

Tomorrow's Kwinana

Effective planning today, helps to shape the Kwinana of tomorrow.

Local Planning Strategy - Community Survey

What does the Kwinana of tomorrow look like?

The City of Kwinana is seeking your input to help inform the development of a Local Planning Strategy (Strategy) vision and set of aspirations for the future of our City.

The Strategy will ultimately guide future land use planning and development of Kwinana over the next 20 years and beyond.

To have input into the Local Planning Strategy please answer the following questions or download a printed version of the survey on the City's website www.kwinana.wa.gov.au/tomorrowskwinana and return it by 24 May 2019 via:

- Post: City of Kwinana, PO Box 21, Kwinana WA 6966
- In person: City of Kwinana Administration Building, Cnr Gilmore Ave and Sulphur Road, Kwinana WA 6167
- Email: admin@kwinana.wa.gov.au

Printed copies of the survey will be available at the City of Kwinana's Customer Service Desk and at the Darius Wells Library.

To help you complete this survey, a series of informative discussion papers are available on the City's website at www.kwinana.wa.gov.au/tomorrowskwinana or in hard copy at the City of Kwinana's Customer Service desk or at the Darius Wells Library and Resource Centre.

Name:

Address

I would like to be updated at all stages of the Local Planning Strategy preparation.

Please tick the category that fits you best

Gender	Male	Female	
Age	18-24	25-34	35-44
	45-54	55-64	65+

Do you...

Live in Kwinana	Yes	No
Own property in Kwinana	Yes	No

How long have you lived in Kwinana?

Less than 3 years	3-5 years
6-10 years	11-20 years
Over 20 years	

Do you...

Work in Kwinana	Yes	No
Visit Kwinana	Yes	No

Effective planning today, helps to shape the Kwinana of tomorrow.

HOUSING

Kwinana's population is forecast to grow to 85,000 in the next two decades, adding another 44,000 people to the current population. To accommodate the additional households, approximately 15,000 new dwellings are required. Changing demographics, including an ageing population, and greater diversity of household types along with the cost of living would potentially require a wide range of housing choices across Kwinana.

1. On a scale of 1 to 10 (1 being low and 10 being high), how satisfied are you with the development of housing taking place in Kwinana?
1 2 3 4 5 6 7 8 9 10
2. How would you like to see the future housing in Kwinana developed?
3. Would you support three to four storey residential development occurring in your neighbourhood? If so, where?

4. What would you like to see developed in your neighbourhood for accessing your day to day household needs? Identify a street or a street intersection?

BIODIVERSITY

Kwinana is situated in one of the world's biodiversity hot spots, the southwest of Western Australia. Originally, the City had 11,980 ha of natural areas (i.e. pre-European). A total of 4,490 ha currently remains (i.e. 2,342 ha under State Government protection and 2,148 ha Local Natural Areas (LNA)). Protecting the LNAs, which contain biodiversity areas and biodiversity values is, the responsibility of the City and these LNAs exist in privately owned land, Public Open Spaces and City managed reserves.

1. On a scale of 1 to 10 (1 being low and 10 being high), how important is the retention and protection of biodiversity areas and values in planning for the future?
1 2 3 4 5 6 7 8 9 10
2. What locations, sites or values should be given priority when considering retention and protection from development?

Effective planning today, helps to shape the Kwinana of tomorrow.

3. How can the City support protecting biodiversity values, for example threatened vegetation, existing in private land holdings?

2. What do you like about the Kwinana City Centre? Where are there areas for improvement in regards to the Kwinana City Centre? Provide 3 examples each

I like

Areas for improvement

4. What are the key biodiversity issues that need to be considered when planning for the future?

3. What employment opportunities would you like to see more of in Kwinana?

EMPLOYMENT AND ECONOMIC DEVELOPMENT

Given the projected increase in population and need for additional jobs, there will be increasing pressure to create a diversity of jobs, as well as developing niche markets to meet the demand of future generations. Attracting new business and increasing the capacity of traditional retail based industries and trades will be an ongoing challenge. It will be critical to identify additional employment and economic development strategies to sustain Kwinana.

1. On a scale of 1 to 10 (1 being low and 10 being high), how do you rate the availability of local shops and services (other than that available in the Kwinana City Centre) in Kwinana?

1 2 3 4 5 6 7 8 9 10

4. What do you consider to be the niche business development opportunities for creating 'diversity in employment' for Kwinana? Provide three suggestions.

TRANSPORT

The City is subject to a range of transport, traffic, travel mode and parking issues. These issues are affected by the surrounding areas, and are likely to be impacted by future development both within the City and in the greater Perth Metropolitan Area. The existing transport network is likely to be further affected by residential and industrial growth, and regional transport needs. Consequently, a resident's transport choices gets affected by these issues. Planning for transport
