIT AND RISK COMMITTEE RECOMMENDATION

That Council:

1. Adopt the City's new, Business Continuity Framework, Business Continuity Plan and Crisis Management Plan as detailed in Attachments A, B and C;
2. Adopt the Business Continuity Framework, Business Continuity Plan and Crisis Management Plan will continue to be live working documents and will receive regular minor updates on an as required basis; and
3. Notes that major review updates will be presented to the Audit and Risk Committee for noting.

### Audit and Risk Committee Comments:

- Encourage that mobile phone numbers are included on all copies of the Crisis Management Plan, noting public facing confidentiality or reference be added regarding the new notification system the City is implementing, due to the importance of instant communication in the event of a crisis.
- Suggest that the Crisis Management Plan contact list is continuously reviewed and updated.
- That an invitation be extended to the Audit and Risk Committee Members to sit in on the next Annual Simulation Testing Exercise.

## VOTING REQUIREMENT

Simple majority.

## DISCUSSION

### Business Continuity Management Framework (BCM) (Confidential Attachment A)

The BCM for the City is a strategic document that outlines how the City intends to prepare for and respond to business disruptions or crisis. The framework encompasses the City's BCP, CMP as well as Local Business Continuity Plans, which focus on individual teams. Collectively these documents help support the mitigation of risk, prioritise safety, and maintain essential services. By having such framework in place, the City can ensure its resilience and ability to recover from unexpected events.

### Business Continuity Plan (BCP) (Attachment B)

The purpose of the BCP is to set out the principles to be followed, actions to be taken and resources to be used for the initial response, continuity of priority services and activities and long-term recovery in the event of a prolonged disruption impacting the City. The BCP provides a process that facilitates organised decision-making in the event of a major incident that might otherwise be quite chaotic.

The objectives of the BCP is to:

- Safeguard the health and safety of employees, contractors, and customers during and after a disruptive event;
- Minimise and prevent further damage to the City's property and other assets;
- Minimise any potential operational, reputational, financial, and legal/compliance impacts on the City, rate payers and other stakeholders resulting from a disruption;
- Ensure the continuity and resumption of priority services and business functions within pre-established timeframes and service levels following a disruption; and

- Meet the relevant compliance/regulatory requirements on business continuity.

**Crisis Management Plan (CMP) (Attachment C)**

The CMP is to set out the principles to be followed, actions to be taken and resources to be used for supporting Executive decision-making, and coordination of communications and response at the City when the impact of an incident at the City reaches a point and is declared as a ‘crisis’.

The primary focus of the CMP is to deal with the broader strategic issues impacting the City, such as:

- Allocation and mobilisation of resources to support response and recovery of the impacted site;
- Communications with internal and external stakeholders;
- Management of public relations; and
- Coordination of decision making across business areas at the Executive level.

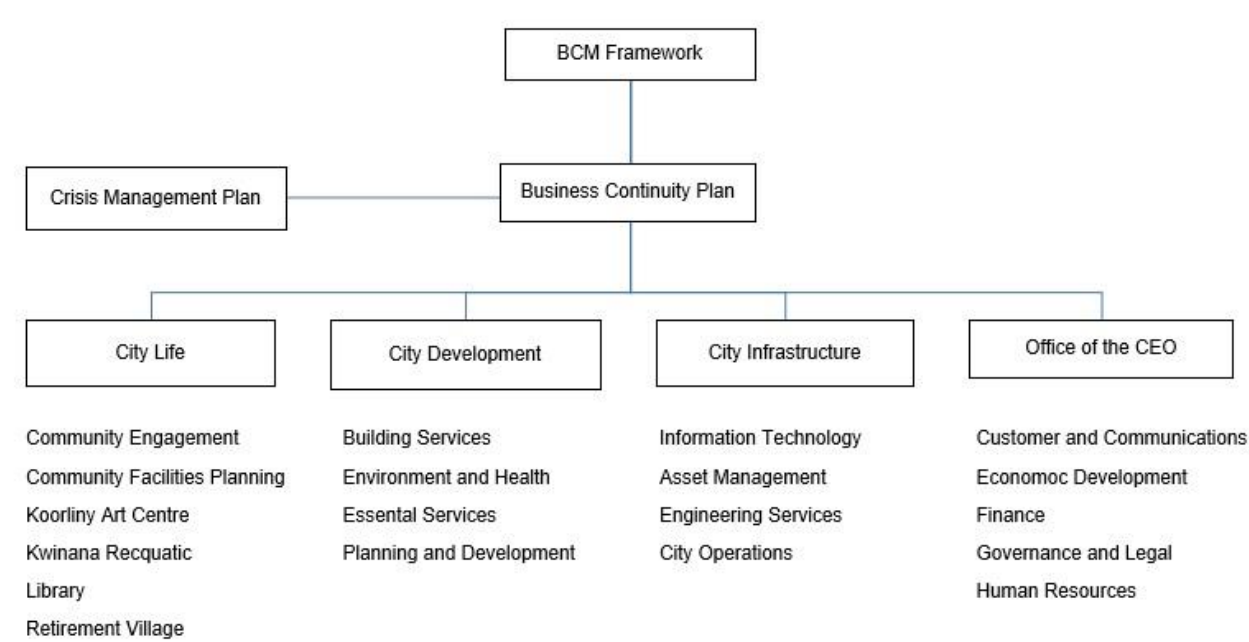

The CMP outlines the processes to be used for assessing and responding to any adverse events that threaten to cause prolonged disruption to services, irreparable damage to critical assets and/or serious reputational damage to the City. It is not based on any specific scenario or causes of disruption but considers the actions required of the Executive to provide strategic management oversight. It is activated when an incident is declared a crisis by the CEO.

**Local Business Continuity Plans (LBCP)**

The LBCP are business area specific response plan that forms part of the City’s BCP.

The LBCP is activated by the City’s Crisis Management Team (CMT) when a major incident causes prolonged disruption to the City’s prioritised services/functions and significant impacts on the community and other stakeholders.

The below image details how the City’s Business Continuity is structured.

## INTRODUCTION

The purpose of the Business Continuity Management (BCM) Framework (the Framework) is to outline the policy and processes for the development, implementation, exercising and maintenance of the BCM program at the City of Kwinana (the City).

The Framework is fundamental in describing how the City intends to mitigate business disruption risks and minimise the impacts of the disruption on the City and its stakeholders. It affirms the City's commitment to safeguard the lives and wellbeing of employees, contractors, and customers, and to ensure the continuity of prioritised services and business functions following a disruptive event or crisis.

## Scope

The Framework and associated policy apply to all Directorates in the City, including those areas of operations that may be outsourced to an external party. In addition, it is a requirement that all Directorates incorporate the Framework and policy in their dealings with external third parties such as suppliers, service providers, business partners and other agencies with respect to the City's services and functions.

## Guidance

To ensure a level of consistency with internationally accepted standards, terminologies, and good practices in BCM, the Framework has been developed based on the principles of:

- AS ISO 22301:2020 Security and resilience - Business continuity management systems - Requirements
- Business Continuity Institute Good Practice Guidelines

## Related documentation

The Framework is underpinned by the following plans and documents:

- Risk Management Strategy
- Crisis Management Plan
- Business Continuity Plan
- Local Business Continuity Plans for each Directorate/business area
- Information Technology Disaster Recovery Plan

## **Ownership**

The Framework is owned by the Chief Executive Officer. Associated operational activities are delegated to the Manager Governance and Legal who is responsible for the maintenance of the Framework.

## **Review**

The Framework to be reviewed by the Manager Governance and Legal and presented to the Chief Executive Officer with recommendations for improvements/updates every 3 years, or when there are substantive changes to the City's structure, business processes, services and/or priorities.

## **BCM POLICY AND GOVERNANCE**

### **Policy statement**

The City is fully committed to implementing effective business continuity strategies, processes and plans to mitigate potential crises and prolonged disruptions that will impact the City's ability to deliver prioritised services to the community.

For this purpose, the City is committed to:

- developing, implementing, and maintaining a Framework and supporting plans based on contemporary good practice guidelines and standards on BCM.
- ensuring that employees are trained and have the necessary level of competencies, authority, and resources to undertake their business continuity preparation and response roles and responsibilities.
- maintaining operational readiness to respond to disruptions through regular exercises, reviews, and plan maintenance activities.
- establishing a robust governance process to ensure management commitment and support to implement, maintain and continuously monitor the performance and outcomes of the BCM program.

## Objectives of BCM

The objectives of BCM at the City are:

- Safeguard the health and safety of City employees, contractors, and customers during and after a disruptive event,
- Minimise and prevent further damage to property and other assets during and after a disruptive event,
- Minimise any potential operational, reputational, financial, and legal/compliance impacts on the City and its stakeholders resulting from a disruption,
- Ensure the continuity of prioritised services and business functions within pre-established timeframes and service levels following a disruption, and
- To comply with legislation and requirements on business continuity.

## Responsibilities for BCM

### Chief Executive Officer

- Executive sponsor of BCM and owner of the Framework,
- Accountable for ensuring that the City has implemented appropriate measures to mitigate business disruption risks in accordance with the Framework,
- Promote business continuity expectations and culture throughout the City.

### Directors

- Accountable for ensuring appropriate, exercised, and up-to-date Local Business Continuity Plans (LBCPs) are in place for their Directorates,
- Ensure that business areas within their Directorates participate in the BCM program,
- Allocate appropriate levels of funding and resources for the implementation, exercising and maintenance of business continuity strategies and plans across their Directorates, and
- Monitor and report the status of BCM across their Directorates to the Executive on a regular basis.

### Business Area Managers

- Take ownerships of the LBCPs within their areas of responsibility,
- Ensure that appropriate business continuity strategies and plans are developed and implemented for all prioritised services and functions within their business areas, and
- Ensure that their BCPs are reviewed, exercised, and updated on a regular basis.

**Manager Governance and Legal**

- Maintain the Framework and City-wide BCP,
- Coordinate the development, implementation, exercising and maintenance of the LBCPs across the City and in accordance with the Framework,
- Provide technical advice and facilitation support on BCM to business areas, and
- Provide oversight on the governance and compliance elements of the Framework and report the status of BCM implementation to the Audit and Risk Committee (A&RC)

**Employees and contractors**

- Ensure that they are acquainted with the Framework, their business area LBCPs and their roles and responsibilities when the plan is activated,
- Participating in business continuity training and exercises,
- Carrying out appropriate business continuity actions during an incident as directed

**Governance of BCM**

The Executive provides senior management oversight to the BCM Program. It will review the status of BCM implementation, approve business continuity priorities, strategies, and plans, and ensure that the program is adequately funded.

The A&RC is responsible for assisting the Council in fulfilling its fiduciary, corporate governance, and oversight responsibilities in relation to the organisation's governance, risk management, and internal control practices. BCM progress and compliance will be tracked and reported to the A&RC on a quarterly basis.

**Compliance requirements**

In order to demonstrate compliance with the requirements of the Framework, all business areas within each Directorate are to:

- Perform and document a Business Impact Analysis (BIA) and identify the Maximum Tolerable Period of Disruption (MTPD) and Recovery Time Objectives (RTO) by which priority services and business functions must be reinstated following a disruption. The BIA is to be reviewed every 12 months as part of the plan maintenance process or when there are significant changes to the City's operations,

- Document their strategies, resource requirements, dependencies and actions for the recovery and resumption of priority services and business functions in a BCP and ensure that all requirements to support continuity of these services and business functions are implemented. The BCP is to be reviewed and updated at least every 12 months or when there are significant changes to the City's operations,
- Ensure that their staff are trained and are competent to execute the BCPs when disruption occurs, and
- Ensure that their BCPs are exercised at least once every 12 months and in accordance with the City's exercising program.

## BUSINESS CONTINUITY MANAGEMENT PROCESS

Development and implementation of the City's BCM program is guided by the following 5-stage process:

*Figure 1 BCM Development and Implementation Stages*

### Stage 1 Business Impact Analysis (BIA)

The aim of the BIA was to provide a structured process for the City's Executive to establish high-level priorities for the recovery of services following a major disruption. The BIA process involve:

- assessing the business impacts of a disruption to services and identifying the point in time (hours, days, weeks, and months) when the impacts become intolerable/unacceptable to the City. The Impact Reference Table from the City's Risk Management Strategy is used for the assessment to ensure consistency in the definitions and ratings of impact,

- using the assessment above to inform the Maximum Tolerable Period of Disruption (MTPD) for each service. The MTPDs are then used as the basis for prioritising the recovery of services.

MTPD refers to the maximum amount of time that a service may be disrupted before the impacts become intolerable to the City. The aim of the MTPD is to place an upper limit within which a given service must be recovered. It provides guidance on the priority for the recovery and resumption of services following a disruption. Generally, the shorter the MTPD,

the more 'urgent' the service is, hence the sooner it needs to be recovered relative to services with longer MTPDs.

The priorities and associated MTPDs will provide the basis for Directorates and business areas to establish the Recovery Time Objectives (RTOs) for their prioritised services and identify recovery strategies, resource requirements and business continuity procedures in the next stage of BCM process.

Details on the City's BIA can be found in "Strategic Business Impact Analysis Report, August 2023".

## **Stage 2 Business Continuity Strategies**

Using the information from the BIA, this stage of the BCM process involves:

- "drilling down" and identify activities that support the priority services in each business area that had been determined in the BIA,
- identifying the RTOs, minimum business continuity objectives, recovery strategies and critical resource dependencies (including staffing, equipment, systems and applications, suppliers and service providers and other interdependent parties).

Identification and assessment of business continuity strategies and solutions is an iterative process and requires inputs from all business areas and subject matter experts. Each business area should identify and document appropriate recovery strategies and solutions for various loss scenarios, including (but not limited to):

- Pandemic
- Loss of access to premise

- Non-availability of key personnel
- Non-availability of ICT services
- Non-availability of key suppliers

Further details of the recovery strategies and solutions are documented in the BCP.

### **Stage 3 Response Plans Development**

This stage involves establishing the response teams and documenting the processes and actions to carry out the recovery strategies and solutions for resuming and continuing prioritised services and business functions following a disruption. The documentation consists of the following:

#### **Business Continuity Plan (City-wide)**

This document provides an overview of the City's business continuity arrangements for responding to and recovering from a disruptive event. It outlines:

- The scope, objectives, and assumptions of the plan
- Response team structure, roles, and responsibilities
- Prioritised services and business functions and their associated MTDs and RTOs
- Business continuity strategies and solutions for a pandemic, loss of access to premise, non-availability of key personnel, non-availability of key ICT services and non-availability of key suppliers
- BCP activation procedures

#### **Local Business Continuity Plans (LBCPs)**

LBCPs are operational response plans used by business areas to guide the recovery and resumption of prioritised services during a disruption. LBCPs may be organised by Directorates, business areas and/or facilities. The number of plans required depends on the size, complexity, and nature of Directorates/business areas. Each LBCP includes:

- composition, roles, and responsibilities of the business recovery team
- response actions for the recovery of prioritised services and business functions
- resource requirements and interdependencies
- supporting documentation (e.g., contact lists, templates, checklists, etc.)

LBCPs are owned by the respective Directorates/business areas.

**Crisis Management Plan (CMP)**

The CMP is an Executive-level plan that is focused primarily on the broader strategic issues impacting the City during a crisis. It provides guidance to support City-wide coordination, decision-making and communications at a strategic level.

**Stage 4 Training and Exercising****Training**

Training for City staff should be conducted periodically to ensure that they are aware of their BCM roles and responsibilities and are conversant with the contents of the BCPs. At minimum, the following training should be held:

- New staff–business continuity awareness during induction
- Current employees – business continuity refresher every 24 months

Training may also be incorporated into the exercising program outlined in below. If necessary, briefing sessions should be conducted prior to exercises to provide background and contextual information, participation in the exercise itself has the added benefit of training the personnel at the same time.

Personnel with specific responsibilities for developing, implementing, exercising, and maintaining the BCPs are to be provided with additional training and other opportunities to enhance their BCM technical competencies and professional standing. This may be in the form of a formal professional development program, professional certification, membership with professional bodies and participation in industry forums.

The Manager Governance and Legal is responsible for identifying the BCM skills and competencies required, developing an appropriate BCM training program to meet the needs of City personnel, and coordinating the delivery of the training program.

**Exercising**

Exercising and testing help to validate the effectiveness of all aspects of the City's BCPs and response capabilities. The aims are to:

- Ensure that the BCPs are current, relevant, and practical,
- Provide an opportunity for City staff to rehearse the plan to build familiarity with the response actions, develop effective teamwork, and instill confidence,

- Assess and validate the City's capability in responding to an incident under controlled conditions, and
- Identify shortcomings in the plans and capabilities so that corrective actions can be taken.

At minimum, one exercise should be conducted annually. Exercises may be carried out notionally, such as a walkthrough of the BCP or tabletop simulation exercise, or in practice involving the actual mobilisation of resources to carry out business continuity response activities.

The Manager Governance and Legal is responsible for developing an exercise program and coordinating the conduct of exercises at planned intervals. Business Area Managers are to ensure that their LBCPs are exercised in accordance with the exercise program.

### **Stage 5 Review and Maintenance**

It is vital that the BCPs remain current if they are to be immediately usable following the occurrence of a disruptive event. The BCPs are to be reviewed and updated annually from the date of publication as part of the annual maintenance process. In addition, the BCPs are to be updated or revised when there are significant organisational or procedural changes, following an exercise or following the activation of the plan in response to an actual incident.

Post Incident Reviews (PIRs) must be held after every exercise or incident that leads to the activation of the BCPs. Actions taken and decisions made during the incident and documented procedures in the plans should be evaluated for their effectiveness. Findings from the PIRs should trigger actions to update or revise the BCPs.

The Manager Governance and Legal is responsible for developing a BCP review and maintenance program and coordinating the implementation of the program. Business Area Managers are responsible to ensure that their LBCPs are reviewed and maintained in accordance with the review and maintenance program.

## INTRODUCTION

The purpose of the Crisis Management Plan (CMP) is to set out the principles to be followed, actions to be taken and resources to be used for supporting Executive decision-making, and coordination of communications and response at the City of Kwinana (the City) when the impact of an incident on the City reaches an acute point and is declared as a 'crisis'.

The primary focus of this plan is to deal with the broader strategic issues impacting the City, such as;

- Allocation and mobilisation of resources to support response and recovery of the impacted site.
- Communications with internal and external stakeholders
- Management of public relations
- Coordination of decision making across business areas at the Executive level

However, the plan is not intended to be a complete, step-by-step, how-to-do-it manual since each situation is unique, with varying levels of threats and business impacts. It suggests actions to be taken and provides guidelines in managing a crisis. Real life decisions for reacting to a crisis must be guided ultimately by the sound judgement and discretion of involved managers and staff.

## Definition

A crisis is defined as "an unprecedented or extraordinary event or situation that threatens the reputation and integrity of the City and requires a strategic, adaptive and timely response from top management".

Examples of crises include (but not limited to):

- Prolonged outage of critical Information technology systems that prevents or restricts the City from delivering prioritised services to the community,
- A roof collapse at the City's Administration Building that causes serious injury to personnel and customers and disruption of operations,
- Breach in cyber security that result in the theft and/or public disclosure of confidential employee and rate payers' information,
- Postings of unfavorable comments, accusations and/or 'fake news' on social media against the City going viral, or

- Malfeasance causing financial loss and/or reputational damage to the City.

## Objectives

The objectives of the CMP are:

- To provide the guidelines and tools for supporting the coordinated response and communication requirements during and after a crisis,
- To minimise any potential harm to the City, its employees, contractors, and customers during a crisis,
- To preserve operations and productivity at the City and restore normal operations as soon as possible following a disruption or adverse event, and
- To lessen the impacts of a crisis and safeguard the reputation and integrity of the City.

## Scope

The CMP outlines the processes to be used for assessing and responding to any adverse events that threaten to cause prolonged disruption to services, irreparable damage to critical assets and/or serious reputational damage to the City. It is not based on any specific scenario or causes of disruption but considers the actions required of the Executive to provide strategic management oversight. It is activated when an incident is declared a crisis by the CEO.

The CMP does not deal with the operational tasks of responding to an incident – these are dealt with by the line managers at the impacted site. It is intended to overlay existing and more detailed plans such as emergency response and business continuity plans (BCPs) and focuses on coordination, decision making and communications at the strategic level.

The CMP does not address,

- procedures for dealing with emergencies (such as bomb threat, fire or building evacuation),
- day-to-day operational problems that can be resolved using routine work practices,
- specific business continuity arrangements, and
- the City's role in responding to external city-wide or state-wide emergencies or disasters (such as disease outbreak, natural disasters, etc.) – there are covered in the Local Emergency Management Arrangements.

## **Related documentation**

The CMP forms part of the City's framework for responding to emergencies, business disruptions and crises consisting of the following documents:

- Business Continuity Management Framework
- Business Continuity Plan
- Local Business Continuity Plans
- Information Technology Disaster Recovery Plan

## **Distribution and access**

Electronic copies of the CMP are distributed to:

- Members of the Crisis Management Team (CMT)
- Directors and business area managers
- Holders of the CMP are to ensure that they also have a printed current copy of the plan stored securely in the office and at home.

Electronic copies of the CMP are available within the City's Record Keeping System (CM9)>CORP84.

Printed copies of the CMP are kept at Manager Governance and Legal office and the CEO's office and in addition within the disaster recovery box that is held by Human Resources.

Due to the sensitive nature of the information contained in the CMP, distribution of the document to external parties will only be made on restricted basis and with the approval of the CEO.

## RESPONSE STRUCTURE

The City's response structure consists of a Crisis Management Team (CMT) and Business Recovery Teams (BRTs).

### Crisis Management Team

The Crisis Management Team (CMT) is responsible for providing senior leadership oversight of the incident. The key tasks of the CMT are:

- Coordinate response actions, communications, and decision-making across the City and with stakeholders during a crisis,
- Manage the strategic and reputational implications of the incident on the City,
- Provide any necessary support and resources to the BRTs when the Business Continuity Plan (BCP) is activated,
- Liaise with the Mayor, Elected Members, Minister and other government agencies and stakeholders, and
- Formulate appropriate message and communication strategies with internal and external stakeholders, including employees, next-of-kin of employees, clients, public, media, and other interested parties.

The CMT consists of senior representatives from each of the Directorates. The size of the CMT will vary according to the type and extent of the incident. Generally, the CMT will be assembled first, and other managers and subject matter experts may be called upon by the CMT Chair depending on the nature of the incident. The CMT Chair will exercise discretion in determining the appropriate roles required when a Level 3 Crisis is declared.

The roles and responsibilities of the CMT are:

Role	Responsibilities
CMT Chair	<ul style="list-style-type: none"> <li>▪ Chair CMT meetings,</li> <li>▪ Coordinate decision making and ensure decisions are made in a timely manner, and</li> <li>▪ Liaise with the Mayor/Elected Members/Minister</li> </ul>

<ul style="list-style-type: none"> <li>City Development and Sustainability</li> <li>City Infrastructure</li> <li>Office of the CEO</li> </ul>	<ul style="list-style-type: none"> <li>Activate the Directorate's BCPs under the direction of the CMT,</li> <li>Mobilise appropriate resources within the Directorate to support business continuity and recovery efforts, and</li> <li>Communicate to the CMT the incident status of the business areas in their respective Directorates.</li> </ul>

Depending on the nature of the incident, the CMT may call on other subject matters experts and/or functional managers to advice or join the CMT. These may include (but not limited to):

Role	Responsibilities
Facilities	<ul style="list-style-type: none"> <li>Assess and report building impact/situation to CMT,</li> <li>Coordinate building damage assessment, salvage, and restoration efforts,</li> <li>Coordinate with other relevant business unit with filing of insurance claims as required,</li> <li>Manage preparation and set-up of alternate work sites.</li> </ul>
Information Technology	<ul style="list-style-type: none"> <li>Assess the impact of the crisis and coordinate recovery and delivery of IT and communication services required to support the business.</li> <li>Assess and implement IT salvage and restoration efforts,</li> <li>Coordinate recovery of IT services.</li> </ul>
Finance	<ul style="list-style-type: none"> <li>Coordinate disbursement of emergency funds</li> <li>Coordinate procurement of emergency supplies</li> <li>Coordinate filing of insurance claims</li> </ul>

## Business Recovery Teams

BRTs are responsible for coordinating recovery efforts with guidance and support from the CMT within the respective Directorates/business areas when the BCP is activated. The key tasks of BCTs are:

- Assess the impact of the incident on the City,
- Oversee the resumption of priority services and activities of the business area,
- Coordinate deployment of internal and external resources required to support service resumption and recovery,
- Report to their respective Directors and keep them apprised of recovery status,
- Carry out post-incident review to identify lessons learned and areas for improvement.

Detailed actions of the BRTs are presented in the Local Business Continuity Plans (LBCPs) of the respective Directorates/business areas.

## NOTIFICATION AND ESCALATION

The notification and escalation process provides a uniform means of interpreting and assessing the severity of an incident (using the prescribed incident classification), and based on that assessment, to determine if notification should be escalated to a higher level of authority at the City.

The purpose of the notification and escalation process is to ensure that,

- there are uniformed criteria for assessing and classifying the severity of an incident and activating the CMT,
- relevant stakeholders are informed in an orderly and timely manner,
- the correct level of management/authority and personnel are assigned to manage the incident.

The three levels of notification and escalation are 'Level 1 - Routine', 'Level 2- Significant' and 'Level 3 - Critical'. These are further described in Figure.

Level	Characteristics	Actions	Responsible
<b>1 ROUTINE</b>	<p>Day to day operational issues or problems that may cause some inconvenience but otherwise have little or no impact on priority services, stakeholders, or overall functioning of the City.</p> <p>Loss or damage to critical infrastructure/assets can easily be rectified or replaced.</p> <p>Situation is unlikely to escalate and can be resolved using routine work practices.</p>	<p>Person who encounters a problem or an imminent threat should notify their immediate manager.</p> <p>The manager will take the necessary actions to resolve the situation using routine procedures.</p> <p>If the situation cannot be resolved using routine procedures or requires a coordinated response with other business areas, the manager will notify the Director of the impact area, and the response is escalated to 'Significant' level.</p>	Manager of impacted area

Level	Characteristics	Actions	Responsible
<b>2 SIGNIFICANT</b>	<p>Considerable delays or disruption with potentially significant impacts on priority services, stakeholders or overall functioning of the City that is likely to last up to 1 business day.</p> <p>Loss or damage to critical assets/infrastructure that will take more than one business day to rectify or replace.</p> <p>Situation cannot be resolved using routine work practices and decisions need to be coordinated across business areas and with external stakeholders.</p>	<p>The Director of the impacted area will mobilise and coordinate the necessary internal and external resources to resolve the problem.</p> <p>If the disruption to priority services is likely to exceed 1 business day or there has been serious injuries/fatalities, or the incident is likely to attract media attention, the Director of the impact area will notify the CEO and the response is escalated to 'Crisis' level.</p>	Director of impacted area

Level	Characteristics	Actions	Responsible
<b>3 CRISIS</b>	<p>Prolonged delays or disruption to priority services with potential major or catastrophic impacts on the City and stakeholders that is likely to last for more than 1 business day.</p> <p>Irreparable loss or damage to critical assets/infrastructure.</p> <p>Incident results in serious injuries or fatalities.</p> <p>Situation attracts media attention and needs to be managed strategically to protect against reputational damage to the City.</p>	<p>On consultation with the Director of the impact area and, if necessary, with other members of the Executive, the CEO will mobilise the CMT and authorise activation of the CMP, and if necessary, BCP.</p> <p>The CMT will coordinate response actions, communications, and decision-making, and direct the recovery activities of the BRTs.</p>	CEO with the CMT

### Activation of the CMP

The CEO/CMT Chair is first notified when:

- An on-going Level 2 Significant Incident escalates or threatens to escalate to a Level 3 Crisis; or
- The possibility of a Level 3 Crisis is likely to occur in the near future (such as severe weather forecast, planned major power shut down, impending major strike or protest) and pre-emptive actions must be taken to protect people, assets and prioritised services and functions.

The declaration of a Level 3 Crisis and activation of the CMT is made by the CEO/CMT Chair. The key phases of CMT response are:

- Immediate Response – key actions from 0 to 2 hours after CMT activation,
- Ongoing – ongoing response actions

- Standing down – close down of CMT and post-incident debrief/post-crisis restoration and returning to normal operations.

The CMT action card and individual role cards are presented in **Annex 2 and 3** respectively.

## Command Centre

A Command Centre (CC) is a pre-designated location from which the CMT would coordinate response and communications when the CMT is mobilised. Depending on the nature of the incident, the CMT would assemble in one of three locations, if possible:

Primary location	City of Kwinana Administration Building
1 <sup>st</sup> alternate location	Operation Deport
2 <sup>nd</sup> alternate location	Kwinana Technology Business Centre (Business Incubator)

Further details on the CC are presented in **Annex 4**.

## Virtual Command Centre

In situations when it is not practicable or possible for the CMT to assemble physically at the CC, MS Teams may be used as a virtual CC. MS Teams may also be used for communicating with City personnel and other internal/external stakeholders as necessary.

## Incident log

An incident log provides a timeline of events and actions taken during an incident or crisis. It is the responsibility of all CMT members to maintain an incident log during an incident until the CMT is stood down. An incident log template is in **Annex 6**.

## POST-INCIDENT

### Standing down

Depending on the nature of the incident, the CMT may be stood down when:

- The situation is no longer deemed a crisis and on-going management of the issue may be:
  - downgraded to a lower incident level or
  - reverted to the City's normal management structure and processes.
- operations at the impacted business areas/facilities have returned to their BAU state or an agreed minimal level of service has been reached following an emergency or disruption, or
- business continuity may transition into a longer recovery phase which could last for weeks or even months.

The CMT Chair, in consultation with other CMT members, will decide on an appropriate time to declare the end of the crisis and stand down the CMT.

## Post-incident review

A post-incident review (PIR) with all those involved in managing and responding to the incident should be undertaken as soon as practicable, typically when the incident has been brought under control or immediately after teams are stood down when the experience is still fresh in the minds of the responders.

The purpose of a PIR is to provide those who were directly or indirectly involved in the incident the opportunity to:

- Discuss their experience and provide feedback,
- Identify those areas that worked well,
- Identify any deficiencies in systems and processes on how the incident was managed and responded to, and
- Make recommendations of improvements and correct the deficiencies identified.

Results of the PIR should be documented, along with recommendations for improvements, and submitted to the Executive. A PIR checklist is presented in **Annex 9**.

## Annex 1 CMT Action Card

The following action card is to be used to guide the actions of the Crisis Management Team when the Crisis Management Plan is activated. This is supplemented by additional information in other sections of the CMP or other documents outside this plan as indicated in the Reference column.

## Annex 4 Command Centre

The Command Centre (CC) is a pre-designated location where the Crisis Management Team (CMT) would meet to coordinate and manage crisis response activities.

The CMT Chair will decide on an appropriate location, and Administration Support in the CMT is responsible for setting up the room. Depending on the nature of the incident, the CMT would assemble at one of these locations:

Primary location	Address: Council Administration Building > Fransis Morgan Meeting Room – Corner Gilmore Avenue and Sulphur Road, Kwinana Contact person: Kirsty Peddie Contact number: 9439 0285 Email: <a href="mailto:Kirsty.peddie@kwinana.wa.gov.au">Kirsty.peddie@kwinana.wa.gov.au</a>
1 <sup>st</sup> alternate location	Address: Operations Depot > Angus Walley Meeting Room > Beacham Crescent, Medina WA 6167 Contact person: Kirsty Peddie Contact number: 9439 0285 Email: <a href="mailto:Kirsty.peddie@kwinana.wa.gov.au">Kirsty.peddie@kwinana.wa.gov.au</a>
2 <sup>nd</sup> alternate location	Address: Kwinana Technology Business Centre (Business Incubator) > Business Incubator Boardroom > 11 Stidworthy Way, Kwinana Town Centre WA 6167 Contact person: Kirsty Peddie Contact number: 9439 0285 Email: <a href="mailto:Kirsty.peddie@kwinana.wa.gov.au">Kirsty.peddie@kwinana.wa.gov.au</a>

If any of the above location is not available or suitable, the CMT Chair will have the discretion to decide on the best alternative place to meet, taking into considering safety issues and proximity to the impacted site.

In situations when it is not practicable or possible for the CMT to assemble physically at the Command Centre, the crisis management teleconference bridge described below may be used instead.

#### **Resources required in the Crisis Command Centre**

- Furniture of the CMT and support personnel
- A landline phone, with voicemail if possible
- Mobile phones (with chargers)
- Access to social media
- Internet access
- Personal computer/laptop with email and access to required applications
- Printer/scanner
- Radio and TV to monitor media
- Whiteboard and marker pens
- Office stationeries (pens, pencils, stapler, etc.)
- Notepads
- Maps/floor plans
- Contact lists,
- Crisis Management & Business Continuity Plans,
- Emergency Response Plans

## Annex 5 CMT Response Protocol

The purpose of the response protocol is to provide a systematic and structured approach for the CMT to manage CMT meetings during a 'critical' level incident. The response protocol should be used each time the CMT meets.

1.	Roles and responsibilities	<ul style="list-style-type: none"> <li>Confirm who is present and what are their roles and responsibilities.</li> <li>Do you have the right people are at the table? Who else needs to be here?</li> </ul>

## Annex 8 Damage Assessment Checklist

### Purpose

The purpose of a damage assessment is to evaluate the extent of damage that has occurred to a facility resulting from an adverse event, and to use the information obtained to assist in developing a specific plan for recovery and long-term restoration of the facility. The damage assessment is to be completed by a competent person(s) who has a good understanding of building construction and the associated building services (such as power, water, plumbing, telecommunications, etc.).

## Annex 10 Salvage and Restoration Checklist

The extent of salvage and restoration required following a crisis is subject to the nature of the incident, the severity of damages sustained and sustainability of the business continuity arrangements. As such, it is not practicable to develop specific action steps for undertaking salvage and restoration operations prior to an incident occurring. However, this checklist will provide guidance on what some of the key consideration that need to be considered when formulating a salvage and restoration plan following a critical incident.

Security	<input type="checkbox"/> Liaise with emergency response authorities for access to site when safe to do so <input type="checkbox"/> Secure impacted site <input type="checkbox"/> Help ensure safety of employees, residents, contractors and visitors
Damage assessment	<input type="checkbox"/> Conduct damage assessment as soon as possible <input type="checkbox"/> Take videos and photos of loss <input type="checkbox"/> Make an inventory of damaged or destroyed items <input type="checkbox"/> Provide notice of loss to insurers
Safety	<input type="checkbox"/> Conduct inspection for safety hazards in and around facility (e.g. hazardous materials, live wires, toxic gases, etc.) <input type="checkbox"/> Conduct inspection for sanitary hazards in and around facility (e.g. damaged septic system, blocked sewerage pipes, etc.)
Restore/reset alarms and protective systems	<input type="checkbox"/> Repair damage to fire sprinkler system and restore service as soon as possible <input type="checkbox"/> Repair damage to smoke and fire detection devices and systems <input type="checkbox"/> Repair damage to security monitoring systems (e.g. CCTV) <input type="checkbox"/> Repair damage to door access systems
Salvage operations	<input type="checkbox"/> Secure any loose items/debris from roofs and property <input type="checkbox"/> Arrange for cleaning, decontamination and sanitisation of facilities <input type="checkbox"/> Sort and separate damaged and undamaged items <input type="checkbox"/> Arrange for removal and disposal of damaged items from property <input type="checkbox"/> Arrange for cleaning and drying of equipment and paper records <input type="checkbox"/> Arrange for dehumidification of all areas <input type="checkbox"/> Arrange for clearing of debris from property

## INTRODUCTION

### Purpose

The purpose of the Business Continuity Plan (BCP) is to set out the principles to be followed, actions to be taken and resources to be used for the initial response, continuity of priority services and activities and long-term recovery in the event of a prolonged disruption impacting the City of Kwinana (the City).

This plan provides a process that facilitates organised decision-making in the event of a major incident that might otherwise be quite chaotic. However, the plan is not intended to be a complete, step-by-step, how-to-do-it manual since each incident is unique, with varying levels of threats and business impact. It suggests actions to be taken and provides guidelines in managing a major incident. Real life decisions for reacting to a major incident must be guided ultimately by the sound judgement and discretion of involved managers and staff.

This plan may be triggered by an incident or impending emergency that could significantly disrupt priority services and/or threaten the safety of employees, contractors, and customers.

### Objectives

The objectives of the BCP are to:

- Safeguard the health and safety of employees, contractors, and customers during and after a disruptive event,
- Minimise and prevent further damage to the City's property and other assets,
- Minimise any potential operational, reputational, financial, and legal/compliance impacts on the City, rate payers and other stakeholders resulting from a disruption,
- Ensure the continuity and resumption of priority services and business functions within pre-established timeframes and service levels following a disruption,
- Meet the relevant compliance/regulatory requirements on business continuity.

## Scope

The scope of the BCP covers arrangements for responding to and recovering from a disruptive event impacting the City's prioritised services and functions covering business areas in the following Directorates:

- City Life
- City Development and Sustainability
- City Infrastructure
- Office of the CEO

The following are excluded from the scope of the BCP:

- Procedures for dealing with day-to-day operational problems and short-term disruptions (such as those caused by equipment malfunction, temporary system outage or utility disruption)
- Technical procedure for dealing with systems and network outage. These are addressed in the IT Disaster Recovery Plan
- Procedures for dealing with safety issues or emergencies (such as fires, bomb threats, evacuation, etc.). These are dealt with in the City's Emergency Management Plans
- Disasters (such as major storms, wide-spread flooding, etc.) impacting the community that are under the purview of the Local Emergency Management Arrangements

## Related documentation

This BCP is supplemented by the following (see Figure 1):

- Local Business Continuity Plans (LBCPs) containing the response plans for guiding business continuity actions of the respective Directorates and business areas. The number of LBCPs required within each Directorate is dependent on the size and complexity of the Directorate. Smaller Directorates may have all their LBCPs consolidated into one document,
- A Crisis Management Plan (CMP) that provides guidance to the Executive-level Crisis Management Team (CMT) that is responsible for controlling and coordinating the City's response to an Incident Level 3 crisis.

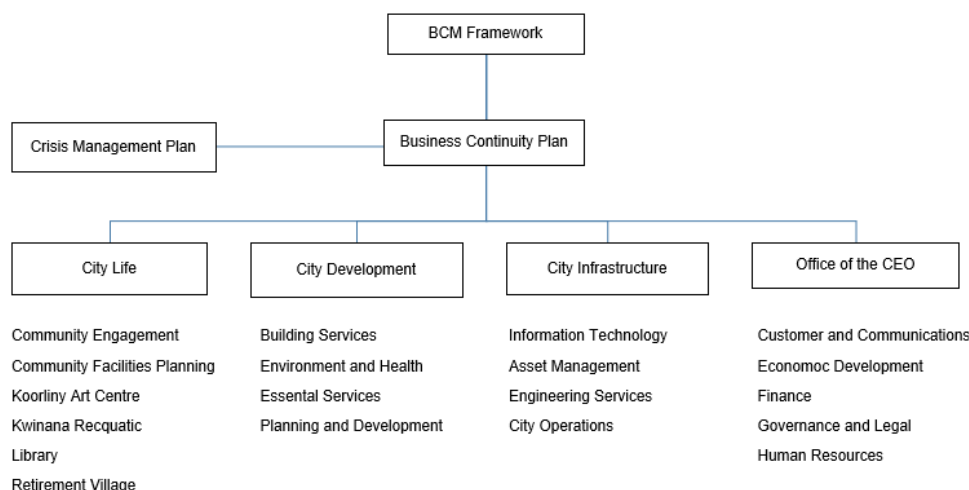

Figure 1 Business Continuity Documentation Hierarchy

The BCP, LBCPs and CMP collectively form part of the City's framework for responding to emergencies and service disruptions consisting of the following documents:

- Risk Management Strategy
- Business Continuity Management Framework
- IT Disaster Recovery Plan
- Local Emergency Management Arrangements

## Distribution and Access

The BCP is intended to be used and referenced by:

- members of the Executive
- members of the Crisis Management Team
- business area managers responsible for overseeing execution of the LBCPs.

All holders of the BCP and LBCPs should have access to the documents at their regular place of work and off-site (i.e., at home or via remote access). Electronic copies of the documents are saved centrally within the City's Record Keeping System (CM9)>CORP84.

Due to the sensitive nature of the information contained in the BCP and LBCPs, distribution of the plan to external parties will only be made on a restricted basis and with the approval of the CEO.

### **Plan review and maintenance**

The BCP, LBCPs and all associated documents are to be reviewed and updated annually from the date of publication/date of last review as part of the annual maintenance process. In addition, the BCP documentation is to be updated or revised when there are significant organisational or procedural changes or following the activation of the plan in response to an actual incident.

De-briefing must be held after every exercise or incident that leads to the activation of the BCP. Actions taken, and decisions made during the incident and documented procedures in the BCP should be evaluated for their effectiveness.

The Manager Governance and Legal is responsible for the on-going maintenance of the BCP.

Business area managers with each Directorate are responsible for the on-going maintenance of their respective LBCPs.

### **Training and Exercising**

The Manager Governance and Legal is responsible for developing and coordinating the delivery of business continuity training and exercise programs at planned intervals.

Business area managers are responsible for ensuring that their staff members participate in the training and exercise programs. At minimum, at least one exercise should be conducted annually.

## PRIORITISATION OF SERVICES

A Strategic Business Impact Analysis (BIA) was conducted with the Executive to:

- Assess the business impacts of disruption to services and determine the “maximum tolerable period of disruption” (MTPD),
- Identify high level recovery strategies for responding to service disruptions.

Findings from the Strategic BIA are presented in the ‘City of Kwinana Strategic Business Impact Analysis Report’

MTPD refers to the time within which a service or business function must be resumed following a disruption. It is measured from the time a disruption occurs to the time when the service or business function becomes operational again. The MTPDs provided the basis for Directorates and business areas to establish the Recovery Time Objectives (RTOs) for their prioritised services and identify recovery strategies, resource requirements and business continuity procedures.

RTO refers to the time within which a service/function must be recovered/restored following a disruption. These are grouped into 4 tiers in order of priority as follows:

Tier	Timeframe	Approach
Tier 1	RTO of 1 day or less	All available resources should be directed to recover these services quickly
Tier 2	RTO of more than 1 day and up to 1 week	Services must be recovered as soon as Tier 1 services have been restored
Tier 3	RTO of more than 1 week and up to 1 month	Services may be recovered when resources are available after Tier 1 and 2 services are restored
Tier 4	RTO of 1 month or more	Services may be suspended, and resources diverted to support higher Tier services

*Figure 2 Priorities for Recovery*

A consolidated list of priority services and business functions across all business areas is presented in Annex 1.

## RECOVERY STRATEGIES

### Operating principles

Each Directorate and business area have identified and documented appropriate recovery strategies and solutions for various loss scenarios based on the following operating principles:

#### Pandemic

- In the event of a government declared restriction to movements or lockdown and need for social distancing:
  - relocate staff to work from home (WFH)
  - maintain business-as-usual (BAU) as much as possible and practicable.
- If it is not possible or practicable to maintain BAU (e.g., due to insufficient personnel, ICT resource constraints, limited timeframes, etc.), each business area should give precedence to high priority (i.e., Tier 1 and 2) services. Lower priority services may be deferred or suspended.
- If WFH is not a viable option (e.g., due to operational constraints, technical limitations, compliance/regulatory issues, etc.) and staff members are required to work on-site, appropriate work, health, and safety measures (e.g., social distancing, use of PPE, etc.) should be implemented per the Pandemic Plan.

#### Loss of access to premise

##### Primary recovery strategy

- In the event of a loss of access to a City's premise, the primary recovery strategy is to:
  - Relocate staff to WFH and
  - Maintain BAU as much as possible and practicable.
- If it is not possible or practicable to maintain BAU (e.g., due to insufficient personnel, ICT resource constraints, limited timeframes, etc.), each business area should give precedence to high priority services as determined in the BIA. Low priority services may be deferred or temporarily suspended.

#### Alternate recovery strategies

- If WFH is not a viable option (e.g., due to operational constraints, compliance/regulatory issues, work, health, and safety concerns, etc.), the alternate recovery strategies may involve relocating priority services to:
  - an alternate site and/or
  - the premises of other government departments/agencies where prearrangements have been made and determined to be technically and operational viable.
- Precedence will be given to high priority services as determined in the BIA. Low priority services may be deferred or temporarily suspended.
- Facilities within the City that could be used as alternate sites include:
  - Administrative Building
  - Depot
  - Business Incubator
  - Darius Wells Library and Resource Centre
  - Youth Zone Space
  - John Wellard Community Centre
  - William Bertram Community Centre
  - Margaret Fielman Building
  - Koorliny Art Centre

#### **Non-availability of key personnel**

- Business areas are to develop contingency measures to mitigate the loss of, or prolonged absence of, key personnel to ensure continuity of priority services.
- Mitigation measures may include (but not limited to):
  - Redeploying appropriately skilled personnel from within or outside the Division
  - Cross-training personnel to undertake the work
  - Identifying appropriately skilled backups for key positions beforehand
  - Outsourcing the work to an external provider
  - Developing a pool of appropriately skilled personnel who may be rostered to perform the work.

#### **Non-availability of ICT services**

- ICT will have its own Disaster Recovery Plan (DRP) for restoring ICT services in the event of disruption to systems and/or networks.
- Business units are to identify the applications that they are dependent on and develop workaround processes for dealing with disruptions to these applications to ensure continuity of priority services.

**Non-availability of key suppliers**

- Business units are to develop contingency measures to mitigate the loss of key suppliers/service providers and disruption to supply chains to ensure continuity of priority services.
- Mitigation measures may include (but not limited to):
  - Maintaining contingency supplies for short term disruption
  - Identifying alternate suppliers/providers
  - Collaborate with key partners/suppliers/providers on business continuity planning
  - Ensuring that business continuity commitments of suppliers/providers are included in the contracts/service level agreements

Details on each Directorate/business area's recovery strategies are presented in the respective LBCPs.

## RESPONSE STRUCTURE

The City's response structure consists of:

### Crisis Management Team

The Crisis Management Team (CMT) is responsible for providing oversight of the incident, overseeing the broader strategic and reputational implications of the crisis, coordinating decision making and communications, and providing any necessary support and resources to the Directorates and business areas when the CMP is activated. Detailed roles and responsibilities of the CMT are outlined in the CMP.

### Business Recovery Teams

BRTs are responsible for coordinating recovery efforts with guidance and support from the CMT within the respective Directorates/business areas when the BCP is activated. The key tasks of BCTs are:

- Assess the impact of the incident on the City,
- Oversee the resumption of priority services and activities of the business area,
- Coordinate deployment of internal and external resources required to support service resumption and recovery,
- Report to their respective Directors and keep them apprised of recovery status,
- Carry out post-incident review to identify lessons learned and areas for improvement.

Detailed actions of the BRTs are presented in the Local Business Continuity Plans (LBCPs) of the respective Directorates/business areas.

## Notification and Escalation

The notification and escalation process provides a uniform means of interpreting and assessing the severity of an incident (using the prescribed incident classification), and based on that assessment, to determine if notification should be escalated to a higher level of authority at the City.

The purpose of notification and escalation process is to ensure that,

- there is uniformed criteria for assessing and classifying the severity of an incident and activating the BCP,
- relevant stakeholders are informed in an orderly and timely manner,
- the correct level of management/authority and personnel are assigned to manage the incident.

The three levels of notification and escalation are:

- Level 1 – Routine
- Level 2- Significant
- Level 3 – Critical

Further details of the notification and escalation levels are presented in the CMP.

## Business Continuity Plan Activation

There are a wide range of issues or incidents that may arise at the City, ranging from minor day-to-day operational problems that have minimal impact on overall service delivery to a crisis that could endanger the safety of people and/or lead to prolonged disruption to priority services.

Day-to-day operational problems that may cause minor inconvenience or temporary delays to service delivery are managed by the managers of the impacted area using routine procedures without any need for further escalation. If the situation cannot be resolved using routine procedures or requires a coordinated response with other business areas, the Director of the impact area will then assume responsibility for managing the incident.

The CMT authorises the activation of the BCP at the Crisis level of notification and escalation when an incident disrupts, or threatens to disrupt, all or a significant number of priority services for an extended period. Examples of incidents that could lead to the activation of the BCP include (but not limited to):

- Fire, flood or explosion causing considerable damage to buildings and/or infrastructure, and rendering part of or all the Shire's facilities inaccessible or unusable,
- Prolonged loss of utilities, such as water or electricity supply, to the site,
- Government imposed restrictions to movement due to a pandemic,
- Cyberattack that disables the Shire's systems for days,
- Security or criminal incident resulting in denial of access to the Shire's facilities,
- Above normal levels of staff absenteeism resulting from illness, severe weather, bush fires, etc.

Further details of the plan activation process can be found in the CMP.

## Standing down

Depending on the nature of the incident, the CMT Chair may stand-down the BRTs when:

- operations at the impacted business areas/facilities have returned to their BAU state or an agreed minimal level of service has been reached following an emergency or disruption, or

- business continuity may transition into a longer recovery phase which could last for weeks or even months.

Business areas managers are to ensure that post-incident reviews are carried out after every BCP activation.

## ANNEX 1 CONSOLIDATED LIST OF PRIORITY SERVICES

The tables below summarise the recovery priorities based on the Recovery Time Objective (RTO) for each service/function. These are grouped into 4 Tiers as follows:

RTO	Tier	Approach
1 day or less	1	All available resources should be directed to recover these services quickly
Up to 1 week	2	Services must be recovered as soon as Tier 1 services have been restored
Up to 2 weeks	3	Services may be recovered when resources are available after Tier 1 and 2 services are restore
2 weeks to 1 month+	4	Services may be temporarily suspended, and resources diverted to support higher Tier services

Key:

- **LOCATION** – place where service/function is located (Admin – Administration Building).
- **MBCO** – Minimum Business Continuity Objectives: the minimum level of service that is to be provided when the service/function is resumed.
- **RTO** – Recovery Time Objective: the time within which a service/function must be recovered/restored following a disruption.
- **WFH** – Work from Home: whether the service/function can be undertaken from home (Yes, No or Partial – some parts of work cannot be done from home, e.g., field work).

## INTRODUCTION

### Purpose

The purpose of the Business Continuity Plan (BCP) is to set out the principles to be followed, actions to be taken and resources to be used for the initial response, continuity of priority services and activities and long-term recovery in the event of a prolonged disruption impacting the City of Kwinana (the City).

This plan provides a process that facilitates organised decision-making in the event of a major incident that might otherwise be quite chaotic. However, the plan is not intended to be a complete, step-by-step, how-to-do-it manual since each incident is unique, with varying levels of threats and business impact. It suggests actions to be taken and provides guidelines in managing a major incident. Real life decisions for reacting to a major incident must be guided ultimately by the sound judgement and discretion of involved managers and staff.

This plan may be triggered by an incident or impending emergency that could significantly disrupt priority services and/or threaten the safety of employees, contractors, and customers.

### Objectives

The objectives of the BCP are to:

- Safeguard the health and safety of employees, contractors, and customers during and after a disruptive event,
- Minimise and prevent further damage to the City's property and other assets,
- Minimise any potential operational, reputational, financial, and legal/compliance impacts on the City, rate payers and other stakeholders resulting from a disruption,
- Ensure the continuity and resumption of priority services and business functions within pre-established timeframes and service levels following a disruption,
- Meet the relevant compliance/regulatory requirements on business continuity.

## Scope

The scope of the BCP covers arrangements for responding to and recovering from a disruptive event impacting the City's prioritised services and functions covering business areas in the following Directorates:

- City Life
- City Development and Sustainability
- City Infrastructure
- Office of the CEO

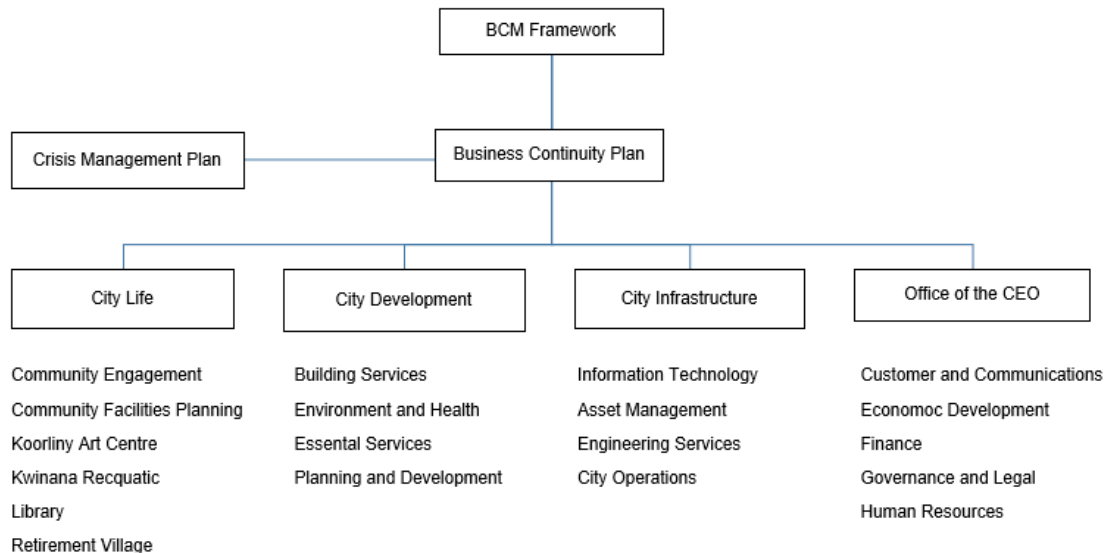

The following are excluded from the scope of the BCP:

- Procedures for dealing with day-to-day operational problems and short-term disruptions (such as those caused by equipment malfunction, temporary system outage or utility disruption)
- Technical procedure for dealing with systems and network outage. These are addressed in the IT Disaster Recovery Plan
- Procedures for dealing with safety issues or emergencies (such as fires, bomb threats, evacuation, etc.). These are dealt with in the City's Emergency Management Plans
- Disasters (such as major storms, wide-spread flooding, etc.) impacting the community that are under the purview of the Local Emergency Management Arrangements

## Related documentation

This BCP is supplemented by the following (see Figure 1):

- Local Business Continuity Plans (LBCPs) containing the response plans for guiding business continuity actions of the respective Directorates and business areas. The number of LBCPs required within each Directorate is dependent on the size and complexity of the Directorate. Smaller Directorates may have all their LBCPs consolidated into one document,
- A Crisis Management Plan (CMP) that provides guidance to the Executive-level Crisis Management Team (CMT) that is responsible for controlling and coordinating the City's response to an Incident Level 3 crisis.

*Figure 1 Business Continuity Documentation Hierarchy*

The BCP, LBCPs and CMP collectively form part of the City's framework for responding to emergencies and service disruptions consisting of the following documents:

- Risk Management Strategy
- Business Continuity Management Framework
- IT Disaster Recovery Plan
- Local Emergency Management Arrangements

## Distribution and Access

The BCP is intended to be used and referenced by:

- members of the Executive
- members of the Crisis Management Team
- business area managers responsible for overseeing execution of the LBCPs.

All holders of the BCP and LBCPs should have access to the documents at their regular place of work and off-site (i.e., at home or via remote access). Electronic copies of the documents are saved centrally within the City's Record Keeping System (CM9)>CORP84.

Due to the sensitive nature of the information contained in the BCP and LBCPs, distribution of the plan to external parties will only be made on a restricted basis and with the approval of the CEO.

## **Plan review and maintenance**

The BCP, LBCPs and all associated documents are to be reviewed and updated annually from the date of publication/date of last review as part of the annual maintenance process. In addition, the BCP documentation is to be updated or revised when there are significant organisational or procedural changes or following the activation of the plan in response to an actual incident.

De-briefing must be held after every exercise or incident that leads to the activation of the BCP. Actions taken, and decisions made during the incident and documented procedures in the BCP should be evaluated for their effectiveness.

The Manager Governance and Legal is responsible for the on-going maintenance of the BCP.

Business area managers with each Directorate are responsible for the on-going maintenance of their respective LBCPs.

## **Training and Exercising**

The Manager Governance and Legal is responsible for developing and coordinating the delivery of business continuity training and exercise programs at planned intervals.

Business area managers are responsible for ensuring that their staff members participate in the training and exercise programs. At minimum, at least one exercise should be conducted annually.

## PRIORITISATION OF SERVICES

A Strategic Business Impact Analysis (BIA) was conducted with the Executive to:

- Assess the business impacts of disruption to services and determine the “maximum tolerable period of disruption” (MTPD),
- Identify high level recovery strategies for responding to service disruptions.

Findings from the Strategic BIA are presented in the ‘City of Kwinana Strategic Business Impact Analysis Report’

MTPD refers to the time within which a service or business function must be resumed following a disruption. It is measured from the time a disruption occurs to the time when the service or business function becomes operational again. The MTPDs provided the basis for Directorates and business areas to establish the Recovery Time Objectives (RTOs) for their prioritised services and identify recovery strategies, resource requirements and business continuity procedures.

RTO refers to the time within which a service/function must be recovered/restored following a disruption. These are grouped into 4 tiers in order of priority as follows:

Tier	Timeframe	Approach
<b>Tier 1</b>	RTO of 1 day or less	All available resources should be directed to recover these services quickly
<b>Tier 2</b>	RTO of more than 1 day and up to 1 week	Services must be recovered as soon as Tier 1 services have been restored
<b>Tier 3</b>	RTO of more than 1 week and up to 1 month	Services may be recovered when resources are available after Tier 1 and 2 services are restored
<b>Tier 4</b>	RTO of 1 month or more	Services may be suspended, and resources diverted to support higher Tier services

*Figure 2 Priorities for Recovery*

A consolidated list of priority services and business functions across all business areas is presented in Annex 1.

## RECOVERY STRATEGIES

### Operating principles

Each Directorate and business area have identified and documented appropriate recovery strategies and solutions for various loss scenarios based on the following operating principles:

#### Pandemic

- In the event of a government declared restriction to movements or lockdown and need for social distancing:
  - relocate staff to work from home (WFH)
  - maintain business-as-usual (BAU) as much as possible and practicable.
- If it is not possible or practicable to maintain BAU (e.g., due to insufficient personnel, ICT resource constraints, limited timeframes, etc.), each business area should give precedence to high priority (i.e., Tier 1 and 2) services. Lower priority services may be deferred or suspended.
- If WFH is not a viable option (e.g., due to operational constraints, technical limitations, compliance/regulatory issues, etc.) and staff members are required to work on-site, appropriate work, health, and safety measures (e.g., social distancing, use of PPE, etc.) should be implemented per the Pandemic Plan.

#### Loss of access to premise

##### Primary recovery strategy

- In the event of a loss of access to a City's premise, the primary recovery strategy is to:
  - Relocate staff to WFH and
  - Maintain BAU as much as possible and practicable.
- If it is not possible or practicable to maintain BAU (e.g., due to insufficient personnel, ICT resource constraints, limited timeframes, etc.), each business area should give precedence to high priority services as determined in the BIA. Low priority services may be deferred or temporarily suspended.

#### Alternate recovery strategies

- If WFH is not a viable option (e.g., due to operational constraints, compliance/regulatory issues, work, health, and safety concerns, etc.), the alternate recovery strategies may involve relocating priority services to:
  - an alternate site and/or
  - the premises of other government departments/agencies where prearrangements have been made and determined to be technically and operational viable.
- Precedence will be given to high priority services as determined in the BIA. Low priority services may be deferred or temporarily suspended.
- Facilities within the City that could be used as alternate sites include:
  - Administrative Building
  - Depot
  - Business Incubator
  - Darius Wells Library and Resource Centre
  - Youth Zone Space
  - John Wellard Community Centre
  - William Bertram Community Centre
  - [Margaret Fielman Building](#)
  - [Koorliny Art Centre](#)

#### **Non-availability of key personnel**

- Business areas are to develop contingency measures to mitigate the loss of, or prolonged absence of, key personnel to ensure continuity of priority services.
- Mitigation measures may include (but not limited to):
  - Redeploying appropriately skilled personnel from within or outside the Division
  - Cross-training personnel to undertake the work
  - Identifying appropriately skilled backups for key positions beforehand
  - Outsourcing the work to an external provider
  - Developing a pool of appropriately skilled personnel who may be rostered to perform the work.

#### **Non-availability of ICT services**

- ICT will have its own Disaster Recovery Plan (DRP) for restoring ICT services in the event of disruption to systems and/or networks.
- Business units are to identify the applications that they are dependent on and develop workaround processes for dealing with disruptions to these applications to ensure continuity of priority services.

### **Non-availability of key suppliers**

- Business units are to develop contingency measures to mitigate the loss of key suppliers/service providers and disruption to supply chains to ensure continuity of priority services.
- Mitigation measures may include (but not limited to):
  - Maintaining contingency supplies for short term disruption
  - Identifying alternate suppliers/providers
  - Collaborate with key partners/suppliers/providers on business continuity planning
  - Ensuring that business continuity commitments of suppliers/providers are included in the contracts/service level agreements

Details on each Directorate/business area's recovery strategies are presented in the respective LBCPs.

## RESPONSE STRUCTURE

The City's response structure consists of:

### **Crisis Management Team**

The Crisis Management Team (CMT) is responsible for providing oversight of the incident, overseeing the broader strategic and reputational implications of the crisis, coordinating decision making and communications, and providing any necessary support and resources to the Directorates and business areas when the CMP is activated. Detailed roles and responsibilities of the CMT are outlined in the CMP.

### **Business Recovery Teams**

BRTs are responsible for coordinating recovery efforts with guidance and support from the CMT within the respective Directorates/business areas when the BCP is activated. The key tasks of BCTs are:

- Assess the impact of the incident on the City,
- Oversee the resumption of priority services and activities of the business area,
- Coordinate deployment of internal and external resources required to support service resumption and recovery,
- Report to their respective Directors and keep them apprised of recovery status,
- Carry out post-incident review to identify lessons learned and areas for improvement.

Detailed actions of the BRTs are presented in the Local Business Continuity Plans (LBCPs) of the respective Directorates/business areas.

### **Notification and Escalation**

The notification and escalation process provides a uniform means of interpreting and assessing the severity of an incident (using the prescribed incident classification), and based on that assessment, to determine if notification should be escalated to a higher level of authority at the City.

The purpose of notification and escalation process is to ensure that,

- there is uniformed criteria for assessing and classifying the severity of an incident and activating the BCP,
- relevant stakeholders are informed in an orderly and timely manner,
- the correct level of management/authority and personnel are assigned to manage the incident.

The three levels of notification and escalation are:

- Level 1 – Routine
- Level 2- Significant
- Level 3 – Critical

Further details of the notification and escalation levels are presented in the CMP.

## **Business Continuity Plan Activation**

There are a wide range of issues or incidents that may arise at the City, ranging from minor day-to-day operational problems that have minimal impact on overall service delivery to a crisis that could endanger the safety of people and/or lead to prolonged disruption to priority services.

Day-to-day operational problems that may cause minor inconvenience or temporary delays to service delivery are managed by the managers of the impacted area using routine procedures without any need for further escalation. If the situation cannot be resolved using routine procedures or requires a coordinated response with other business areas, the Director of the impact area will then assume responsibility for managing the incident.

The CMT authorises the activation of the BCP at the Crisis level of notification and escalation when an incident disrupts, or threatens to disrupt, all or a significant number of priority services for an extended period. Examples of incidents that could lead to the activation of the BCP include (but not limited to):

- Fire, flood or explosion causing considerable damage to buildings and/or infrastructure, and rendering part of or all the Shire's facilities inaccessible or unusable,
- Prolonged loss of utilities, such as water or electricity supply, to the site,
- Government imposed restrictions to movement due to a pandemic,
- Cyberattack that disables the Shire's systems for days,
- Security or criminal incident resulting in denial of access to the Shire's facilities,
- Above normal levels of staff absenteeism resulting from illness, severe weather, bush fires, etc.

Further details of the plan activation process can be found in the CMP.

## **Standing down**

Depending on the nature of the incident, the CMT Chair may stand-down the BRTs when:

- operations at the impacted business areas/facilities have returned to their BAU state or an agreed minimal level of service has been reached following an emergency or disruption, or

- business continuity may transition into a longer recovery phase which could last for weeks or even months.

Business areas managers are to ensure that post-incident reviews are carried out after every BCP activation.

## ANNEX 1 CONSOLIDATED LIST OF PRIORITY SERVICES

The tables below summarise the recovery priorities based on the Recovery Time Objective (RTO) for each service/function. These are grouped into 4 Tiers as follows:

RTO	Tier	Approach
1 day or less	1	All available resources should be directed to recover these services quickly
Up to 1 week	2	Services must be recovered as soon as Tier 1 services have been restored
Up to 2 weeks	3	Services may be recovered when resources are available after Tier 1 and 2 services are restore
2 weeks to 1 month+	4	Services may be temporarily suspended, and resources diverted to support higher Tier services

Key:

- **LOCATION** – place where service/function is located (Admin – Administration Building).
- **MBCO** – Minimum Business Continuity Objectives: the minimum level of service that is to be provided when the service/function is resumed.
- **RTO** – Recovery Time Objective: the time within which a service/function must be recovered/restored following a disruption.
- **WFH** – Work from Home: whether the service/function can be undertaken from home (Yes, No or Partial – some parts of work cannot be done from home, e.g., field work).

**12.6 WORK HEALTH AND SAFETY (WHS) STATISTICAL REPORT - 10 JUNE 2024****DECLARATION OF INTEREST**

There were no declarations of interest declared.

**SUMMARY**

Council has endorsed a Health and Safety Policy to meet its moral and legal obligation to provide a safe and healthy work environment for all employees, contractors, customers, and visitors. This commitment extends to ensuring the City's operations do not place the community at risk of injury, illness, or property damage. At the Audit and Risk Committee meeting dated 23 September 2022, the City presented the then newly developed Safety and Wellbeing Strategic Plan 2022-2024 designed to provide an overview and monitoring of the identified strategic safety and wellbeing actions linking the framework and operational processes. This strategic plan has also been presented at subsequent Audit and Risk Committee meetings. A recent review and update to the strategic plan has been undertaken and a new three-year plan developed. The Work Health and Safety (WHS) Committee has commenced the implementation of tasks for this plan and its progress continues to be monitored by the Executive Leadership Team. The updated plan is enclosed as Attachment A.

It is usual practice to provide a report detailing statistical data at each Audit and Risk Committee meeting. Of note and during the review period, there have been two reportable incidents to WorkSafe WA. The report is enclosed as Attachment B.

On 24 October 2023, the new Workers' Compensation and Injury Management legislation was passed with the legislation coming into effect on 1 July 2024. The City has been progressing the review and applicable amendments to reflect any legislative changes. Accordingly, Officers are currently reviewing the Health and Safety System Framework with the framework documentation due for its bi-annual review. Once this documentation review has been completed and aligned to applicable legislation, the documentation will be tabled at the Audit and Risk Committee meetings.

**OFFICER RECOMMENDATION**

That the Audit and Risk Committee:

1. Note and provide comment where appropriate on the City of Kwinana Safety and Wellbeing Strategic Plan 2024 – 2026 detailed in Attachment A.
2. Note and provide comment where appropriate on the City of Kwinana WHS Statistical data report detailed in Attachment B.

**AUDIT AND RISK COMMITTEE RECOMMENDATION**

That Council:

1. Note the City of Kwinana Safety and Wellbeing Strategic Plan 2024 – 2026 detailed in Attachment A.
2. Note the City of Kwinana WHS Statistical data report detailed in Attachment B.

## VOTING REQUIREMENT

## DISCUSSION

### Safety and Wellbeing Strategic Plan 2024 – 2026

This strategic plan has been created to provide visibility across the City to ensure the delivery on its moral and legal obligations within the health and safety environment. The initial plan (2022 – 2024) was reviewed and updated to reflect the currency of the outcomes and actions. The new strategic plan lists five safety and wellbeing priorities and describes the strategic outcomes to be achieved, the key performance measures and the progress of delivery. The inclusion of the traffic light system is incorporated to enhance the visual representation of progress of the plan. The strategic plan has gone through to the Work Health and Safety (WHS) Committee who have commenced the implementation of tasks for this plan and its progress continues to be monitored by the Executive Leadership Team.

### Summary of Statistical Data:

At the Audit and Risk Committee meeting of 19 February 2024, a request was received from the Committee for enhanced statistical data reporting. This request has been delayed as there is a requirement for the provider of the software system (MyOSH) to customise the data reporting function. The City is currently working with the provider to undertake the request and will provide updated information when this becomes available.

Whilst it is not possible to produce the updated statistical data report, the previous format of data reporting has been prepared for the period from 26 January 2024 to 10 May 2024. A summary of the incidents recorded over the period is as follows.

Of note, there were two incidents which as per legislation required reporting to WorkSafe WA. The first incident occurred on 7 March 2024 at approx. 8.15am. A sub-contractor to one of the City's contractors had fallen from a ladder while painting at the Recquatic. The sub-contractor was found in the outside area lying face down whereby first aid was applied, and an ambulance was called. All appropriate parties were contacted, including the contractor and the City's Health, Safety, and Injury Management Advisor (HSIMA) who notified WorkSafe WA. The HSIMA commenced a review of the safety practices from the City's perspective and liaised with the contractor to obtain further information pertaining to their safety systems and management of the subcontractor. On the subsequent day, an inspector from WorkSafe WA presented at the City whereby the incident was investigated. Whilst the incident occurred on the City's premises initial findings of the investigation detailed that the sub-contractor was not authorised to be on-site as the painting surface was not cleared for further work. The WorkSafe WA inspector reviewed and was satisfied with the City's investigations to date and closed out the stop work notice.

In a second incident on 26 March 2024 at approx. 2.30pm, a City employee was driving a loader which was moving material to create a ramp. The loader has rolled down the embankment (2.5 to 3 metres) and landed on its roof. The appropriate parties were contacted, including the HSIMA who contacted WorkSafe WA. The employee sustained minor injuries and attended a medical assessment returning to work on the following day. Given the potential for severity of the incident, specialised plant used and this being a rare occurrence, the City engaged an independent party to conduct the investigation.

A summary of the incidents recorded over the quarter from 26 January 2024 to 10 May 2024 is as follows. A total of eighteen incidents have been recorded during the nearly three-month period. Eight from the City Infrastructure directorate, seven from the City Life directorate, two from City Development and Sustainability and one reported from the Office of the CEO. Six incidents were recorded as injuries, four incidents were recorded as vehicles, three recorded as a near miss, one recorded as equipment and four incidents were classified as Inappropriate Behaviour/Violence and further categorization of the eighteen incidents determined that the event severity of the actual incident category, that is prior to any identified mitigating actions were as follows, three being identified as a high rating, three were identified as a medium rating and seven as a low

rating. At the time of the collating of statistical data there were five incidents that did not record the event severity category due to the incident's status of pending investigation and will be determined on approval by the manager. The statistical graphs are included in Attachment A.

New Workers' Compensation and Injury Management Legislation:

The City has been preparing for the introduction of the new legislation working closely WorkCover WA and the City's insurers LGIS and has identified areas that will need to be amended and aligned to achieve compliance. As such, officers are also reviewing applicable framework documentation which will be presented to the Audit and Risk Committee on completion.

## 12.7 COUNCIL POLICY REVIEW - INVESTMENT POLICY

### DECLARATION OF INTEREST

There were no declarations of interest declared.

### SUMMARY

Council policies are high-level statements articulating the intent of the City's strategic objectives as well as guiding the City's operations. Appropriate policies help strengthen the City's governance as well as support consistency in decision-making and outcomes.

Unlike the review of local laws, the *Local Government Act 1995* does not stipulate a specific timeframe for the review of Council policies. However, the City has established processes to ensure timely reviews based on necessity.

High-risk policies are to be reviewed every two years, while lower-risk policies may be reviewed every four years. Policies are required to be updated as needed even if the review timeframe is not due, in response to changes in legislation, procedures, and other relevant factors. The City's commitment to policy review ensures that no policy exceeds a four-year review timeframe, with the respective review dates clearly stated within the Policies reference section.

The Investment Policy – 2022 was due for review November 2024. Local Government Act 1995 Delegations Delegated Authority 1.1.16 Power to Invest contains the following conditions -

All investment activity must comply with the Financial Management Regulation 19C and Council Policies.

- a. A report detailing the investment portfolio's performance, exposures and changes since the last reporting, is to be provided as part of the Monthly Financial Reports.
- b. Procedures are to be systematically documented and retained in accordance with the Record Keeping Plan and must include references that enable recognition of statutory requirements and assign responsibility for actions to position titles.
- c. Procedures are to be administratively reviewed for continuing compliance and confirmed as 'fit for purpose' and subsequently considered by the Audit and Risk Committee at least once within every 3 financial years.

As part of the Regulation 5 Financial Management Review audit in 2023, the current Investment Policy was examined against the Investment Register. Macri Partners found that the intent of the policy is to monitor single entity investment in comparison to the total portfolio of assets, but the policy is not clearly articulated and need to be updated accordingly. While reviewing the Investment Policy to make these changes, changes were also implemented to ensure the City is considering "Green" non-fossil fuel investments as part of the City's Investment portfolio.

As part of the City's policy review process and Regulation 5 Financial Management Review audit log, the following policy has undergone a thorough review and is recommended for adoption by Council:

- Investment Policy (**Attachment A**)

## OFFICER RECOMMENDATION

That the Audit and Risk Committee in accordance with the *Local Government Act 1995* note and provide comment on the amended Investment Policy as detailed in Attachment A.

## AUDIT AND RISK COMMITTEE RECOMMENDATION

That Council note that the Audit and Risk Committee deferred this item to the next Audit and Risk Committee Meeting, to allow further consideration to potential risks.

### Audit and Risk Committee Comments:

- Consideration be given to diversification of investments as it is a mitigation against financial loss.
- Encourage a maximum financial amount be set in monetary terms rather than a percentage that can vary.
- Suggested that 60% of a portfolio invested in any one investment is not good credential management.
- That the item be deferred to allow for consideration to the above comments.

## VOTING REQUIREMENT

Simple majority .

## DISCUSSION

As part of the City's policy review process and Regulation 5 Financial Management Review audit log, the Investment policy has been subject to review and assessment. After careful consideration this policy is now recommended for review by the Audit and Risk Committee and to be subsequently adopted or revoked by Council.

To facilitate this decision-making process, City officers have provided comments and insights related to the Investment policy and have provided comments below.

### Amended to Investment Policy:

To facilitate this decision-making process, City officers have provided comments and insights related to the amendments to the Investment policy and have provided comments below regarding the changes:

- As per the Regulation 5 audit recommendations from Macri Partners, the two tables under Portfolio Credit Framework have been combined and percentages(%) refer to *Maximum % of investment with any one institution* and *Maximum % of Total Portfolio* to clearly articulate the investment percentages expected per bank and per risk rating type. The combined table has removed the anomaly that currently exist and has been benchmarked to other similar local governments.
- Additional information has been added under Environmentally and Socially Responsible Investment to ensure that the City is considering lending to eligible non-fossil fuels lending banks.
- Under Portfolio Credit Framework - the percentages per bank have been expanded as majority of eligible non-fossil fuels lending banks have a risk rating of BBB.
- The maximum percentage of investment with any one institution for BBB rated banks has increased from 10% to 20%.

- Maximum percentage of 'Total Portfolio for BBB' rated banks has increased from 20% to 40%. This will encourage investment in eligible non-fossil fuels lending banks while still permitting an acceptable level of risk.
- The percentage of investment in Bendigo Bank Kwinana Community Branch has been increased from 40% to 60% to encourage local investment and to recognise the Kwinana branch's contribution to the community.
- Under Reporting and Performance Monitoring there is an additional requirement to report on non-fossil fuel investment in the monthly financial report as part of the City's Sustainable Framework initiatives.
- Other minor formatting changes were made to align with current policy formatting.

## **14 REPORTS – COMMUNITY**

### **14.1 LOVE WHERE YOU LIVE PROGRAM INITIATIVE**

#### **DECLARATION OF INTEREST**

There were no declarations of interest declared.

#### **SUMMARY**

The City of Kwinana conducts a bi-annual community perception survey. The purpose of this survey is to measure the overall community perception of City services and to identify community priorities. This community feedback is then utilised to inform the City's Strategic Community Plan.

The City conducted a community perception survey in October 2022 and will be conducting another survey in 2024 to guide the City's new Strategic Community Plan. The results of the 2022 survey has guided this report which highlighted that the City rated very highly in numerous areas (Library Services, Recquatic) although the community highlighted several key priority areas that they were concerned about.

These areas included: community safety, community connection and the overall perception/image of Kwinana. Since then, the City have been implementing numerous activities and programs to address the feedback from the areas mentioned above.

This report details the programs developed to address this feedback as well as a new initiative 'Love Where You Live' initiative which will provide a \$200 subsidy to residents for front garden makeovers as well as community workshops on the benefits of waterwise gardening. The outcome of this initiative is the improvement to the aesthetic and ecological value of residential neighbourhoods across the City of Kwinana, while also ensuring community safety and community pride.

#### **OFFICER RECOMMENDATION**

That Council approve \$25,000 to be included in the 2024/25 draft budget for the Love Where You Live initiative.

#### **VOTING REQUIREMENT**

Simple Majority.

#### **DISCUSSION**

The bi-annual *community perceptions* and *community wellbeing* surveys (conducted in July 2022) was sent to 2,000 randomly selected households and emailed to 12,370 stakeholders/community members. The results represent a statistically sound sample, reflecting community sentiment in a range of key areas. The data from the surveys has also been aggregated against 70 other Councils, providing us with a wider lens on how the Kwinana community is tracking against other Western Australian communities. This report specifically focuses on the perceptions of Kwinana and the response from the City.

The number one community concern, according to our community, is *Community Safety*. Residents and stakeholders noted low levels of social connectedness in two thirds of Kwinana suburbs, with the only exceptions being Medina, Calista, Casuarina and Wellard East.

*Community pride* in Kwinana was trending at 54 points (out of a possible 100), which is 12 basis points behind the industry average (66 points), and 22 basis points behind the industry high (76 points). When it came to *community spirit*, Kwinana was sitting at 43 basis points, 12 points behind the industry average (55 points).

The concept of *belonging* yielded varied results. Some suburbs, like Medina and Calista, reported strong levels (63 points), close to the industry average (65 points). In contrast, the suburb of Leda had relatively low levels, with just 19 points. These outcomes across these key areas have the potential to collectively influence several community outcomes including physical health, mental health, and rates of anti-social behaviour. As such, they are incredibly important and warrant careful consideration and planning.

Since receiving these results in October 2022, the City has implemented a wide range of programs and activities to address perceptions of Kwinana. Efforts have primarily focused on key priority areas such as community safety, belonging, connectedness, and enhancing the overall perception and image of Kwinana.

Listed below are just some of the initiatives the City has initiated and delivered over the past 18 months:

- ***Boutique Community Events*** – The City have focused efforts on engaging key sections of our community, in more intimate and meaningful ways. For example;
  - o *Kwinana Connect* – A sold-out, outdoor event for 130+ people, held at Smirks Cottage, focused on sharing powerful stories of connection over a long-table dinner.
  - o *Kwinana Youth Forum* – A sold-out youth event, held at Koorliny Arts Centre, delivering a range of unique learning opportunities to young people in Kwinana.
  - o *Kwinana Community Services Sundowner* – A celebration and thank you for our key community sector organisations, celebrating their work and impact locally.
- ***Love My Leda*** – focusing on Sloan's Reserve in Leda, a shipping container was activated consistently over the course of several months, offering Leda residents opportunities to engage with City staff and external deliverers who delivered a range of programs.
- ***Street by Street Initiative*** – an innovative opportunity that focused on 10 streets in Leda. The City supported the residents to make-over the entire street (lawn mowing, front-yard beautification, mulch and native plants delivered etc.) before engaging in a local street party, where neighbours were able to meet one another and develop important social relationships. The Community Safety Team and the Waste Team, also used the opportunity to reimagine the City's bin-tagging program (a program that often meets much resistance and scrutiny) to deliver the *Face Your Waste* initiative – a project that educated and rewards community members for good waste management practices.
- ***Junior Neighbourhood Watch*** – an innovative program, educating and empowering primary school aged children to be active citizens in the Kwinana community, while also increasing the eyes on the streets, resulting in improved school engagement and improved community safety outcomes.
- ***Orelia Primary Bike Library*** – a collaboration between Orelia Primary School, their Junior Neighbourhood Watch members, Neighbourhood Watch, WA Police and City of Kwinana, this incredible program educates kids, reduces waste and encourages a rapid increase in physical activity.

- **Sports Partnerships** – The City have developed new partnerships with a range of State Sporting Associations and other key industry organisations, resulting in an increased delivery of local programs. Stakeholders include the WACA (kids programs and Deadly cricket), Football Futures (soccer programs), Reclink WA (multisport programs), Team Connect WA (engaging vulnerable young females)
- **Community Services Working Group** – Since the start of 2023, the City has embarked on a new approach to supporting our community service sector. This new approach is aimed at bringing a wide range of services to Kwinana, so that our residents have access to everything they may need right here in the local community. The City has also been active in advocating for key service gaps, and this approach has yielded over \$400,000 of funding for local service organisations in areas such as early years, youth engagement and inclusive sporting initiatives.
- **Inclusive procurement** – With the Café at the Recquatic being vacant in 2022, the City marketed a tender and selected a disability provider, Good Sammy Enterprises, to operate the facility under a Social Enterprise model. This has offered employment traineeship opportunities for around 15 local people living with disabilities, while also reducing the historical outlay and investment in running the facility.
- **Youth Engagement initiatives**
  - o **ARC Light** – The City has taken the lead on delivering the ARC Light Youth Engagement initiative. This initiative, based on the Armadale Youth Intervention Project (AYIP) is aimed at supporting the most vulnerable young people, who have been chronically disengaged. The initiative is helping provide future employment opportunities, while drastically reducing anti-social behaviour and damage in the Town Centre and it involves a collaboration that includes WA Police, Child Protection, the Dept. of Education, Gilmore College, and other key local services.
  - o **Kwinana Youth Advisory Committee (KYAC)** – The KYAC have been completely remodelled in the past year. They are incredibly diverse, and are also operating like a formal Board, with members taking on formal roles, enabling them to learn key skills that support future employment and volunteering opportunities. The Chair of the KYAC was also crowned WA Young Leader of the Year this year. The City have also increased the promotion of the YAC through the City's website and social channels.
  - o **Kwinana Beats** – Through the vehicle of hip-hop, young people have been able to learn the craft of songwriting and artistic expression. Young people are supported to write and record their songs, with many using this as a form of therapy to help process complex issues in their lives. Recently, this program also received National media attention, with local 11-year-old Nyoongar Wongi hip-hop artist *Inkabee*, making his TV and radio debut.
- **Public Art and Beautification** – The City has worked tirelessly to improve the connection to place for local residents across Kwinana. This has seen several new public art and entry statement installations, increasing social interactions and connection to the public realm.
  - o **7 Day Makeover** – One great example of creating a deeper connection to place has been the delivery of the 7-Day makeover in Wellard. The initiative, funded by RAC, and co-delivered with Creative Communities Australia, saw 170 local residents plan, budget for and renovate the Strand in Wellard. The project has won several State Awards and received a commendation at the National Planning Institute of Australia's National Awards for Planning Excellence.
- **Assertive Outreach Service** – In July 2023, the City engaged the services of St Patrick's Community Centre in delivering an assertive outreach service in Kwinana. This collaboration also involves the State Government's HEART Team, to ultimately deliver Kwinana a fit-for-purpose service is aimed at supporting our most vulnerable community members in maintaining safe and suitable accommodation.

In addition to these programs and pilots listed above, the City is also currently embarking on and supporting a range of new and exciting initiatives develop community leadership, that include the following amongst others:

- **Boola Maara Consultative Committee** – The Boola Maara Advisory Group has been elevated to a Committee of Council to advise Council on cultural and community matters.
- **Senior Ambassador Program** – An exciting multi-faceted program delivered in partnership with the Kwinana Senior Citizen's Centre. The initiative is aimed at making opportunities for Seniors, and Seniors themselves, more visible in and around the community.
- **Community Champions Program** – The City are working with a group of local community leaders to help shape Kwinana's future. This program will develop stronger mutually beneficial relationships with community leaders in the community, improve their skills and networks and facilitate opportunities for partnerships.
- **Multicultural Action Group** – A diverse group of residents, supported by the City, is working together to enhance the representation of various cultures in Kwinana's civic life. The City aims to uplift and empower members of the multicultural community in Kwinana to take ownership and become more actively involved.
- **Disability Arts Program** – The Koorliny Arts Team have partnered with disability service provider, Workpower, and are planning for the delivery of an inclusive arts program in 2024 at Koorliny Arts Centre.

### **Love Where You Live initiative**

To complement the range of ongoing initiatives, the City proposes investment of \$25,000 in an innovative project that leverages the insights gained from the *Love My Leda* and *Street-by-Street* initiatives. This proposed project, titled *Love Where You Live*, aims to improve:

- **Community Safety** outcomes, by ensuring that people develop a greater range of connections in their local neighbourhoods
- **The sense of belonging** for residents, as they focus on positives in their streets and suburbs
- **Social connectedness**, by connecting people to one another, while also encouraging community discussions and collaborations
- **General community pride** by empowering residents to do more for themselves and their neighbourhoods, and
- **The general perception and image of Kwinana** – as residents will be engaged in positive activities that encourage outdoor interaction, and ultimately also contribute to an increase in amenity and improvements in property image and value.

The *Love Where You Live* initiative will have the following key components:

- \$200 subsidies for 100 houses evenly spread across Kwinana – to go towards general front-yard makeovers (\$20,000)
- \$50 vouchers for up to 30 houses, nominated under the banner of 'Proud of My Place' (\$1,500), aimed at residents who already have developed gardens they are proud of.
- Community education workshops – a pre-requisite to receiving the subsidy. These will help build connections between residents and City officers.

The key outcomes of the *Love Where You Live* program will see improvements to the aesthetic and ecological value of residential neighbourhoods across Kwinana, while also ensuring community safety and community pride outcomes are realised.

## STRATEGIC IMPLICATIONS

This proposal will support the achievement of the following outcome/s and objective/s detailed in the Strategic Community Plan and Corporate Business Plan.

Strategic Community Plan			
Outcome	Strategic Objective	Action in CBP (if applicable)	How does this proposal achieve the outcomes and strategic objectives?
4 – A unique, vibrant and healthy City that is safe, connected and socially diverse	4.2 – Improve Kwinana's perception by leveraging and promoting the unique attributes of the area and supporting feelings of safety and security in community	N/A – There is no specific action in the CBP, yet this report will help achieve the indicated outcomes and strategic objectives	The <i>Love Where You Live</i> initiative will encourage social interactions, beautification of local residences, and a general improvement in the streetscapes. It will also see more eyes on the street, supporting the Crime Prevention Through Environmental Design (CPTED) concept.

## SOCIAL IMPLICATIONS

This proposal will support the achievement of the following social outcome/s, objective/s and strategic priorities detailed in the Social Strategy.

## DISCUSSION

The City's LTFP has been reviewed for the period 2025-2034. The previous Long Term Financial Plan (LTFP) was adopted in December 2021. As per the current Strategic Community Plan(SCP), and the current reviewed LTFP, there was a determination to prioritise asset renewal, keep rate rises minimal and identify a number of projects and services for the City to pursue.

One of the key objectives of the LTFP was to address the City's asset sustainability. This budget has maintained this focus to ensure the City's vast asset base of over \$800 million of physical assets are maintained as a priority to avoid the risk of asset failure and the subsequent inability of the City to be able to afford to repair failed assets. Furthermore, it is necessary to invest in asset renewals in order to maintain a level of service to the community, including a level of public safety.

The City is estimated to generate \$52,862,845 in rate income, including estimated interim rates, in the 2024/2025 financial year. The rate income generated by the City for this budget comprises 61% of total revenue sources. In addition to rates revenue, funding is sourced from grants and contributions for operating and capital purposes (17%), fees and charges (17%), interest earnings (4%) and other revenue, such as reimbursements (1%).

### 2024/2025 Carried forward Projects

During May 2024, City officers undertook the May 2024 Budget Review. The main aim of the review is to account for any capital projects and operating projects that are forecasted to be

incomplete at the end of the financial year and hence their expenditure together with relating fundings are to be carried forward to 2024/2025.

Several carry forwards totalling \$1,301,399 have been included in the current capital budget are listed below:

Project description	Amount	Reason
Revitalising the Strand in Wellard	\$50,000	This is the community-led projects and will be delivered to the Wellard community as they request.
Apex park upgrade	\$103,500	Project delayed due to resourcing issue.
Kwinana loop trail upgrade	\$153,857	Finalisation of consultation and design.
Enhance CCTV network/Purchase a Mobile CCTV Unit	\$35,622	Purchase orders have been raised. Equipment expected to be delivered in July.
Darius Dome - Coolroom/freezer	\$16,000	Additional work required due to legislation changes. Project scope currently reviewed.
Darius Dome - kitchen Evap Cooler	\$15,000	Additional work required due to legislation changes. Project scope currently reviewed
IT-Server Replacement	\$100,000	Project delayed due to resourcing issue.
Parks and Reserves - Abingdon Park - Recirculation System	\$75,000	Further project investigation required.
POS Assets - Sandringham Park - Playgrounds - LRCI 4	\$200,000	Community engagement process and equipment ordering lead time longer than anticipated.
Sandringham Park Upgrade	\$39,600	Community engagement process and equipment ordering lead time longer than anticipated.
Building Contingency	\$12,224	Purchase orders have been raised. Estimated works to commence in July.
Street Lighting New	\$6,843	Application has been lodged, awaiting approval from Western Power.
Recquatic - Hydrotherapy Chiller AC Replacement	\$9,753	Project has commenced but anticipated to be completed in 2024/25 financial year.
Bird Watering Stations	\$14,000	Works to commence either end of June or early July.
Plant Replacement Program - Light Fleet	\$60,000	Due to delays in delivery.
Plant Replacement Program- Heavy plant	\$410,000	Due to delays in delivery.
<b>Total</b>	<b>\$1,301,399</b>	

There was also a total of \$482,842 of operating projects that were incomplete in 2023/2024 and have been carried forward to 2024/2025 budget.

### Forecast Carried Forward Surplus

1. The opening surplus for 2024/2025 is \$2,566,260 mainly due to carry over of capital projects as well as key operating projects and an assumption that 50% of Financial Assistance Grants to be paid in advance by Federal Government. The closing surplus for 2024/2025 is an estimate, as is the forecast for carry forward projects. Each of these will be submitted to Council for review

following the annual audit of the 2023/2024 Financial Statements. In the interim, the estimates are considered reasonable for calculation of the 2024/2025 opening surplus.

### Rates

The following rating categories, rates in the dollar and minimum payments for 2024/2025 are recommended for adoption:

Rating Category	Minimum Payment (\$)	Rate in the Dollar (\$)
<b>GRV Rating Categories</b>		
Improved Residential	1,222	0.08846
Improved Commercial & Industrial	1,592	0.10667
Vacant	1,222	0.19415
<b>UV Rating Categories</b>		
General Industry	1,592	0.02029
Rural	1,222	0.00528
Mining & Industrial	1,592	0.00940

At the Ordinary Council Meeting of 24 April 2024, Council resolved to advertise a 4.2% rate increase.

The Long-Term Financial Plan (LTFP) has been reviewed to account for the significant changes in the economic outlook over the past three years. The updated 2025-2034 LTFP has been aligned with the 2024/2025 budget and included for adoption in the Ordinary Council meeting on 26th June 2024.

In February 2024 the headline CPI was 3.9%, which is still higher than RBA benchmark of 2 to 3%. The Local Government Cost Index (LGCI), as published by WALGA in April 2024 is now forecast at 3.9% for June 2024. Although there is a decreasing trend in both the CPI and the LGCI Local Governments are still being impacted by increasing staff, material and contract costs which is impacting service delivery.

To provide financially sustainable services, the City relies on key metrics like the asset sustainability ratio. We have set an 80% target for this ratio in the 2021-2031 Strategic Community Plan. To maintain the renewals ratios for 2024/2025, we need a moderate rate increase of 0.3% above the LGCI to support the refurbishment of the City's Administration office, which is nearing the end of its life cycle, hence an increase to the overall rates levy of 4.2%, which will result in rates income of \$52,862,845.

The minimum payment has increased by 4.2%. In accordance with section 6.35(3) of the *Local Government Act 1995*, the local government is to ensure that not more than 50% of the total of separately rated properties in the district or 50% of the number of properties in each category, are on the minimum rate. The 2024/2025 Vacant differential rate category has more than 50% of vacant properties on the minimum payment, requiring Ministerial approval, which has been provided.

In accordance with section 6.33(3) of the *Local Government Act 1995* the local government is not to, without the approval of the Minister, impose a differential general rate which is more than twice the lowest differential general rate imposed by it. Based on the proposed advertised differential rates, the City has received approval of the Minister to impose differential rates for:

1. UV General Industry rate in the dollar is more than twice the value of the lowest UV rating category, Rural.
2. GRV Vacant rate in the dollar is more than twice the value of the lowest GRV rating category, Improved Residential.

**Rates Payment Options and Hardship Relief**

Penalty interest is being maintained at 7%, even though *Regulation 70 of the Local Government (Financial Management) Regulation 1996* stipulate that the maximum interest can be 11%.

Furthermore, the City is opting to maintain the reduced interest rate of 3% on instalment plan options despite *Regulation 68 of the Local Government (Financial Management) Regulation 1996* recommending a maximum rate of 5.5%. This reduced penalty interest and interest rates on instalment plan aim to assist residents facing difficulties in the current economic conditions.

Administration charges will be payable on instalment options two and two, however, those choosing to pay by direct debit will continue to not be charged.

The City offers a choice of options to pay rates, including a direct debit system that can be utilised to pay rates, waste fees and the State Government's Emergency Services Levy, in weekly (39 payments) or fortnightly (19 payments) repayment options.

The City continues to ensure the Hardship Policy is accessible to all ratepayers that are in financial stress or in a position of vulnerability.

**Capital Expenditure**

Total capital expenditure for 2024/2025 is \$27,623,119, with \$11,347,884 being funded from non-operating grants and contributions. The balance of the funding for the capital works program is from sale of assets, reserve funds, borrowings and municipal fund. The detailed capital expenditure is as per Appendix 1 of Attachment C.

Apart from the ongoing capital renewal projects this year there has been a significant increase in major capital projects which includes the renewal of the Administration building, Kwinana Loop Trail, Wellard West Community Facility and Thomas Oval changeroom upgrade. Further details of these projects totalling \$16,077,017 are provided below:

**Administration Building Renewal**

2. The civic and administration building, aged 30 to 50 years, requires substantial funds for renewals due to aging components. Major expenses include over \$1.5 million for an overdue HVAC system replacement, which will also necessitate replacing the ceiling and adding insulation. The fire alarm system is also at the end of its life, causing frequent false alarms due to corrosion. Overall, approximately \$5 million will be needed over the next 10 years to address these issues, with most of the funding required in the next few years.

Consultants evaluated the refurbishment of the existing building, focusing on modernizing the internal layout and improving energy efficiency. The proposal includes reconfiguring the Council Chamber and Lounge, improving energy efficiency with solar panels and the option of allowing part of the building to remain operational during renovations. The refurbishment aligns with community feedback from the City Centre Precinct Structure Plan consultation which highlighted support to retain the Administration Building at the current site provide a 'like-new' building within the City's funding capacity and retains the building's significant embodied carbon.

The estimated cost of the refurbishment will be \$9,020,000 which will be funded from the Asset Management Reserve with the remaining \$6,800,000 funded through a loan. This project is estimated to span over 2 years with \$6,800,000 included in the current budget.

**Kwinana Loop Trail**

The Kwinana Loop Trail is a 21-kilometre circuit around the perimeter of the City of Kwinana. The City has engaged consultants to develop a Master Plan which has identified the opportunity to improve the existing trail for mountain biking and hiking and opens the prospect to develop cultural tourism, interpretive signage and guided tours of significant Aboriginal sites and heritage assets along the trail. The total project budget is estimated to be around \$10 million, to be delivered in three stages.

Stage 1, scheduled for construction in 2024/25 includes resurfacing, realignments and upgrade of directional signage and gates. This major project also requires a five-year contracted position for a Project Officer to engage with the community and key stakeholders and to manage the project.

The estimated cost of Stage 1 construction is \$3,653,857 with \$3,500,000 funded from the Western Australia Government Outdoor Adventure Tourism package (refer to Appendix 4 of Attachment C) and the balance of the funds was as per the LTFP allocation.

#### Wellard West Community Facility

The Wellard West Community Facility will address community infrastructure needs at the Wellard West Sportsground (McWhirter Oval). Construction is scheduled to commence in late 2024, and the new facility will meet community needs and the requirements outlined in the City's Community Infrastructure Plan 2021-2031.

The architects have designed the facility to ensure the best value for money outcome while meeting community needs. Sustainability is a priority, with the building incorporating energy-efficient features such as solar power. Functionality and user flow have been carefully considered to maximize community access, with separate areas designated for sporting and community use. Smart technology will be integrated for easy access, alongside features for disability access and inclusivity.

The estimated construction cost is \$4,806,000 with \$2,544,000 being included in the current budget and the balance included in the LTFP. This project will be funded from the Developer Contributions (DCA12).

#### Thomas Oval Changeroom Extension/Upgrade

In 2021, Madeline King MP pledged \$2.4m to fund construction of the Thomas Oval Changerooms, bringing the project forward from 2028 as listed in the Community Infrastructure Plan 2021 - 2031. Confirmation of the grant was received by the City in December 2023.

The design was considered with a particular focus on functionality for the end user and feedback sought from existing sports clubs, and regular and casual hirers at Thomas Hall. With a commitment to sustainability, the building incorporates energy efficiency with low carbon construction materials, natural ventilation and lighting. The four changerroom spaces include treatment pods with direct access to outside the building.

The estimated cost of the construction is \$2,283,350 which will be funded 100% from the Commonwealth of Australia, Department of Infrastructure, Transport, Regional Development, Communications and the Arts (refer to Appendix 4 of Attachment C).

#### Corporate Business System Upgrade

The final phase of the Corporate Business System upgrade is scheduled for 2024/2025 at a total cost of \$795,810. This stage will make the City fully operational on the OneCouncil System, eventually phasing out the legacy system, Authority – Civica.

#### **Fees and Charges**

Each Division has reviewed the schedule of fees and charges applicable to their area and recommendations are submitted through this report to Council for consideration as part of the Budget adoption process. The consolidated schedule of fees and charges presented at Attachment B includes a description of the fee, how the fee or charge was calculated, the GST implication and any relevant legislation applicable to the fee or charge.

**Refuse Collection and Three Bin Garden Organic (GO) implementation**

The waste service charge has increased to \$393 in 2024/2025 which is a 14% increase. This fee increase was necessary to cover the costs of the City's waste management contracts, waste operations and the roll out of the 3-bin Garden Organics (GO) service, scheduled to commence towards the end of the financial year.

The service includes weekly collection of a 140L or 240L general waste bin, fortnightly collection of a 240L or 360L recycling bin and fortnightly collection of a 240L GO bin once rolled out, in addition to two bulk waste and three green waste verge collections through the year. It should be noted that Council has resolved to change the verge collection service. This decision does not impact verge collection services for 2024/25.

The 3-Bin GO Rollout Project will cost \$2,480,120, primarily covering the expense of the new bins, project management and communications costs. This cost will be paid from the Refuse Reserve, with plans to recoup 75% of the funds by charging residents \$33 per year over the next three years. The Refuse Reserve is unable to be used to fully fund the project as it is required for contaminated sites liabilities and future strategic waste management projects.

**Swimming Pool Inspection Fee**

The mandatory swimming pool inspection fee will increase to \$68.00 in the 2024/2025 financial year. The City has reviewed the cost of the swimming pool inspection fee and on average it costs the City \$272 per inspection. A swimming pool is inspected once every four years.

**Budget Variations and Material Variances**

To reduce the administrative burden on City Officers and Council, it is proposed that budget variations presented to Council are limited to new operating and capital expenditure only. All under and over expenditures for adopted budget lines will be managed and authorised by the Chief Executive Officer.

Material variances of actual income and expenditure versus current budget will still be reported in the Monthly Financial Report. City Officers are recommending a reporting material variance of 10% or \$50,000, whichever is the greater, that will be used in the monthly financial statements of financial activity.

**New Borrowing**

In the new financial year, a new loan for \$6,800,000 has been included for the refurbishment of the Administration Building which is estimated to cost \$9,020,000. This loan has an indicative interest rate of 4.80% provided by West Australian Treasury Corporation for a 15-year loan term, with total interest amounting to \$2,820,438.

The additional loan will increase the City's total borrowings to \$15,336,040 from \$8,854,435 at the end of the financial year.

**Reserves**

The Reserve opening balance as of 1 July 2024, is estimated to be \$58,251,511, as noted in Attachment A (note 9). This includes a transfer to the reserve of \$8,661,177 and a transfer out of the reserve of \$10,995,573, leaving an estimated closing balance of \$55,917,115.

Transfer to reserve

The transfer to reserve of \$8,661,177 is made of the following material movements:

- Asset Management Reserve (\$2,342,303) - \$1,720,000 of this amount is allocated for the Administrative Building renewal and \$505,000 for future asset renewal expenditure.
- Plant and Equipment Replacement Reserve (\$1,572,767) - this includes \$687,750 from the transfer of proceeds from disposal of assets and \$839,700 for future plant and equipment replacement expenditure.

- Refuse Reserve (\$865,771) - \$631,550 of this amount relates to recoupment of the 3-bin Go Rollout project and \$101,293 relates to savings expected from the Waste to Energy initiative and operational savings.
- Interest on all reserves is forecasted to be \$2,287,581 for this financial year.

#### Transfer from reserve

A total of \$10,995,573 funds were transferred out of reserve and the items with significant movements are listed below:

- Asset Management Reserve (\$2,684,857) - \$985,380 for the renewal of various parks and reserves and \$1,669,477 for various building renewal initiatives as per the City's asset management plans.
- Information Technology Reserve (\$400,000) – this is for the final phase of the One Council project which is estimated to be \$795,810.
- Plant and Equipment Replacement Reserve (\$1,590,700) - \$934,700 relates to Light Fleet and \$556,000 are for other Plant items.
- Refuse Reserve (\$2,480,120) – this cost is for 3-Bin Go Rollout project, a significant operating project and milestone for the City. The bins are expected to be rolled out towards the latter part of the financial year.

Family Day Care Reserve is not required and therefore this reserve will be closed this financial year as the Day care is not operational.

### **STRATEGIC IMPLICATIONS**

There are no strategic implications as a result of this proposal.

### **SOCIAL IMPLICATIONS**

There are no social implications as a result of this proposal.

### **LEGAL/POLICY IMPLICATIONS**

This Budget has been prepared in accordance with the *Local Government Act 1995*, the *Local Government (Financial Management) Regulations 1996* and *Australian Accounting Standards*.

Section 6.2 of the *Local Government Act 1995* requires the Local Government to prepare an annual budget not later than 31 August in each financial year.

Divisions 5 and 6 of Part 6 of the *Local Government Act 1995* refers to the setting of budgets and raising of rates and charges.

Section 67 of the *Waste Avoidance and Resource Recovery Act 2007* enables a local government to impose an annual charge for waster services.

Section 6.16 of the *Local Government Act 1995* requires Council to approves the City's Annual fees and charges.

Section 5. 5.98 and 5.98A of the *Local Government Act 1995* and Section 7B(2) of the *Salaries and Allowances Act* sets out the fees and allowances payable to the Council members, Deputy Mayor and Mayor.

## **FINANCIAL/BUDGET IMPLICATIONS**

After considering all income and expenses and an estimated opening surplus this has resulted in a balanced budget for the City.

## **ASSET MANAGEMENT IMPLICATIONS**

The allocation of funds towards the upgrading, renewal and maintenance of existing City assets in the budget is in line with the LTFP.

## **ENVIRONMENTAL/PUBLIC HEALTH IMPLICATIONS**

Broad public health implications are identified as a result of this Budget. No specific environmental implications exist as a result of this recommendation that have not otherwise been identified.

## **COMMUNITY ENGAGEMENT**

The Budget is based on the City's LTFP, which is developed in parallel with the Strategic Community Plan. A comprehensive process of pre-engagement, community surveys and post engagement are used to develop these key strategic documents. Within the final consultation document, it was confirmed that the basis of rates would use the LGCI along with key new projects.

The proposed rates were advertised by local public notice in The West Australian newspaper and in the Sound Telegraph newspaper on 1 May 2024, detailing each rate in the dollar and minimum payment. A submission period of 21 days was provided. Submissions closed at 5pm, 23 May 2024 and 12 submissions were received.

## CITY OF KWINANA

NOTES TO AND FORMING PART OF THE BUDGET  
FOR THE YEAR ENDED 30 JUNE 2025**1 BASIS OF PREPARATION**

The annual budget is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

**Local Government Act 1995 requirements**

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the annual budget be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

**The local government reporting entity**

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 12 to the annual budget.

**2023/24 actual balances**

Balances shown in this budget as 2023/24 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

**Budget comparative figures**

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

**Comparative figures**

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

**Rounding off figures**

All figures shown in this statement are rounded to the nearest dollar.

**Statement of Cashflows**

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from a statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities.

**Initial application of accounting standards**

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- AASB 2020-1 Amendments to Australian Accounting Standards
- Classification of Liabilities as Current or Non-current
- AASB 2022-5 Amendments to Australian Accounting Standards
- Lease Liability in a Sale and Leaseback
- AASB 2022-6 Amendments to Australian Accounting Standards
- Non-current Liabilities with Covenants
- AASB 2023-1 Amendments to Australian Accounting Standards
- Supplier Finance Arrangements
- AASB 2023-3 Amendments to Australian Accounting Standards
- Disclosure of Non-current Liabilities with Covenants: Tier 2

It is not expected these standards will have an impact on the annual budget.

- AASB 2022-10 Amendments to Australian Accounting Standards
  - Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities, became mandatory during the budget year. Amendments to AASB 13 *Fair Value Measurement* impacts the future determination of fair value when revaluing assets using the cost approach. Timing of future revaluations is defined by regulation 17A of *Local Government (Financial Management) Regulations 1996*. Impacts of this pronouncement are yet to be quantified and are dependent on the timing of future revaluations of asset classes
- No material impact is expected in relation to the 2024-25 statutory budget.

**New accounting standards for application in future years**

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 Amendments to Australian Accounting Standards
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- AASB 2021-7c Amendments to Australian Accounting Standards
- Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]
- AASB 2022-9 Amendments to Australian Accounting Standards
- Insurance Contracts in the Public Sector
- AASB 2023-5 Amendments to Australian Accounting Standards
- Lack of Exchangeability

It is not expected these standards will have an impact on the annual budget.

**Judgements, estimates and assumptions**

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- estimation of fair values of land and buildings and investment property
- impairment of financial assets
- estimation uncertainties and judgements made in relation to lease accounting
- estimated useful life of assets
- estimation of provisions
- estimation of fair value of leases

The City did not raise specified area rates for the year ended 30th June 2025.

All rateable properties within the district used predominately for non-rural purposes are rated according to their Gross Rental Valuation (GRV), all other properties are rated according to their Unimproved Valuation (UV).

The general rates detailed for the 2024/25 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

**(c) Objectives and Reasons for Differential Rating**

To provide equity in the rating of properties across the City the following rate categories have been determined for the implementation of differential rating.

**Differential general rate and minimum payment**

Description	Characteristics	Objects	Reasons
<b>Gross Rental Value (GRV)</b>			
Improved Residential	This differential rate category imposes a differential general rate on land valued on a gross rental value basis for rateable properties used for residential purposes where the zoning allows for residential use.	The object of this rate is to apply a base differential general rate to land zoned and used for residential purposes and to act as the City's benchmark differential rate by which all other GRV rated properties are assessed.	The reason for this rate is to ensure that all ratepayers make a reasonable contribution towards the ongoing maintenance and provision of works, services and facilities throughout the City.
Improved Commercial and Industrial	This differential rate category imposes a differential general rate on land valued on a gross rental value basis, which is not used for residential purposes and is not vacant land.	The object of this rate category is to apply a higher differential rate so as to raise additional revenue to offset the increased costs associated with service provision to these properties.	The reason for this rate is that a higher differential rate is required to meet the higher level of service costs associated with Commercial and Industrial properties and the localities within which they are situated, including costs of:  (a) provision and maintenance of transport and streetscape infrastructure including renewal/refurbishment infrastructure, car parking and traffic treatments; and  (b) the management, administration and delivery of marketing activities aimed at enhancing the economic and social viability, and the general amenity of the Kwinana commercial and industrial areas.
Vacant	This differential rate category imposes a differential general rate on land valued on a gross rental value basis, which is vacant land.	The object of this rate is to ensure that all ratepayers make a reasonable contribution towards the ongoing maintenance and provision of works, services and facilities throughout the City.	The reason for this rate is to ensure that all ratepayers make a reasonable contribution towards the ongoing maintenance and provision of works, services and facilities throughout the City.

**(c) Objectives and Reasons for Differential Rating (continued)**

<b>Unimproved Value (UV)</b>			
General Industrial	This differential rate category imposes a differential general rate on land zoned for the purpose of General Industry under Local Planning Scheme No 2.	The object of this rate category is to raise additional revenue to offset the costs associated with increased maintenance of infrastructure and higher levels of service provided to or associated with properties in this category.	The reason for this rate is to meet a significant proportion of the additional costs involved in servicing properties within this rate category, which include but are not limited to major outlays for transport infrastructure maintenance and renewal/refurbishment and significant costs relating to monitoring of land use and environmental impacts.
Mining and Industrial	<p>This differential rate category imposes a differential general rate on land valued on an unimproved value (UV) basis, which is:</p> <p>(a) zoned for the purpose of Rural B under Local Planning Scheme No 2; or</p> <p>(b) held or used for industrial, extractive industry or quarrying purposes under a Master Plan adopted pursuant to Part 3 of the Hope Valley-Wattleup Redevelopment Act 2000; or</p> <p>(c) zoned for the purpose of Rural A under Local Planning Scheme No 2 and held or used for industrial, extractive industry or quarrying purposes.</p>	The object of this rate category is to raise additional revenue to offset the costs associated with increased maintenance of infrastructure and higher levels of service provided to properties in this category.	The reason for this rate is the need to offset the higher level of costs associated in servicing these properties, including the costs of transport infrastructure maintenance and renewal/refurbishment, and costs relating to monitoring of land use and environmental impacts.

(c) Objectives and Reasons for Differential Rating (continued)

Rural	<p>This differential rate category imposes a differential general rate on land valued on an unimproved value (UV) basis which is predominantly used or held for rural pursuits, rural industry or intensive agriculture, and:</p> <p>(a) is not zoned for the purpose of General Industry under Local Planning Scheme No 2; or</p> <p>(b) is not zoned for the purpose of Rural B under Local Planning Scheme No 2; or</p> <p>(c) is not held or used for industrial, extractive industry or quarrying purposes under a Master Plan adopted pursuant to Part 3 of the Hope Valley-Wattleup Redevelopment Act 2000.</p>	<p>The object of this rate category is to impose a differential rate commensurate with the rural use of land, which additionally is to act as the City's benchmark differential UV rate and is considered to be the base rate by which all other UV rated properties are assessed.</p>	<p>The reason for this rate is to ensure that all ratepayers on rural land make a reasonable contribution towards the ongoing maintenance and provision of works, services and facilities throughout the City.</p>

NOTES TO AND FORMING PART OF THE BUDGET  
FOR THE YEAR ENDED 30 JUNE 2025**

**3. NET CURRENT ASSETS**

**(e) MATERIAL ACCOUNTING POLICIES**

**CURRENT AND NON-CURRENT CLASSIFICATION**

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

**TRADE AND OTHER PAYABLES**

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

**PREPAID RATES**

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the City recognises revenue for the prepaid rates that have not been refunded.

**Superannuation**

The City contributes to a number of superannuation funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

**GOODS AND SERVICES TAX (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

**CONTRACT LIABILITIES**

Contract liabilities represent the City's obligation to transfer goods or services to a customer for which the City has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

**TRADE AND OTHER RECEIVABLES**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the City measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The City applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

**PROVISIONS**

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**EMPLOYEE BENEFITS**

**Short-term employee benefits**

Provision is made for the City's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position.

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

**Other long-term employee benefits**

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**MATERIAL ACCOUNTING POLICES**

**CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

**FINANCIAL ASSETS AT AMORTISED COST**

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

**RECOGNITION OF ASSETS**

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

**GAINS AND LOSSES ON DISPOSAL**

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

**DEPRECIATION**

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings - specialised	2 to 100 years
Furniture and equipment	2 to 15 years
Plant and equipment	3 to 20 years
Infrastructure - roads (excluding sub grade)	12 to 80 years
Infrastructure - footpaths	40 - 80 years
Infrastructure - drainage	80 - 100 years
Infrastructure - carparks	5 to 30 years
Infrastructure - parks and ovals	10 to 50 years
Infrastructure - Bus Shelters	20 to 25 Years
Infrastructure - Street Lights	15 to 30 years
Infrastructure - Other	30 to 40 years
Right of use - plant and equipment	Based on the remaining lease
Intangible assets - computer software development	5 - 30 years

**AMORTISATION**

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

**MATERIAL ACCOUNTING POLICIES**

**BORROWING COSTS**

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

MATERIAL ACCOUNTING POLICIES

LEASES

At the inception of a contract, the City assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the City uses its incremental borrowing rate.

LEASE LIABILITIES

The present value of future lease payments not paid at the reporting date discounted using the incremental borrowing rate where the implicit interest rate in the lease is not readily determined.

## **15.2 LONG TERM FINANCIAL PLAN 2025-2034**

### **DECLARATION OF INTEREST**

There were no declarations of interest declared.

### **SUMMARY**

In accordance with section 5.56 of the Local Government Act 1995, Council is required to plan for the future of the district. As part of the integrated planning framework set out by the Department of Local Government, Sport and Cultural Industries, the Long Term Financial Plan balances the financial capacity of the City with the outcomes from the Strategic Community Plan (SCP), Corporate Business Plan (CBP), Community Infrastructure Plan, Workforce Plan, various plans and strategies and Asset Management Plans.

The Long-Term Financial Plan is an 'informing strategy' within the Integrated Planning and Reporting Framework and plays a vital role in prioritisation and integration, supporting the local government in current and future decision making. It enables the local government to achieve SCP and CBP outcomes, based on their resourcing capabilities, for the delivery of short, medium, and long-term community priorities. It is also an indicator of a local government's long term financial sustainability and allows early identification of financial issues and their longer-term impacts. The LTFP highlights linkages between specific plans and strategies and enhances the transparency and accountability of the council to the community.

In June 2021, Council adopted the Strategic Community Plan, Corporate Business Plan, 20 year Long Term Financial Plan 2022 – 2042, Infrastructure Strategy and Workforce Plan. Later, in December 2021, Council adopted an updated 4-year LTFP for 2023 to 2026.

Significant changes in the economic landscape rendered the assumptions of both the 4-year and 20-year Long-Term Financial Plans (LTFP) outdated. As a result, a revised LTFP had to be developed for a 10-year period, covering 2025 to 2034. Creating a 10-year Long-Term Financial Plan (LTFP) is more prudent than a 20-year plan due to its greater accuracy, flexibility, and manageability in adapting to economic changes and uncertainties, ensuring the City can effectively address its updated financial needs and projections amidst evolving economic conditions.

### **OFFICER RECOMMENDATION**

That Council adopt the Long Term Financial Plan 2024/2025 to 2033/2034 detailed in Attachment A.

### **VOTING REQUIREMENT**

Simple majority.

### **DISCUSSION**

The City of Kwinana's Long Term Financial Plan 2025-2034 is a comprehensive review of the 10-year Long Term Financial Plan. This plan forecasts the income and expenditure the City expects to incur over the coming years. It is a crucial document to ensure that the City meets its objectives set by the Strategic Community Plan (SCP) while maintaining financial sustainability.

The attached report has been prepared in consultation with the Elected Members at briefing sessions in April. Consideration was given to:

- Current levels of service
- Introduction of new services
- New infrastructure
- Workforce growth
- Community growth

Assumptions must be made when creating a forward-looking plan. With this in mind, the assumptions around growth and cost increases have been conservative, and this is reflected in the planned rate increases.

The City's strategy to tie rate increases to the Local Government Cost Index (LGCI) and any infrastructure project aimed at improving the City's asset sustainability ratio is to ensure a consistent approach to rate increases. As costs increase for the City; labour, construction, contractors, utilities; the rate rises will mirror that increase.

The draft budget for 2024-2025 is used as the baseline data for the 10yr LTFP. Assumptions are then made to the baseline data, which are detailed in the attached report and a summary is provided below, to project the budgets for future years. The Long-Term Financial Plan will be reviewed annually.

A summary of the key assumptions within the Long Term Financial Plan (LTFP) includes:

- Service levels are maintained at current levels.
- Income and expenditures are escalated based on relevant index rates.
- Rate increases: 4.2% for the first year, then 4% (2025/26), 3.88% (2026/27), 4.38% (2027/28), and 3.88% for the remaining years.
- Employee costs: 3.5% (2025/26), 3.30% (2026/27), 3.3% (2027/28), 2.80% for remaining years, subject to enterprise bargaining.
- Superannuation Guarantee: 12.5% (2024/25), increasing to 13% for subsequent years, including a 1% additional co-contribution.
- Conservative increase in staff numbers to reflect population growth and expanded services.
- Fees and charges increased by the LGCI.
- Interest earnings based on 5-year borrowing rates of WATC less one percent.
- Conservative estimates for Perth CPI and LGCI for remaining costs.
- Loan borrowings based on WATC's 15-year and 25-year borrowing rates.

Below are some of the key projects that have been included within the LTFP. It should be noted that some of these projects are still in the feasibility phase, and their project timelines are subject to change and will be subsequently refined during the annual review of the LTFP. These projects are:

- Wellard West Community Facility
- Administration Building
- Kwinana Loop Trail
- Thomas Oval Changeroom
- Recquatic Upgrade
- Corporate Business System
- 3 Bin Garden Organics rollout project

The LTFP is a robust and dynamic document that will be continuously reviewed and aligned with the City's evolving strategies and plans, allowing for adjustment to changes in the external environments.

## STRATEGIC IMPLICATIONS

This proposal will support the achievement of the following outcome/s and objective/s detailed in the Strategic Community Plan and Corporate Business Plan.

Strategic Community Plan			
Outcome	Strategic Objective	Action in CBP (if applicable)	How does this proposal achieve the outcomes and strategic objectives?
3 – Infrastructure and services that are affordable and contribute to health and wellbeing	3.1 – Develop quality, affordable infrastructure and services designed to improve the health and wellbeing of the community	N/A – There is no specific action in the CBP, yet this report will help achieve the indicated outcomes and strategic objectives	The CIP and asset management plans will inform the LTFP
5 – Visionary leadership dedicated to acting for its community	5.1 – Model accountable and ethical governance, strengthening trust with the community	N/A – There is no specific action in the CBP, yet this report will help achieve the indicated outcomes and strategic objectives	The SCP and CBP will provide direction for the LTFP

## SOCIAL IMPLICATIONS

There are no social implications as a result of this proposal.

## LEGAL/POLICY IMPLICATIONS

Section 5.56 of the *Local Government Act 1995* states:

- (1) *A local government is to plan for the future of the district.*
- (2) *A local government is to ensure that plans made under subsection (1) are in accordance with any regulations made about planning for the future of the district.*

Section 6.2(2) of the *Local Government Act 1995* states:

*In the preparation of the annual budget the local government is to have regard to the contents of the plan for the future of the district made in accordance with section 5.56 and to prepare a detailed estimate for the current year of —*

- (a) the expenditure by the local government; and*
- (b) the revenue and income, independent of general rates, of the local government; and*
- (c) the amount required to make up the deficiency, if any, shown by comparing the estimated expenditure with the estimated revenue and income.*

The Integrated Planning and Reporting Long Term Financial Plan Guidelines issued by the Department of Local Government and Communities in September 2016 states:

*To retain alignment with the Corporate Business Plan, the Long Term Financial Plan needs to be a rolling and iterative document that is subject to annual review. More substantial reviews occur in conjunction with the two-yearly Strategic Reviews, alternating between the Minor Strategic Review and the Major Strategic Review.*

**FINANCIAL/BUDGET IMPLICATIONS**

The Long-Term Financial Plan is a key element of the Integrated Planning and Reporting Framework and is the informing strategy that enables the City to determine its capability to sustainably deliver assets and services to the community. It allows the City to set priorities, within its resourcing capabilities, to deliver short, medium and long term community needs.

The Long Term Financial Plan outlines the City's long term financial sustainability, allows early identification of financial issues and the longer term impacts, shows the linkages between specific plans and strategies, and enhances the transparency and accountability of the City to the community.

There are no direct financial implications to Council from the adoption of the Long-Term Financial Plan and the Plan will be used as a guide when considering the budget for the next financial year. The LTFP has been modelled on the 2024/25 Budget being the first year of a 10-year rolling plan. It is assumed that it is updated annually when the Annual Budget are reviewed and adopted.

**ASSET MANAGEMENT IMPLICATIONS**

The Long-Term Financial Plan addresses the funding gap of the renewal of assets. There is a planned approach to achieve an 80% ratio of investment in the renewal of assets. A 10-year capital programme has been developed to identify forecast capital expenditure.

**ENVIRONMENTAL/PUBLIC HEALTH IMPLICATIONS**

A key aim of the Long-Term Financial Plan is to enhance the City's financial sustainability, which will in turn contribute to protecting/enhancing the City's built and natural environment and to improving resource efficiency.

**COMMUNITY ENGAGEMENT**

The LTFP is an internal planning tool used to support the City's broader strategic planning framework, and particularly the Strategic Community Plan.

## Long Term Financial Plan

### Background

The City of Kwinana's Long Term Financial Plan (LTFP), also referred to as 'The Plan' is an important financial tool for the City. Alongside the Strategic Community Plan, Corporate Business Plan, Asset Management Plans, Community Infrastructure Plan (CIP), specific plans and strategies and Workforce Plan, the LTFP helps the city achieve its goals and realize its vision of being "A Unique and livable city, celebrated for and connected by its diverse community, natural beauty, and economic opportunities."

In June 2021, Council adopted a 20-year LTFP covering 2021 to 2041. Later, in December 2021, they adopted an updated 4-year LTFP for 2023 to 2026, which formed the basis for the 2022-2023 Statutory Budget.

However, significant changes in the economic landscape rendered the assumptions of both the 4-year LTFP and the 20-year LTFP outdated. As a result, a revised Long-Term Financial Plan (LTFP) has to be developed for a 10-year period, namely from 2025 to 2034.

To ensure the LTFP stays relevant amid economic uncertainties and shifting population dynamics, regular reviews of the plan will be conducted. This will help the city meet evolving community needs and expectations, maintain essential services and programs, uphold capital renewal initiatives, and launch new capital projects, thereby ensuring Kwinana's overall financial sustainability.

### Purpose of the LTFP

The Long Term Financial Plan (LTFP) helps ensure the City of Kwinana's long-term financial sustainability while meeting the needs and expectations of our communities and delivering the Council's objectives as specified in the Strategic Community Plan. Aligning the financial information in the LTFP with the community priorities outlined in the Strategic Community Plan is paramount. This plan, while ensuring the overall financial sustainability of the City, also directly achieves outcomes and strategic objectives in the Strategic Community Plan, namely:

- Strategic Outcome 3 – Infrastructure and services that are affordable and contribute to health and wellbeing
- Strategic Outcome 5 – Visionary leadership dedicated to acting for its community.

A major review of the Strategic Community Plan (SCP) has commenced, and this extensive community exercise is anticipated to be completed by 2024/2025 financial year. The outcome of this review will significantly impact the Long Term Financial Plan (LTFP) and will necessitate revisiting the LTFP to align with the updated community expectations.

### Plan Framework

The LTFP's assumptions and modelling provides the City with reliable, robust information to assess our capacity to maintain overall financial sustainability into the Long-Term and, most importantly, to ensure that we have in place the necessary funding arrangements to support proposed capital replacement programs and new capital projects. The Plan is expected to influence the City's Annual Budget each year, but it is recognised that the Plan is a dynamic and evolving document that responds to changing strategic priorities, service level expectations and economic conditions. In regularly reviewing the plan, where such changes occur and the impact is significant, the financial modelling will be adjusted to reflect these changes. This iterative approach reflects responsible business practice.

The LTFP has been modelled on the 2024/25 Budget, being the first year of a 10-year rolling plan. It is assumed that it will be updated annually.

The LTFP has been prepared under the following guidelines:

- Supports the Strategic Community Plan (SCP), Community Infrastructure Plan (CIP), Asset management Plans and the Corporate Business Plan (CBP)
- Maintains a balanced budget throughout (i.e. zero surplus)
- Focused on improving the asset sustainability ratio to a minimum of 80%
- Continues to maintain the level of service currently provided to the community

In preparing the LTFP the following assumptions and variables have been applied:

- Unless otherwise indicated through new proposals, service delivery levels are maintained at current levels (refer Appendix 3)
- All income and expenditures throughout the LTFP have been escalated based on relevant index rates
- Rates are planned to increase by 4.2% for the first year to reflect the Local Government Cost Index (LGCI) plus the cost of new renewal projects. Subsequent rate increases are set at 4% in 2025/26, 3.88% in 2026/27, 4.38% in 2027/28, and 3.88% for the remaining years of the LTFP.
- Employee costs are based on LGCI for employee costs, projected to be 3.5% in 2025/26, 3.30% in 2026/27, 3.3% in 2027/28, and 2.80% for the remaining years of the LTFP. These increases are still dependent on the outcome of enterprise bargaining negotiations, which are scheduled to commence later this year.
- Superannuation Guarantee is set at 12.5% for 2024/25 and will increase to 13% for the remaining years in the LTFP. This includes the City of Kwinana's Collective agreement to provide an additional co-contribution of 1%.
- Staff numbers have increased conservatively reflecting the growing population and expanding services provided by the City (refer Appendix 4).
- Fees and charges have been increased by the LGCI.
- Interest earnings have increased by the 5 year borrowing rates of WATC less one percent.
- Perth Consumer Price Index (CPI) and Local Government Cost Index (LGCI) have been estimated conservatively and used for the remainder of the costs.
- Loan Borrowings from WATC are based on WATC's 15-year and 25-year borrowing rates.

### Rates Strategy

Council's rating strategy takes into consideration the key values contained within *Rating Policy Differential Rates (s.6.33) March 2016* released by the then Department of Local Government and Communities being:

- Objectivity
- Fairness and Equity
- Consistency
- Transparency and Administrative Efficiency.

Over time, the costs associated with providing City services will increase. To ensure the same level of service every year, the City will progress towards improved financial sustainability by developing its Long Term Financial Plan, guided by the City's Rate Strategy which includes rate increases based on the movement of the WA Local Government Cost Index (LGCI).

Much like the Consumer Price Index (CPI), which indicates how much the cost of general household items has increased, the LGCI indicates how much the cost of items that a local government would typically purchase have increased. Increases to levels of service and additional projects can be factored in addition to the LGCI.

To achieve an 80% Asset Sustainability Ratio, the City plans to incrementally increase expenditure on asset renewal and replacement each year. This approach will necessitate rate increases beyond the Local Government Cost Index (LGCI). Efforts will be made to implement modest rate adjustments and reorganize the budget accordingly, although this may require reprioritizing other City services.

### The Community's Capacity to Pay

The City understands that imposing rate increases on a community that can't afford them is unsustainable. Although the City has indicated minimal rate increases as part of this plan, there are a range of flexible options to ensure that members of the community can find an arrangement to suit their circumstances in the payment of their rates. These are:

- Hardship Policy
- Rates Deferrals – Pensioners
- Variety of payment options
- Reduced penalty and instalment interest
- Direct debit arrangements with no administration fee

### Asset Management Sustainability

City of Kwinana has identified it must strike a balance between maintaining our current asset portfolio and the scale of ageing assets whilst meeting the needs of a growing and diverse community and a changing environment. This needs to happen within our means and be financially sustainable in the long term.

To ensure the City is on track with providing financially sustainable services, it measures its performance against several key financial ratios including the Asset Sustainability Ratio (refer appendix 2). The Asset Sustainability Ratio measures the amount a local government spends on maintaining its assets against how much those assets are depreciating.

Notably, the asset management strategy identifies two major capital projects requiring investment namely, the City's Administration building and Recquatic Centre. Both these facilities are ageing and have increased demands of community expectations. The City has looked at various options for a new administration center and the most economical and practical option was to renew the current building. This was presented and accepted by Council in May 2024. Further the City is in the process of developing a feasibility study for the Recquatic Centre to better understand the asset management plan, risk and financial investment required over the next 4-10 years.

### Capital Expenditure Overview

The City's Asset Management Plans detail information about our assets and define the services to be provided. There are a few new projects planned over the next 10 years, as well as significant investment in the renewal of our existing assets. As per the City's aim to be financially sustainable, there is a steady increase in the amount to be spent on renewal projects as the plan progresses. With this approach, the City will achieve the goal of an 80% asset sustainability ratio by 2034 which is indicated in the below table.

Some of the new projects to be undertaken over future years will be funded by the Developer Contribution scheme. Funds are collected upon each new subdivision and put aside in Reserve (DCA Reserve). Once the community need for each project is determined, the new infrastructure items can be constructed, using the funds collected.

### Key Capital Projects

The detailed listing of key capital expenditures over the 10-year period of the Long-Term Financial Plan (LTFP) is provided in Appendix 5. Some of the major outcomes and projects included in the LTFP are:

- **Wellard West Community Facility**  
The Wellard West Community Facility will address community infrastructure needs at the Wellard West Sportsground (McWhirter Oval), with construction starting in late 2024. Designed for value and sustainability, the facility will feature energy-efficient elements like solar power and accommodate both sporting and community uses. The project emphasizes functionality, accessibility, and inclusivity, incorporating smart technology for easy access. The estimated cost is \$4,806,000, funded by Developer Contributions Scheme (DCA12) funds, with \$2,544,000 included in the 2024/2025 budget and the remaining balance in the 2025/2026 budget.
- **Administration Building Renewal/Upgrade**  
The civic and administration building, aged 30 to 50 years, requires \$5 million over the next decade for essential renewals, including \$1.5 million for an overdue HVAC replacement and a failing fire alarm system. Consultants proposed a \$9,020,000 refurbishment to modernize the layout and improve energy efficiency, funded through a combination of the Asset Management Reserve and a \$6,800,000 loan. The project aligns with community feedback, retains embodied carbon, and will be completed by 2025/2026.
- **Kwinana Loop Trail**  
The Kwinana Loop Trail is a 21-kilometre circuit around the City of Kwinana, with a \$10 million improvement project planned in three stages. Stage 1, costing \$3,653,857 and funded mainly by the State Government, includes resurfacing, realignments, and signage upgrades, and is set for construction in 2024/25. Stages 2 and 3, estimated at \$7,786,000, will further enhance the trail and develop cultural tourism features.
- **Thomas Oval Changeroom Extension**  
In 2021, Madeline King MP pledged \$2.4 million to fund the construction of the Thomas Oval Changerooms, moving the project ahead from its original 2028 schedule. The design focuses on functionality, incorporating feedback from users and sustainable features such as energy efficiency and low-carbon materials. The construction, costing \$2,283,350, will be fully funded by the Commonwealth of Australia.
- **Recquatic upgrade and Renew**  
The Kwinana Recquatic is scheduled for an upgrade in 2027/28 as identified in the Community Infrastructure Plan (2011 – 2036) revised 2022. The City has commenced a feasibility and business case of the Recquatic precinct (encompassing the Zone) to ascertain the future community need and requirements of the facility. The Feasibility and Business case will include community engagement to determine need.
- **Corporate Business System implementation**  
The final phase of the Corporate Business System upgrade is scheduled for 2024/2025 at a total cost of \$795,810. This stage will make the City fully operational on the OneCouncil System, eventually phasing out the legacy system, Authority – Civica.
- **Implementation of the Community Infrastructure Plan**

- Renewal of Buildings, Roads, Bus Shelters, Car Parks, Drainage, Parks and reserves, street lighting, footpaths
- New bushland reserves
- New parks, Drainage, Bus Shelter, footpaths, street lighting
- Plant item replacements (both minor and major plant items)

### Waste Management Services

The project of 3 bin GO (Garden Organics) rollout project will commence at the latter of 2024/2025 financial year and will monitor the progression for the City towards alignment with the waste strategy 2030 and a 14% increase in material recovery; albeit at the expense of 10% higher emissions and \$0.8M higher annual costs (10-year average including roll-out cost). Changing to a 3-bin GO Waste to Energy (WtE) system would maintain a low to moderate risk profile.

The 3-Bin GO Rollout Project will cost \$2,480,120, primarily covering the expense of the new bins, project management and communications costs. This cost will be paid from the refuse reserve, with plans to recoup 75% of the funds by charging residents \$33 per year over the next three years. The refuse reserve is unable to be used to fully fund the project as it is required for contaminated sites liabilities and future strategic waste management projects.

The City plans to reassess the feasibility of implementing a FOGO (Food Organics and Garden Organics) service by 2029/30, anticipating that the processing industry and market for FOGO-derived products may have advanced sufficiently to enhance its viability by that time.

Starting in 2024, the City has begun sending its waste to the Avertas Energy Waste to Energy (WtE) facility, thereby bringing substantial environmental benefits and avoiding increasing Waste Levy charges.

Additionally, the City will continue to implement tailored waste education programs aimed at residents to avoid waste generation, maximise recycling and reduce contamination levels to further improve environmental outcomes, reduce costs, and improve operational efficiencies.

### Source of Funding

The below chart indicates the respective contributions of the various funding sources over the ten-year period covered by the plan. The major elements of the funding model are rates (59.41%), fees and charges (14.57%), reserves (13.27%), operating & non-operating grants (8.91%), proceed on disposal of assets (0.41%), interest revenue (2.26%) and other revenue (1.16%).

### Operating Expenditure

The proposed expenditure program reveals that approximately 27.15% of cash expenditure relates to employee costs and another 21.46% to materials and contracts, 1.85% to utilities, 0.67% to insurances, 0.55% towards loan servicing and interest, 0.06% for other expenditure with 21.72% applied to capital expenditure, 16.87% for depreciation, with the remaining 9.67% going to Reserves.

Over the life of the plan, funds will be applied towards meeting the costs of operational service delivery as well as expenditure on the capital expenditure including infrastructure renewals, debt servicing and replenishing Reserves.

### Cashflows

The LTFP sets out to achieve a “balanced budget”. This occurs when the municipal closing surplus/(deficit) is nil. This means that the municipal funds available at the end of each financial year is zero, with the exception of cash held in reserve funds which are set aside for a particular purpose.

### Reserve Fund Analysis

Local governments rely heavily on own source income, with rates being a major component. To fund ongoing operations and major projects, they require strategies to avoid significant variations in fund demand and impact on ratepayers. Reserves are established to set aside funds from current and past years for future projects and services. These financial reserves are an effective mechanism to manage financial stability sustainably, helping to prevent large or irregular rate increases when projects are delivered by spreading or smoothing the financial implications. This approach eases the financial impact on the community when a project needs to be delivered in a single year by using monies collected over time.

The City has reserves for both Municipal Reserves and Developer Contribution Reserves (DCA Reserves) (refer Appendix 8). DCA reserves hold monies collected from new developments and these contribute to the infrastructure required to support the community as it grows.

Below table shows a snapshot of both the Municipal and Developer contribution reserves over the 10-year LTFP period.

### Loan Borrowings

Loan borrowings are a financing facility available to local governments to sustainably meet the long-term needs of its community, particularly in respect to major capital works projects. The Local Government Act empowers the City to borrow within a financial strategy as part of a balanced funding package and are included in the City's Long Term Financial Plan where appropriate.

The City invests in capital expenditure that benefits inter-generations. Loan borrowings can be the most equitable finance option to fund capital expenditure. The 10-year review of the LTFP includes an increase in borrowings to mainly renew the City's ageing facilities but will see the full repayment of the existing loans by 2031 (refer Appendix 7). There are two new loans incorporated within the plan (refer below table):

- Loan of \$6,800,000 with a 15 years term for the Administration Building in 2024/2025
- Loan of \$19,354,585 with 25 years terms for the Recquatic facility in 2027/2028.

### Key Financial Indicators

There are a number of statutory financial indicators that a local government was required to calculate and disclose in both their financial planning and financial reporting documents. This mandatory requirement was removed from the Local Government Financial Management Regulations in June 2022.

Kwinana will continue to monitor these indicators until new ratios are developed by the Department of Local Government, Sport, and Cultural Industries, as they serve as a useful gauge of the City's operational sustainability. However, it must be appreciated that there is no single indicator that demonstrates a local government's financial sustainability - nor does it necessarily mean that it is fatal if a particular local government falls below the 'preferred' benchmark for that particular indicator in a single year.

It is important to understand not only the trend in a particular indicator but also the circumstances leading to the calculation of that particular indicator value to ensure that it is interpreted 'in context'. Appendix 2 has a summary of the key indicators for the LTFP.

## 18 REPORTS – CIVIC LEADERSHIP

### 18.1 ACCOUNTS FOR PAYMENT FOR THE MONTH ENDED 31 MAY 2024

#### DECLARATION OF INTEREST

Councillor Erin Sergeant declared an impartiality interest in item 18.1 Accounts for payment for the month ended 31 May 2024 due to pecuniary interest as funds were given in a grant to my employing organisation.

#### SUMMARY

The purpose of this report is to present to Council a list of accounts paid under delegated authority for the month ended 31 May 2024, as required by the *Local Government (Financial Management) Regulations 1996*.

#### OFFICER RECOMMENDATION

That Council:

1. Accepts the list of accounts, totalling \$11,201,919.26 paid under delegated authority in accordance with Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996* for the period ended 31 May 2024, as detailed at Attachment A.
2. Accepts the detailed transaction listing of credit card expenditure paid for the period ended 31 May 2024, as detailed at Attachment B.

#### VOTING REQUIREMENT

Simple Majority.

#### DISCUSSION

Council has delegated, to the Chief Executive Officer, the exercise of its power to make payments from the City's Municipal and Trust funds. In accordance with Regulation 13 of the *Local Government (Financial Management) Regulations 1996* a list of accounts paid is to be provided to Council, where such delegation is made.

The following table summarises the payments for the period by payment type, with full details of the accounts paid contained within Attachment A.

Payment Type	Amount (\$)
Automatic Payment Deductions *	\$ 21,826.24
Cheque	\$ 278.75
EFT Payments	\$ 8,971,744.93
Payroll Payments	\$ 2,208,069.34
<b>Total Attachment A</b>	<b>\$ 11,201,919.26</b>

\*Automatic Payment deductions include a payment of **\$19,720.75** for credit card payments. A detailed transaction listing of credit card expenditure paid for the period ended 31 May 2024 is included at Attachment B.

A detailed listing of May 2024 payments, including short descriptions for each payment, is provided in Attachment A. The May payments include \$2,515,824.26 to various developers for refunds related to DCA 8-15, following the Gazettal of Amendment 145 and the adoption of the Cost Apportionment Schedule in January 2024. These refunds were the final payments for DCA 8-15.

## 18.2 DELEGATED AUTHORITY REGISTER 2024/25

### DECLARATION OF INTEREST

There were no declarations of interest declared.

### SUMMARY

The *Local Government Act 1995* ('Act') and various others acts, regulations and local laws permit Council to delegate the exercise of select powers or the discharge of duties to the CEO and City officers. The Act requires the City to maintain a register of all such delegations, which is to be reviewed at least once each financial year.

A review of all Council delegations has now been completed and the Register of Delegated Authority 2024/2025 ('Register') is presented at Attachment A for adoption by Council. A tracked changes version is provided at Attachment B, demonstrating the proposed amendments.

The majority of proposed changes to the Register involve formatting as well as simplification to improve ease of use and understanding of the conditions and requirements applicable when exercising powers. The most significant change is the removal of delegation 1.1.2 – Execution of Documents.

The execution of documents is more appropriately managed by way of Council policy, which is the approach taken by the majority of local governments. The City has developed a new Execution of Documents policy as presented at Attachment C. This policy aims to streamline administrative processes, ensuring compliance with the *Local Government Act 1995* while promoting efficiency, consistency, and transparency regarding document execution.

As a result of this new policy, the existing Common Seal policy provided at Attachment D is now considered redundant and is recommended for revocation.

### OFFICER RECOMMENDATION

That Council:

1. Approve the delegation of its powers in accordance with the Register of Delegated Authority 2024/2025 as detailed in Attachment A for adoption by Council;
2. Adopt the new Execution of Documents policy as detailed in Attachment C;
- 1.
3. Revoke Policy – City of Kwinana Common Seal as detailed in Attachment D; and
4. Note that if minor amendments (limited to formatting, typographical errors and the like) to the Delegation Authority Register 2024/2025 are required these will be made administratively.

### VOTING REQUIREMENT

Absolute Majority.

## DISCUSSION

Sections 5.42 of the Act prescribes that Council may delegate certain powers and duties that they would ordinarily exercise, to the CEO.

Delegations by Council are an effective way to increase efficiency and improve customer satisfaction through prompt decision-making processes. Using the power of delegation appropriately assists local governments to efficiently deal with a wide range of operational matters that are minor, administrative in nature and potentially time consuming.

Council remains responsible for making decisions of high importance, some of which require absolute majority decisions and cannot be delegated.

Pursuant to section 5.44 of the Act, the CEO is responsible for delegating (where appropriate) to any employee the exercise of the CEO's powers or the discharge the CEO's duties under that Act (other than the power of delegation). Council approval is only required for the original delegation from Council to CEO.

The following is a summary of the changes to each of the delegations made as part of the current Register review:

Delegation	Notes
1.1.1 - Appoint Authorised Person and Authorise Persons to Perform Specified Functions under the Local Government Act 1995	Minor formatting amendments.
1.1.2 - Execution of Documents	<p>Delegation removed from Register.</p> <p>This delegation addressed the execution (signing) of documents by the CEO and officers on behalf of the City pursuant to s.9.49A(4). WALGA advised that this is more appropriately managed by way of Council Policy, which is the approach taken by the majority of local governments.</p> <p>Removal of this delegation addresses the potential confusion regarding officer's ability to enter into agreements on the City's behalf. The decision to enter into a contract for the procurement of a good or service on the City's behalf is made in accordance with the Purchasing Policy and financial authorisation limits. The removed delegation was intended to address the ability to execute documents following this decision-making process.</p>
1.1.7 - Agreements for community funding	Reference to Community Funding policy title amended.
1.1.9 - Administration of a Corporate Discount Agreement	Removed reference to the revoked Healthy Lifestyles Policy.
1.1.15 - Payments from municipal and trust funds	Minor formatting changes.
1.1.18 - Disposing of property	Amended to reflect the correct policy name and removed document number for the Related Party Disclosure Form as the City now utilises Attain to complete these forms.
1.1.22 - Amendment to Rates Record	Amendment to the referenced policy title.
11.1.1 - Subdivision and development control	Amended the Express powers to sub-delegate legislation reference.

12.1.1 – Deputy of Local Government Health (Miscellaneous Provisions) Act 1911	New delegation to appoint the CEO as the Deputy of the Local Government under the <i>Health (Miscellaneous Provisions) Act 1911</i> .
--	---

Following the removal of delegation 1.1.2 - Execution of Documents and to align with the advice provided by WALGA, the City has developed a new Execution of Documents policy, as presented at Attachment C.

The new policy outlines the procedures for executing documents on behalf of the City, ensuring compliance with the provisions of the *Local Government Act 1995*, while promoting consistency, efficiency, and transparency.

The primary objective of this policy is to ensure that the City's common seal is affixed, and documents are executed in accordance with the provisions of the *Local Government Act 1995*.

As part of the development of the new policy, the City conducted a review of its common seal policy, incorporating relevant information into the new Execution of Documents policy. Consequently, the City's common seal policy is now considered redundant, and it is recommended that Council revoke the City of Kwinana Common Seal policy as provided at Attachment D and replace it with the new Execution of Documents policy as presented at Attachment C.

## STRATEGIC IMPLICATIONS

# Register of Delegated Authority 2024/25

## Introduction

Section 5.42 of the *Local Government Act 1995* (the Act) allows for a local government to delegate to the Chief Executive Officer the exercise of any of its powers or the discharge of any of its duties under the Act (other than those under s5.43). The local government may also delegate the exercise of any of its powers to Committees pursuant to section 5.16, other than those under Section 5.17(1).

Section 5.44 of the Act provides for the Chief Executive Officer to delegate any of his or her powers to another employee, this must be done in writing. The Act also allows for the Chief Executive Officer to place conditions on any delegations that he or she has delegated. These powers or duties cannot, however, be further sub-delegated. These powers or duties are delegated to assist with improving the time taken to make decisions and are made within the constraints allowed by the relevant legislation. This is consistent with our commitment to a strong customer service focus.

The Department of Local Government & Communities *Guideline No. 17 – Delegations*, establishes the principal issue in determining whether a statutory function or duty is suitable for 'acting through' that being - where the statute provides no discretion in carrying out a function or duty, then the function or duty may be undertaken through the 'acting through' concept.

Conversely, where the statute allows for discretion on the part of the decision maker, then the function must either be delegated or a person authorised, or a policy implemented, that provides sufficient control for another person to have that authority and fulfil the function or duty.

The *Local Government Act 1995* does not specifically define the meaning of the term "acting through", however section 5.45(2) states;

"Nothing in this Division is to read as preventing –

- (a) A local government from performing any of its functions by acting through a person other than the CEO"; or
- (b) A CEO from performing any of his or her functions by acting through another person."

The purpose of this register is to ensure a record is kept of those powers or duties that have been delegated to ensure accountability and to meet the requirements of Section 5.46 of the Act. This register is a public document that contains 'Instruments of Delegation' that detail the function being delegated and the relevant statutory reference which is the source of power for the exercise of that function. Without limiting the effect of sections 58 and 59 of the *Interpretation Act 1984*, these delegations, made under the Act have effect for the period of time specified in the delegation or where no period has been specified, indefinitely. Any decision to amend or revoke these delegations by a local government is to be by an absolute majority.

This register of delegated authority will be reviewed in accordance with the Act on an annual basis.

### Delegations and authorisations under other Legislation

Where legislation provides for the direct delegation to authorise a person or a member of a class of persons by other agencies or decision makers. For example: The Environmental Protection Act allows for the CEO of the Department of Environment Regulation to grant delegated authority direct to a local government.

The authorisation is dealt with in the relevant legislation and, where required, the Instrument of Delegation or Notice of the Appointment is advertised in the Government Gazette.

Those Delegations or authorisations that may occur under legislation other than the *Local Government Act 1995*, its regulations and the local government's local laws include:

*Planning and Development Act 2005* and associated regulations  
*Dog Act 1976* and regulations;  
*Cat Act 2011* and regulations  
*Bush Fires Act 1954*, regulations and local law created under that Act;  
*Litter Act 1979* and regulations  
*Local Government (Miscellaneous Provisions) 1960* as amended;  
*Caravan Parks and Camping Grounds Act 1995*;  
*Control of Vehicles (Off-Road Areas) Act 1978* and regulations;  
*Environmental Protection Act 1986*  
*Environmental Protection (Noise) Regulations 1997*  
*Building Act 2011*

N.B. – This is not an exhaustive list.

# Register of Delegated Authority 2024/25

## Introduction

Section 5.42 of the *Local Government Act 1995* (the Act) allows for a local government to delegate to the Chief Executive Officer the exercise of any of its powers or the discharge of any of its duties under the Act (other than those under s5.43). The local government may also delegate the exercise of any of its powers to Committees pursuant to section 5.16, other than those under Section 5.17(1).

Section 5.44 of the Act provides for the Chief Executive Officer to delegate any of his or her powers to another employee, this must be done in writing. The Act also allows for the Chief Executive Officer to place conditions on any delegations that he or she has delegated. These powers or duties cannot, however, be further sub-delegated. These powers or duties are delegated to assist with improving the time taken to make decisions and are made within the constraints allowed by the relevant legislation. This is consistent with our commitment to a strong customer service focus.

The Department of Local Government & Communities *Guideline No. 17 – Delegations*, establishes the principal issue in determining whether a statutory function or duty is suitable for 'acting through' that being - where the statute provides no discretion in carrying out a function or duty, then the function or duty may be undertaken through the 'acting through' concept.

Conversely, where the statute allows for discretion on the part of the decision maker, then the function must either be delegated or a person authorised, or a policy implemented, that provides sufficient control for another person to have that authority and fulfil the function or duty.

The *Local Government Act 1995* does not specifically define the meaning of the term "acting through", however section 5.45(2) states;

"Nothing in this Division is to read as preventing –

- (a) A local government from performing any of its functions by acting through a person other than the CEO"; or
- (b) A CEO from performing any of his or her functions by acting through another person."

The purpose of this register is to ensure a record is kept of those powers or duties that have been delegated to ensure accountability and to meet the requirements of Section 5.46 of the Act. This register is a public document that contains 'Instruments of Delegation' that detail the function being delegated and the relevant statutory reference which is the source of power for the exercise of that function. Without limiting the effect of sections 58 and 59 of the *Interpretation Act 1984*, these delegations, made under the Act have effect for the period of time specified in the delegation or where no period has been specified, indefinitely. Any decision to amend or revoke these delegations by a local government is to be by an absolute majority.

This register of delegated authority will be reviewed in accordance with the Act on an annual basis.

### Delegations and authorisations under other Legislation

Where legislation provides for the direct delegation to authorise a person or a member of a class of persons by other agencies or decision makers. For example: The Environmental Protection Act allows for the CEO of the Department of Environment Regulation to grant delegated authority direct to a local government.

The authorisation is dealt with in the relevant legislation and, where required, the Instrument of Delegation or Notice of the Appointment is advertised in the Government Gazette.

Those Delegations or authorisations that may occur under legislation other than the *Local Government Act 1995*, its regulations and the local government's local laws include:

*Planning and Development Act 2005* and associated regulations  
*Dog Act 1976* and regulations;  
*Cat Act 2011* and regulations  
*Bush Fires Act 1954*, regulations and local law created under that Act;  
*Litter Act 1979* and regulations  
*Local Government (Miscellaneous Provisions) 1960* as amended;  
*Caravan Parks and Camping Grounds Act 1995*;  
*Control of Vehicles (Off-Road Areas) Act 1978* and regulations;  
*Environmental Protection Act 1986*  
*Environmental Protection (Noise) Regulations 1997*  
*Building Act 2011*

N.B. – This is not an exhaustive list.

# Council Policy

## Execution of Documents

Legislation/local law requirements	s.9.49A <i>Local Government Act 1995</i>
Relevant Delegation	N/A
Related policy procedures and documents	All related procedures relating to document control and record keeping

**Introduction**

The City recognises that optimising administrative processes enhances the efficiency and effectiveness of local government operations, ensuring prompt and seamless transactions for the community's benefit.

This policy directs the execution of documents on behalf of the City, to ensure compliance with the provisions of the *Local Government Act 1995* while promoting consistency, efficiency and transparency.

**Purpose**

The purpose of this Policy is to ensure that the City's common seal is affixed and documents are executed in accordance with the provisions of the *Local Government Act 1995* (Act).

**Objective**

For the City to execute documents in a consistent and transparent manner, in accordance with the Act.

**Scope**

This policy is applicable to all Elected Members, Chief Executive Officer, and employees of the City.

## Policy Provisions

### Policy

Pursuant to section 9.49A of the Act, a document is duly executed by a local government if the common seal is affixed to it, or it is signed by an officer authorised by Council to do so.

Executing documents by affixing the common seal or by an authorised person's signature does not constitute the decision to undertake a course of action. They can only be executed after a Council resolution, via the exercise of delegated authority, or as authorised by a Council policy.

The following will take precedent over this Policy in the event of any inconsistency:

- any legislation;
- formal requirements of a Commonwealth or State department, authority, or agency; or
- Council decision.

### 1. Execution of Documents

Council authorises the execution of documents on behalf of the City as follows:

Category 1 Document – Common Seal	
<b>Category 1(A): Documents requiring the common seal and a specific Council resolution</b>	
<p>Category 1A documents require a specific resolution of Council. These documents are executed by <b>affixing the common seal</b>, under the authorisation of Council, in accordance with section 9.49A(3) of the <i>Local Government Act 1995</i>.</p> <p>The following is a list of Category 1(A) documents:</p>	
#	Description
1	Local Laws.
2	Documents of a ceremonial nature (e.g. sister city agreements).
3	Local Planning Schemes (including any amendments).
4	Mortgages and loan documents.
5	Documents requested to be duly executed by common seal.
6	Leases of real property granted by the City.
<b>Category 1(B): Documents requiring the common seal without a specific Council resolution</b>	
<p>Category 1B documents are to be executed by <b>affixing the common seal</b> as part of a class of documents authorised by Council to be executed under the common seal without a specific Council resolution.</p> <p>The following is a list of Category 1(B) documents:</p>	
#	Description
1	General legal and service agreements not already listed in this Policy.
2	Agreements relating to grant funding, when the funder requires that the agreement be signed under seal.
3	Variations, assignment, novation or extension of a lease agreement approved by

	Council, where the lessee requires that the agreement be signed under seal.
4	Easements under the <i>Land Administration Act 1997</i> and/or <i>Strata Titles Act 1985</i> .
5	Notifications, covenants, easements, and caveats under the <i>Transfer of Land Act 1893</i> .

Category 2 Documents – No Common Seal	
Pursuant to section 9.49A(4) of the <i>Local Government Act 1995</i> , Council authorises the Chief Executive Officer and officers to sign Category 2 documents on behalf of the City of Kwinana <b>without affixing the common seal</b> .	
<b>Note:</b> the below list excludes any Category 1 documents.

Note that in the event an Officer assumes a higher position, they may only authorise documents if they have received full delegations and/or authorisation for that role and are acting comprehensively within the scope of the position.

## 2. Common Seal

The Mayor and Chief Executive Officer (or person acting in that position) are authorised to affix the common seal. This seal is for use on documents relating directly to the business of the City.

In accordance with Section 9.49A(3) of the *Local Government Act 1995*, the common seal must be affixed in the presence of the Mayor and Chief Executive Officer.

In the event the Mayor is on a leave of absence, the Deputy Mayor is authorised to affix the common seal in their place.

A register shall be maintained identifying all documents executed with the common seal affixed.

**22 REPORTS OF ELECTED MEMBERS****22.1 Deputy Mayor Barry Winmar**

Deputy Mayor Barry Winmar reported that since the last council meeting, he attended, along with fellow councillors the Citizenship Ceremony on Tuesday 18 June at Medina Hall. It was well attended and we had another group of new citizens choosing Kwinana to be new Australians.

The Deputy Mayor mentioned that on Wednesday, 19 June, he had attended the LYRiK Awards Ceremony and he passed on his congratulations to all nominees and winners for those awards and to the Youth Advisory Council for an evening that was run professionally and was organised very well and was from all reports the night went well.

The Deputy Mayor advised he attended as a State Councillor for the WALGA Governance Policy Team meeting.

The Deputy Mayor reported that on Monday, 24 June his organisation the Institute Indigenous Wellbeing and Sports, on behalf of the community and the Noongar community of Kwinana, had conducted the NAIDOC Opening Ceremony at Medina Hall. The Deputy Mayor explained that it had been well attended by our diverse community whom come down and showcased Aboriginal culture, how we engage and are inclusive of everyone in Kwinana.

The Deputy Mayor advised that he had the privilege, on the Mayors behalf, to open the photo exhibition for the Djinanginy Moort Koora, looking at the families in the area as a result of the 50<sup>th</sup> Anniversary of the Medina Aboriginal Cultural Centre and the long standing families that still live in the Kwinana area. The Deputy Mayor extended a shout out to Kerry-Anne de Klerk for her photography and experience and the light in which all the photographs in the exhibition have come through, advising it was quite a remarkable event. ## **22.2 COUNCILLOR MICHAEL BROWN**

Councillor Michael Brown reported that on Wednesday, 19 June he had attended the Gilmore College term two youth opportunities graduation, which he explained was the final milestone for a group of Gilmore College students who participated in an eight week program aimed at empowering them to become confident and motivated leaders in their personal lives and in the school community. He advised it had been quite an emotional ceremony as students reflected on their journey through the program and what it meant for their relationship with family, friends and their experience at school, noting, that you really could not walk away from this event without being so impressed with what this program was achieving and he encouraged everyone in the room, or listening on line, to connect with Gilmore College or the Youth Opportunities Australia Organisation to find out more about these personal leadership programs.

Councillor Brown took the opportunity to share a reflection from Kelly Summers, Associate Principle at Gilmore College who mentioned “over the eight weeks of the students being involved, it was really clear that we were seeing an improvement in their attendance and in their attitude at school. They were more positive in the way they engaged with staff. We know that from their feedback that they were having more positive relationships with parents and their peers. They were actually coming to school to be a part of the Youth Opportunities Program and although it was only one day a week, it actually improved their attendance, and we actually had kids come knocking at the doors, searching out the trainers asking how can I get involved, can I put my name down, will I be able to do this next year.” Councillor Brown commented on the amazing work and passed on his thanks to Kara Smith for the invite.

Councillor Brown advised that on Wednesday, 19 June he had attended alongside Elected Members and City staff, the 2024 LYRiK Awards and he reported that it had been an incredible evening celebrating the achievements of the City’s young residents. Councillor Brown explained that the 2024 LYRiK awards recognised a number of outstanding locals in front of a full house crowd at Koorliny Arts Centre, including our Carol Adams Young Person of the Year, Stephanie Beaumont. After participating in the LYRiK Awards judging panel for another year Councillor Brown stated he was excited to have the opportunity to present the Leadership Award on stage, he was sure that the stories that were shared as part of the nomination process and during the awards evening were honestly mind blowing. Further stating, without a doubt, the City’s young residents were putting themselves, their community and our city on the map and that makes him so proud.

Councillor Brown reported that on Thursday, 20 June, he had attended the Kings College Primary School Grand Opening alongside Mayor Feasey, Councillor Rowse and Minister Madeline King.
