Environment Team

- Biodiversity.
- Private landowners – advice and assistance to landowner in managing important bush and wetland areas within their properties.
- Managing City of Kwinana reserves as part of our Bushland Masterplan, we undertake a range of different activities in our bushland reserves such as weed control.
- Fencing.
- Revegetation.
- Assisting in fire management and planning.
- In addition, each winter our teams carry's out numerous community planting days where anyone in the community is welcome to attend.

Environmental Planning – ensuring that Kwinana’s environment is protected and managed during this time of rapid growth and development including:

- Assessing development proposals to ensure they are consistent with environmental policies and legislation.
- Working with key stakeholders to achieve draft vegetation protection targets as part of our draft Local Biodiversity Strategy.
- Ensuring new bushland/wetland POS areas in new subdivisions are protected and upgraded in an appropriate manner.
Water and Energy Conservation Initiatives – Through the South Metropolitan Regional Council, we provide the following programs here in Kwinana:

• Living Smart - An annual course, free of charge to Kwinana residents to learn how to improve the sustainability of their homes and their community.

• Residential Targeted Energy Action – This program works with individual households on specific actions that can make big reductions in household energy use.

• Local Centre's Combined Project – Some small to medium size local businesses and adjoining residents will be invited here in Kwinana to participate in a new project aimed at reducing greenhouse gas emissions through energy and waste reduction.

• In addition, we work closely with other staff members to ensure that any future Council building will be ‘eco-friendly’ and have also implemented a program to retrofit some of our existing buildings.

General Advice – Our Environment Team is always willing to provide general advice to local residents, community groups, businesses etc. on any environmental matter of concern.
